[ACRYLIC SHIELDS]

FROM RETAIL TO
HOSPITALITY, YOU
CAN PROTECT
YOUR GUESTS AND
EMPLOYEES

It's the responsibility of employers to create a safe work environment for employees who continue to travel to work and social distancing should play a big part of this. By following best practices, employers can keep their employees and communities safe without sacrificing productivity.

Our selection of shields can easily and quickly be added to any environment. Glass to fabric, freestanding to attached and everything in between. OfficeSource® can help you find a solution that meets your needs.

BELT COLOR OPTIONS FOR STEEL STANCHIONS

CLASSIC STEEL STANCHION DESIGN with the industry's leading Sta-Straight technology system and QuikSecure® 5-second assembly.

ⓐ STA-STRAIGHT SYSTEM TECHNOLOGY

Our **patented** Sta-Straight technology system keeps posts from leaning and is maintenance free since there are no bolts to loosen. Designed with points of contact under continuous tension plus a high-strength compression collar our posts Sta-Straight.

ⓑ QUIKSECURE®

This **patented** QuikSecure® 5-second assembly requires no tools. With a simple push and turn, the post and base are quickly locked together. If desired, tear down is just as simple.

DURACAST BASE

The Duracast base is a durable, tough HDPE shell filled with very high-strength concrete (VHSC), a high-performance concrete far stronger than common concrete. VHSC was studied by the US Army Engineering Research & Development Center for more effective blast barriers. Each base has (6) non-marking, non-skid rubber feet.

PRO RETRACTABLE BELT CASSETTE

This dual braking system belt cassette comes equipped with standard locking buttons to prevent accidental belt release. Enjoy ultra smooth and safe belt retention.

6.5'

BELT COLOR OPTIONS FOR SENTINEL STANCHIONS

THE SENTINEL & TREK RETRACTABLE BELT STANCHIONS

are unchallenged as the most durable and affordable stanchions in their class. The Trek is perfect for events or rentals where quick, no tools assembly and tear down is essential.

SENTINEL

Ⓜ HOLD TRU POST DESIGN

A reinforced shoulder keeps the post standing straight providing added strength and durability. It is maintenance free. The gentle slope of the shoulder design has curb appeal while at the same time it's triangular shape borrows from geometry's strongest, most rigid shape.

Ⓜ EASY CONNECT

As easy as 1, 2, 3, the connection between the post and base is made in seconds, without the need for tools. With *Easy Connect assembly is a snap!*

TREK

Ⓜ STA-STRAIGHT SYSTEM TECHNOLOGY

Our *patented* Sta-Straight technology system keeps posts from leaning and is maintenance free since there are no bolts to loosen. Designed with points of contact under continuous tension plus a high-strength compression collar our posts Sta-Straight.

Ⓜ QUIKSECURE®

This *patented* QuikSecure 5-second assembly requires no tools. With a simple push and turn, post and base are quickly locked together. If desired, tear down is just as simple.

RETRACTABLE BELT CASSETTE

Standard features include a safety braking mechanism for safe and dependable belt return, a locking mechanism to prevent accidental belt release and a 6.5' woven belt.

(NOTE: ACTUAL OVERALL BELT LENGTH IS 7.5' BUT FOR BEST RESULTS 6.5' IS RECOMMENDED.)

DURACAST BASE

The Duracast base is a durable, tough HDPE shell filled with very high-strength concrete (VHSC), a high-performance concrete far stronger than common concrete. VHSC was studied by the US Army Engineering Research & Development Center for more effective blast barriers. Each base has (6) non-marking, non-skid rubber feet.

Healthcare environments, at-risk patients who require medical support, and the medical personnel who provide that essential care are especially vulnerable to the spread of COVID-19

How Can We Help You?

Healthcare environments, at-risk patients who still require medical support, and the medical personnel who provide that essential care are especially vulnerable to the spread of COVID-19. As it stands now, many care facilities and staff are facing shortages of materials and supplies. MooreCo stands ready to offer you alternatives wherever and however we can.

We've always prioritized the health and safety of our customers and their environments, designing products with wellness in mind. We put a lot of thought into creating furniture and visual communication products from materials that are versatile, durable, and easy to disinfect. Here you can find information on our products that we are seeing in use in medical facilities across the country.

Why is the D.O.C. good for healthcare spaces?

- Non-porous surfaces are easy to disinfect
- Serves as acoustical & sneeze shield
- Document important patient notes between shifts
- Post notices and memos
- More substantial than curtains
- Easy to move wherever needed!

Our D.O.C. Mobile Partitions with porcelain steel are the ultimate in easy to use, move, and disinfect dividers, ideal for use in multi-patient hospital rooms, emergency centers, lobbies and waiting rooms, and anywhere temporary isolation shields are needed.

Room 488

Doctor: Rigby
Resident: Ellison
RN: Beth
RT: Sami

Scheduled for today;
CPAP trials on vent to see if
ready to do all the respiratory
work on his own

Porcelain steel whiteboard is naturally resistant to bacteria and the smooth surface is easy to disinfect. The double-sided magnetic writing surface also functions as space for charting, documenting patient notes, and maintaining consistent and exceptional patient care between shifts, maintaining the crucial lines of communication.

Our standard vinyl is treated to resist the growth of microbes including mildew and bacteria, effective against common bacteria such as staph, strep, and fungal spores including black mold and pink stain.

The anodized aluminum and steel trim, porcelain steel surface, and aluminum kickplate are non-porous and easy to clean and disinfect.

MORE INFO
AND FOR PRICING**

Colored Cork is self-sanitizing and naturally inhibits contaminants. A blend of oxidized linseed oil, dry pigments, and granulated cork with rosin binders, the surface is washable, self-healing, and low reflection.

You can also choose a high pressure laminate surface, which is non-porous and easy to keep germ-free. HPL also holds up to wear and tear and is scratch-resistant. Choose from a variety of colors and patterns to fit any space.

Available in three sizes for use in any room or open space. Easy to configure with minimal gapping. Available connectors join panels together at 90° angles for a more stable yet easy to rearrange configuration.

Disposable Face Shield

Protect employees from COVID-19 and other virus exposures with their own personal sneeze guard. Our face shield provides single-use protection to be used in stores, pharmacies, and all other essential businesses.

PFMD100F
