National Recreation and Park Association

In December 2012, Bison acquired Institutional Products Incorporated of Indianapolis, Indiana, positioning Bison to take its strong reputation for quality, customer service, product creativity and value to the Gymnasium Construction and Renovation Market. In May 2013, IPI sales, engineering and production functions were relocated to Lincoln, Nebraska, the headquarters and manufacturing location of Bison.

While Bison has, for almost 30 years, built its brand based on its "Goal For Every Game" philosophy, until now we have only operated on the fringes of the Gym Construction Market instead concentrating on our broad replacement and loose gym and field sports equipment offerings.

### Facility Owners, Architects and Contractors

Full product specifications for all IPI by Bison products are available online at [www.IPIbyBison.com](http://www.IPIbyBison.com) and can also be viewed at [www.CADDetails.com](http://www.CADDetails.com).

### Bison Dealers

While as an established Bison dealer, you have access to the full line of products available in this Bison catalog, you may also qualify to become an IPI by Bison dealer gaining full access to the custom products that define the Gym Construction and Renovation Market including custom ceiling and wall basketball structures, divider curtains, multi sports cages and a wide range of wall, column and stage padding.

If you believe you have the resources to be actively involved in specifying, ordering and installing IPI by Bison gym equipment and wish to investigate becoming a dealer, contact Dave Smith at IPI by Bison at 800-637-7968.

# Stationary and Side Fold

Complete wall mount structure packages in-stock for immediate delivery.

**IN-STOCK**

## Stationary

Structures adjust backboard face anywhere from 48" to 144" from wall at time of installation...Easy-to-order and install telescoping structures • Available for immediate delivery • Extra heavy steel tubular design with silver powder coated finish • Packages include structure, wall boards, support chains, Unbreakable 42" x 72" glass backboard, breakaway goal, DuraSkin backboard padding (choose from 16 colors), instructions and all mounting hardware except that required to anchor wall boards to wall • If you need height adjustability see pages 6-7 for optional goal height adjusters • **Lifetime limited warranty on wall mount structures.**

## Side Fold

Swing left or right for storage close to wall without tools or ladders...Structures position backboard face anywhere from 48" to 144" from wall at time of installation without field modification • Available for immediate delivery • Extra heavy, steel tubular design with silver powder coated finish • Heavy, solid steel, machined pivot bushings with 5/8" grade 5 pivot bolts (not just a hole drilled into tubing!) • Slotted mounting brackets for fine tuning goal height • Packages include structure, wall boards, support chains, Unbreakable 42" x 72" glass backboard, breakaway goal, DuraSkin backboard padding (choose from 16 colors), release hook, instructions and all mounting hardware except that required to anchor wall boards to wall • If you need height adjustability see pages 6-7 for optional goal height adjusters • **Lifetime limited warranty on wall mount structures.**

**Telescoping Structures for Fail-Safe Measuring...**  
 There is no need to compute exact extension requirements before ordering wall mounted structures from Bison. Our structures are specially designed to allow adjustment within a specified range at installation. You'll also avoid costly field modifications caused by measurement mistakes.

**SHOWN**

**CAUTION!**  
 Wall structure purchaser assumes mounting liability.  
 See Page 106 for Safety Warning

In addition to Bison's in-stock stationary and side fold basketball system packages, Bison now offers Built-to-Order (BTO) structures allowing you to choose the exact extension, backboard and rim model to suit your facility's needs.

Bison BTO structures are available in Stationary, Side Fold and Swing Up configurations in extension lengths from 4' to 10' (1' to 10' on Stationary systems). Choose structures for fan backboard mounting or rectangular backboard mounting. BTO structures include powder coated steel structure, 2" x 8" southern yellow pine wall boards, support chains, chain tensioners and all brackets and hardware necessary for installation except the anchors to mount the wall boards to the wall. **NOTE: Bison BTO structures are only available when ordered with a Bison backboard and rim. Due to the custom nature of BTO structures, they are not returnable. Prices are quoted based on specified requirements.**

To order, specify extension (desired exact distance from wall to face of backboard), backboard model numbers and color (black is standard). On Swing Up structures, specify manual or 120 volt electric winch. Backboard padding, height adjusters, portable winch winders and other components are sold separately.

## Stationary

Constructed of 1½" schedule 40 structural pipe (1.9" diameter), units are furnished with ¼" x 1¼" diagonal bracing and heavy welded mounting brackets. Specify **STR10WBF** for fan shaped backboards and **STR10WBR** for rectangular backboards.

## Side Fold

Same 1½" schedule 40 structural pipe design but includes pivot brackets and diagonal lock bar to allow structure to swing toward the wall either to the left or right when not in play. Specify **STR15WSFF** for fan backboard and **STR15WSFR** for rectangular backboards.

## Fold Up

Swing up structures have 1½" schedule 40 pipe welded assemblies for maximum stability and can be raised toward the ceiling and wall either with a manual winch mounted to the wall (**BA925**) or a 120 volt electric wind mounted either to the wall or positioned in the ceiling structure (**BA975A3**). Swing up structures include all cable, cable clamps, pulleys and brackets necessary to connect the structure to the selected winch. Specify **STR12WFUF** for fan backboard and **STR12WFUR** for rectangular backboards.

**Don't let this happen in your gym!**

## BA955 Saf-Lok<sup>™</sup> Structure Catch

**Protect your players, fans and equipment...**Saf-Lok Structure Catch insures against failure of wall, ceiling mount or batting cage structure attachment • Helps keep structure from falling to floor or into seating • Recommended in NCAA Rules Book • Provided with 3½" pipe clamps for easy installation • Works on side fold, swing-up and stationary structures including wall mount and ceiling mount • Add confidence to older structures installed prior to today's aggressive slam dunk action • Tested to 6000 lb. free-fall capacity • High strength 2" wide polyester webbing designed to take advantage of both inertial and centrifugal force • 35' effective maximum strap length • Order optional **BA955RP** retracting pulley for use on any rear braced forward fold ceiling mounted backstop • Ten-year limited warranty. Approx. shipping weight: 34#; Sm. Pk

See page 103 to send your photo/video to Bison

## BA925 Manual Crank Winch

**Fully enclosed 1,000 lb. capacity safety worm gear winch...**Cable drum is grooved for even cable wrap • Winch is furnished with crank for manual operation and wall mounting board • Comes complete with a vacuum formed cover and Saf-Arm locking device • The Saf-Arm allows the unit to be locked while not in operation and insures it is operated by authorized personnel only • Padlock not included • One-year limited warranty.

Approx. shipping weight: 50#, Sm. Pkg.

## BA975A3 Key Operated ¾ H.P. Power Winch

**Electric hoists come with the gears sealed in a gear housing and operating in grease and features a ¾ H.P. 115V single phase instant reversible motor...**Unit can be wall mounted or inverted • Rotary limit switch controls the unit for both the raised and lowered positions • Worm gear winch holds load in any position • Gears are precision machined bronze alloy worm gear, induction hardened and ground steel worm • Cable drum is grooved for even cable wrap • 115V power source and 3 wires to key switch required at hoist • Includes **BA975KS** key switch and cover plate • Five-year limited warranty. Approx. shipping weight: 105#, Sm. Pkg.

## BA930 Portable 110 Volt Hand Winch Driver

**Makes raising and lowering manual crank swing up structures and height adjusters faster and easier...**7 AMP, ½ H.P. high torque winch • Reversible up and down operation • Two-speed motor • Includes locking device to avoid unauthorized use • To use on **BA980** manual height adjusters order **BA935** drive shaft separately • To use on manual crank winch order **BA932** drive shaft • One-year limited warranty.

Approx. shipping weight: 20#; Sm. Pkg.

# Gymnasium 10' to 8' *ZipCrank™* Goal Height Adjusters

**Add a rim height adjustment feature to your indoor goals...** These height adjustment systems can be added to Bison wall mount packages or purchased separately to retrofit onto nearly any existing backboard and structure • Installs easily between the backboard and wall or ceiling mount structure to move the face of the backboard 4¼" toward the free throw line • **If you wish to use on a ceiling mount center strut structure consult a Bison Product Specialist to insure compatibility** • Easy-to-read height indicator labels • Silver powder coated finish reduces visual interference • Infinitely variable from 8' to official 10' height • Fits most structures but may require field drilling of structure or height adjuster in some cases • Choose the size of the gym height adjuster that is compatible with your facility's existing structure • Features a 7/8" diameter acme lead screw with thrust bearing to make raising and lowering with the hand crank easy and quick • Grease fittings at all joints insure smooth, trouble free operation • Hand crank provided with each unit • Five-year limited warranty.

Easy-to-Read Height Indicator

See drawings below for mounting dimensions.

## BA931 Cordless Winch Winder

This unit can be used to raise or lower any model BA980 adjustable backboard height attachment...Winder is equipped with a 14.4 volt, high torque motor • Unit has a low setting of 0-500 RPM and utilizes an adjustable clutch which develops up to 460 in./lbs. of torque • Reversing switch is above the trigger switch and includes a "lock" position • Includes BA935 height adjuster extension rod. Approx. shipping weight: 20#; Sm. Pkg.

BA935

## BA935 Height Adjuster Extension Rod

Raise or lower goal height adjusters without hand cranking...Use with a BA930 or BA931 portable winch (purchased separately) • Only for height adjusters with an eye hook on the bottom of the adjuster screw • Designed to work with ¾" square drive socket. Approx. shipping weight: 10#; Sm. Pkg.

See page 16 for Center Strut Backboard and Height Adjuster Adapters.

## Electric Height Adjusters for Center Mast "Y" Frame Ceiling Mounted Basketball Structures

**Rim height adjustment with just the turn of a key...** turn your entire gym from an official 10' rim height court to rim heights as low as 8' in a matter of minutes without effort • These retrofit models available to mount any backboard with typical 35" (W) x 20" (H) fan backboard mounting pattern or typical 62" (W) x 36" (H) rectangular backboard mounting pattern • Bison electric height adjusters can be operated with a portable electric wand (order **BA980EW** separately) or can be hard wired to a wall mounted key switch (included in packages ending with "K") • Rim height adjustment is accomplished by means of a 120 volt, UL approved linear actuator for smooth, fast and dependable raising and lowering • Adjustable limited switches stop the rim at precisely 10' official height and 8' lowest height for foolproof operation • Rim can be also stopped at any height between 10' and 8' for players of all ages • Rim heights are clearly marked for visibility from the floor • Black powder coated finish. • Consult a Bison Product Specialist to insure compatibility with your existing structure and backboard. Advise whether your center strut tube is 6" diameter (18.9" circumference) or 6<sup>5</sup>/<sub>8</sub>" (20.8" circumference). See ordering chart below for details. • Two-year limited warranty.

BA980FEYK

### Electric Height Adjuster Ordering Chart

Model #	Backboard Mounting Pattern	Operation Method	Center Strut Tube Size	Shipping Weight
BA980FEYW	35" (W) x 20" (H)	Portable Wand. Order separately	Specify 6" or 6 <sup>5</sup> / <sub>8</sub> "	Approx. weight: 130#; Truck

### BA980FEYW Wand Operated Electric Height Adjuster for Fan Backboards

Order if your existing backboard or the replacement backboard you are ordering has an approximate 35" (w) x 20" (H) mounting pattern • Order one or more **BA980EW** Portable Wands separately • Two-year limited warranty. Approx. shipping weight 130#, Truck.

### BA980FEYK Key Operated Electric Height Adjuster for Fan Boards

Same as **BA980FEYW** above except comes with Key Switch and cover plate to allow field installation by a qualified electrician to operate from a convenient wall switch location. • Two-year limited warranty.

Approx. shipping weight 130#, Truck.

### BA980EW Portable Electric Height Adjuster Wand

**Operate Bison height adjusters from below the rim...** Easy twist lock connectors and 8' long, 110 volt power cord allows quick movement from one goal to the next with a single wand or order multiple wands if desired • Keyed switch avoids unwanted use.

• Two-year limited warranty.

Approx. shipping weight 20#, Sm. Pkg.

BA980EW

### BA980RSEYW Wand Operated Electric Height Adjusters for Rectangular Backboards

Order if your existing or the replacement backboard you are ordering has an approximate 62" (W) x 36" (H) corner mounting pattern • Order one or more **BA980EW** Portable Wand separately. • Two-year limited warranty.

Approx. shipping weight 160#, Truck.

### BA980RSEYK Key Operated Electric Height Adjusters for Rectangular Backboards

Same as **BA980RSEYW** above except comes with Key Switch and cover plate to allow field installation by a qualified electrician to operate from a convenient wall switch location. • Two-year limited warranty.

Approx. shipping weight 160#, Truck.

Bison Shooting Stations provide a wall mount system to match any budget and level of need. Prior to purchase, verify that your wall is suitable in construction, size and layout to support the package weight and stress from use.

## Field Modifiable Wall Mounted Structure Packages

These complete kits provide all the necessary components (except wall mounting fasteners) to install a rigid, durable basketball system to the wall of your existing facility...Choose from 1'-4' or 4'-8' extensions and different backboard options shown in chart below. Cut and drill extension tubes at desired extension length  
• See page 17 for optional backboard padding and pages 6-7 for optional goal height adjusters  
• 5-year warranty on structures  
• See details for warranties on backboards and goals.

Package Model #	Wall to Backboard Extension Range	Backboard	Goal	Shipping Weight
PKG14STFS	12" to 48"	BA495 Fan Steel	BA34 Breakaway	Approx. weight: 225#; Truck

PKG48STRG	48" to 96"	BA42XL 42" x 72" Glass	BA35S Breakaway	Approx. weight: 475#; Truck
PKG500	12" to 48"	BA407 42" x 54" Glass	BA35S Breakaway	Approx. weight: 310#; Truck

## PKG650 Adjustable Height Glass Shooting Station™

Tempered glass backboard...Same heavy-duty wall structure and wall mounting boards as PKG600 below except includes 54" x 42" unbreakable side court tempered glass backboard (BA407C) for competition look and ball rebound • 36" extension at 10' rim height • Adjustable from 8' to 10' • Official size breakaway goal (BA32) with one-year limited warranty • Ten-year limited warranty on structure • **Unconditional lifetime warranty on backboard.** Approx. shipping weight 320#; Truck

## PKG600 Adjustable Height Steel Shooting Station™

Convenient, cost effective system for players of all ages...All the components necessary to mount a durable, playable, institutional quality fan-shaped steel backboard and official size institutional breakaway goal to a structure that will allow goal height adjustment from 10' to 8' • Removable hand crank allows easy adjustment without ladder • Safe play area is 36" at official 10' goal height (40" at 9' and 38" at 8') • Use of 2" x 8" wall boards for load spreading wall attachment is superior to similar systems where the steel is mounted directly to the wall • All steel structure is heavy gauge tube with a 1/8" minimum wall thickness and silver powder coated finish • All pivot points are 1/2" diameter • Customer provides wall mounting hardware • Ten-year limited warranty on backboard and structure • One-year limited warranty on goal. Approx. shipping weight: 265#; Truck

**CAUTION!**  
Wall structure purchaser assumes mounting liability.

When traditional competition wall structures are more than your facility requires, choose from fixed height or adjustable packages with steel, glass, molded graphite or acrylic backboard options.

## PKG300 ZipCrank™ Adjustable Shooting Station™

Hand crank moves this 54" x 36" glass backboard with ease... Easy-to-operate removable hand crank adjusts goal height from official 10' to as low as 7½' for play by kids of all ages • Official size breakaway goal and direct goal mount design make backboard virtually unbreakable during normal play • Steel structure mounts to wall by means of three load spreading struts • Customer provides wall mounting anchors • Mounts indoors/outdoors • 30" safe play area at 10' • Five-year limited warranty on board and structure. Approx. shipping weight: 180#; Truck.

PKG300

PKG275

## PKG275 QwikChange™ Acrylic Shooting Station™

For the look of a professional court at a budget price... Official size flex goal raises and lowers with ease on this system that features a 32" x 48" clear rectangular backboard • Direct mount goal design • No ladders or tools • 7½' to 10' goal height adjusts from the playing surface • Entire system mounts easily to the wall with two load spreading struts • Customer supplies suitable wall mounting hardware • Mounts indoors/outdoors • 22" safe play area at 10' • One-year limited warranty on system.

Approx. shipping weight: 105#; Sm. Pkg. Ships Oversize

PKG250

## PKG250 QwikChange™ Graphite Shooting Station™

Our lowest cost adjustable wall mount system... Move the goal height from 7½' to 10' in 6" increments with a broom handle from the floor • 36" x 48" molded graphite fan-shaped backboard and official size flex goal are direct mounted to the steel structure for superior backboard durability • QwikChange structure is attached to wall with two struts to spread load on wall • Customer provides wall mounting anchors • Mount indoors/outdoors • 22" safe play area at 10' • One-year limited warranty on system.

Approx. shipping weight: 90#; Sm. Pkg. Ships Oversize

### CAUTION!

Wall structure purchaser assumes mounting liability.

**Select the Bison T-Rex™ portable that best fits your program's needs.**

## T-Rex™ Portable Basketball Systems

T-Rex design incorporates low maintenance, extension spring technology and heavy-duty structural components to make one-person set up and storage easy and fast. This is the same spring technology used almost exclusively in collegiate Division I and professional arenas. All pivot points have zero maintenance, self-lubricating bearings and large diameter pivot pins for smooth up-and-down operation and superior system rigidity. The entire base is padded on front and sides with 2" thick urethane foam covered in your choice of 16 colors. Safety is insured with factory installed hidden ballast inside the base to prevent tipping. Floor hold downs as required by NCAA and National High School Federation rules are standard on T-Rex 96 and optional on other T-Rex systems. Each T-Rex model rolls on high capacity, floor-friendly 8" diameter, 2" wide running gears for easy transport. When unit is in place, just drop locator pins into floor bushings for exact placement and lower the front stabilizer pads with an easy-to-reach ratcheting foot adjustment system.

### BA898G T-Rex™ 96 Competition

**Competition portable...**T-Rex 96 features official 42" x 72" unbreakable competition glass backboard, latest technology 180° breakaway goal and a full 96" of safe play area from backboard to base as specified by the NCAA and National High School Federation • **New deadlock tensioning device adds even greater system rigidity**

- Additional standard features include padding for underside of beam, rear hold down kit, supplemental beam support and double rear caster running gear
- Choose from colors of backboard and base padding shown on page 102.

### BA898HD Rear Hold-Down Kit

**For all T-Rex portables...**Meets NCAA and High School Federation rules requiring rear floor attachment for competition portable goals • Kit includes threaded floor anchor, eyebolt and turnbuckle to attach to built-in eye on rear of T-Rex 54 JR, T-Rex 54 SR, T-Rex 66 and T-Rex 96 • Included standard with T-Rex 96 • Adds a measure of stability and safety • One required per goal.

Approx. shipping weight: 3#/Sm. Pkg.

### BA898GDL Optional Deadlock Tensioning Device

Add stability to BA895G T-Rex Portables with the inclusion of this optional feature • One required per goal • Standard feature on BA898G portable. Approx. shipping weight: 5#/each; Sm. Pkg.

**Forklift or dock required for delivery. Contact Bison for other off-loading options.**

## BA895G T-Rex™ 66 Side Court

**For the side court...**T-Rex 66 is made for programs where space constraints do not allow a full 96" official extension but program still wants an official size backboard and all the quality features of more expensive spring technology portables • T-Rex 66 includes a 42" x 72" unbreakable competition glass backboard, durable competition break-away goal and 66" safe play area • Choose from colors for backboard and base padding shown on page 102.

### ABC50 Oversized One- or Two-Color Logo

**Available on bases of all T-Rex portable basketball systems and Arena volleyball system...**Send your logo to the Bison Art Department prior to placing order to confirm reproduction suitability • Artwork subject to pre-approval and hourly BNART artwork charges may apply • Select from colors shown on page 102.

BA895G-SC Shown with Optional ABC52 Lettering and ABC50 Logo

## BA894GSR T-Rex™ 54 SR Club

**When space or resources are at a premium but official 72" size glass backboards are a must...**

T-Rex 54 SR is the perfect balance • What this system lacks in size, it makes up for in playability • Full 54" of safe play area allows the base to be 6" outside the end line of an official court • Get all the basic features of our larger T-Rex portables on a compact base that fits in gyms where others won't • T-Rex 54 SR is completely padded on base and has the same breakaway goal and DuraSkin backboard padding as T-Rex 66 • See page 102 for color options.

BA894GSR Shown with Optional ABC52 Lettering

## BA894GJR T-Rex™ 54 JR Recreational

**Small but mighty...**T-Rex 54 JR is identical to T-Rex 54 SR but has a downsized 42" x 54" glass backboard for easier transport and storage • Includes 54" DuraSkin backboard padding available in your choice of gray or black • See page 102 for color options • With a 54" wide backboard, T-Rex 54 JR fits through doors or hallways as narrow as 58" wide for the most compact storage and transport of our T-Rex lineup.

## Max™ Portable Basketball Systems

**Maximum versatility, maximum safety, maximum playability and maximum value...** makes one of our Max portable systems just right for your facility • Choose Super Max with 60" tempered glass backboard and 50" safe play area, Glass Max with 54" tempered glass backboard and 30" safe play area or Acrylic Max™ with 48" acrylic backboard and 30" safe play area.

No matter which Max you choose, you'll get features not found on similar systems offered by other manufacturers including:

- Infinite Goal Height Adjustment from 5' to Official 10'
- Durable Breakaway Goals
- Full Front Base and Pole Padding in Your Choice of Black, Royal, Scarlet or Forest Green. Additional colors offered on orders of two or more, see page 102.
- Over 850# of Hidden, Customer Supplied Ballast to Eliminate Tip Over Risk (see BA853BLST below)
- Ballast is Totally Enclosed and Safety Padded
- Single-Lever Lift Handle to Allow Easy Transport and Set Up
- Goal Mounts Through Backboard Directly to Structure to Eliminate Backboard Stress
- Non Marking Transport Wheels
- When Lowered, Fits through 78" High Double Doors for Storage
- Standard Backboard Edge Padding on Super Max and Glass Max (optional on Acrylic Max)

Infinite Height Adjustment

Padded Weight Box Cover

Special liftgate delivery charge or extreme manual lifting required if dock/forklift not available.

### BA853BLST Max™ Ballast Kit

Twenty-five 4" x 8" x 16" solid concrete cap blocks to properly eliminate tip over on all Max portable goals. Approx. shipping weight: 850#, Truck

#### WARNING!

All Max systems require installation of 25 4" x 8" x 16" solid concrete cap blocks prior to use. The ballast tray and padded safety cover are designed specifically for use of the specified ballast. Failure to install the specified weight could result in serious player injury and invalidate all warranties. While the specified blocks are available at most lumber or home centers for a nominal cost, Bison can ship ballast package BA853BLST for an additional cost.

BISON'S ORIGINAL  
**DURASKIN**

THE GAME'S MOST POPULAR BACKBOARD PADDING

v **BA68U DuraSkin®** Backboard Safety Padding

The first, the best and now available in a virtual rainbow of colors.

- New color option for 2014-15: PINK
- New and Improved Pin-Style Center Pad Connectors
- Slimmer Cross Section for Reduced Rebound Interference
- **Now with a 10-Year Replacement Warranty**

Compare to copycat padding with fewer colors and shorter five-year warranties, inferior below the rim padding connectors and frustrating pad trimming...DuraSkin meets or exceeds all NCAA, FIBA and National High School Federation requirements • Fits every manufacturers' official 72" wide glass backboard but might require frame drilling on some non-Bison backboards • All Bison glass backboards are predrilled for five-minute installation of DuraSkin with only a screwdriver • Far superior to glue-on, vinyl dipped or other safety padding systems • One kit protects one backboard, order two kits per court • Includes mounting hardware • **Now with a 10-year replacement warranty.**

Approx. shipping weight: 12#/kit; Sm. Pkg. Ships Oversize

**BA68F DuraSkin® for Fan-Shaped Backboards**

**Fits all front mount or rear mount glass or steel fan backboards...**DuraSkin quality and safety for fan-shaped backboards • Bolt-on dependability • Fits all official size 54" wide x 35"-39" tall rear and front mount backboards • Mounts to steel, glass and cast aluminum backboards • Available in gray, royal, scarlet and black • Molded-in steel attachment inserts • Slim profile to reduce potential for ball interference • Requires drilling • Includes mounting hardware and instructions • Priced per kit but packaged two kits per carton • One kit covers one backboard • **Unconditional five-year replacement warranty** (indoors only). Approx. shipping weight: 5#/kit; Sm. Pkg.

See page 103 for Backboard Drawings

## Unbreakable "XL" Glass Backboards

**Built-in support structure absorbs over 98% of the stress from goal contact without transferring it to the glass...** Goal is mounted "off glass" so even excessive hanging and abuse will not cause stress • Never again be concerned about the risk of injury or inconvenience of glass breakage • We are so confident of our "XL" design durability that for over five years we have offered a **\$250** installation reimbursement in addition to our **unconditional replacement warranty** without a single request for reimbursement • Every "XL" unbreakable backboard features a polished aluminum extrusion framework, glass cushioning gasket, high strength steel support structure, ½" tempered glass with fire impregnated bright white border and shooters square and **unconditional lifetime warranty** • All Bison glass backboards are predrilled for quick installation of original DuraSkin backboard padding.

Rear Stabilizer Bar Eliminates Stress on Glass

### V **BA42XL** 42" Short Unbreakable "XL" Glass Backboard

The 42" x 72" short board version of our "XL" backboard line...This backboard has the industry standard 35½" x 62" structure mounting design and 5" x 4" goal hole pattern to make upgrade retrofitting to any manufacturer's short board ceiling or wall mount structure foolproof

• **Unconditional lifetime warranty.** Approx. shipping weight: 200#; Truck

### V **BA48XL** 48" Tall Unbreakable "XL" Glass Backboard

Same as BA42XL except 48" x 72" size...With 42" x 62" structure mounting pattern and 5" x 5" goal mounting pattern • Compatible with all manufacturer's tall board structures • BA48XL is the only unbreakable 48" backboard in the industry and is the perfect solution to upgrading old traditional 48" glass boards that are now in use in thousands of gyms across the country • **Unconditional lifetime warranty.**

Approx. shipping weight: 240#; Truck

### V **BA42XLC** 42" Short Unbreakable "XL" Glass Conversion Backboard

**Make the transition...**Go from old fan-shaped steel or glass backboards to popular 42" x 72" rectangular glass backboards normally without modification or relocation of your existing wall or ceiling support structures

• The 35" wide x 20" high rear structure mounting pattern is the standard in the industry for most fan-shaped gym backboards and structures

• **Unconditional lifetime warranty.** Approx. shipping weight: 220#; Truck

### **BA48XLC** 48" Tall Unbreakable "XL" Glass Conversion Backboard

**This board is intended primarily for replacement of broken, existing 48" boards, mounted on fan style, wall or ceiling structures (35" x 20") common in older gyms...**If you are replacing fan steel or glass backboards on both ends of a court, Bison recommends use of BA42XLC short backboards • Consult a Bison Product Specialist for selection of the right board for your application • Formerly BA48C

• **Unconditional lifetime warranty.** Approx. shipping weight: 240#; Truck

### V **BA42E** Standard 42" Short Backboard (not shown)

Excellent value • Meets or exceeds all NCAA and National High School Federation rules • Predrilled for original DuraSkin backboard padding • 42" x 72" x ½" tempered glass with fire impregnated, bright white border and shooters square • Polished aluminum framework • 36" x 62" structure and 5" x 4" rim mounting pattern • 10-year limited warranty. Approx. shipping weight: 180#; Truck

### V **BA48** Standard 48" Tall Backboard (not shown)

Traditional size, improved quality • This 48" x 72" board is a common fixture in gyms across the US and meets all appropriate rules for competition play • Board features 42" x 72" structure and 5" x 5" goal mounting pattern and will replace virtually any manufacturer's original tall glass backboard • 10-year limited warranty.

Approx. shipping weight: 210#; Truck

**Bison is confident you will never need to replace these boards – so confident that we offer a **\$250** installation reimbursement for any broken BA42XL, BA42XLC, BA48XL or BA48XLC backboard replaced under Bison's lifetime warranty!**

**CAUTION!**  
Studies have demonstrated that 42" x 72" glass backboards reduce the risk of player injury from backboard contact. BA42XL and BA42XLC are recommended for all new installations and fan-to-rectangle conversions. Bison makes 48" x 72" backboards (BA48, BA48XL and BA48C) available ONLY for replacement applications.

### BALED Correct Call™ LED Backboard Alert Systems

**Popular at the collegiate level...** LED Alert Systems are coming soon to a high school near you • Bison LED system is easy to install behind virtually any manufacturer's glass backboard (42" or 48" high) with no drilling and no visual hardware • Will interface with virtually any scoreboard system that is capable of sending a signal from the official scoreboard time clock or shot clock to this 12 volt LED system • Six separate preassembled LED light strips are mounted in aluminum tracks with high tack, self adhesive mounting tape system for quick and easy installation • System includes LED strips for one backboard, transformer and all necessary components except the wiring that is required to run from the scoreboard signal location to the transformer box • Call a Bison Customer Service Specialist for details • Five-year limited warranty.  
Approx. shipping weight: 10#; Sm. Pkg.

**Note: Correct Call Alert Systems are not returnable once backing is removed from the adhesive tape. Make sure your LED strips are compatible with your backboard.**

### BA407C Side Court Conversion Glass

**The most affordable glass option available...** This backboard is identical to our full-sized, official conversion backboard (BA42XLC) except its 42" x 54" size makes it the most affordable glass option for side courts, recreation centers or other applications where cost is a serious consideration • Play is identical except board has 9" per side less glass to hit on errant shot

- ½" tempered glass • Simply remove an existing fan board and bolt up this board for a low cost conversion from steel fan to rectangular glass
- **Unconditional lifetime warranty.** Approx. shipping weight: 175#; Truck

### BA455 42" x 72" Tuffglass™ Rectangular

**Heavy-duty, hand-laid fiberglass front and back panels permanently bonded around a fiber laminate core...** High gloss bright white gel-coat finish

- with permanent molded-in orange shooter's square and border • Popular 42" x 72" competition size • 1<sup>5</sup>/<sub>16</sub>" thick • 5" x 4" goal mounting pattern
- Threaded steel inserts are molded into the back of the board to provide a means of mounting to fan or rectangular wall structures or pole system braces • Provides the quality rebound desired by quality players
- Ten-year limited warranty. Approx. shipping weight: 160#; Truck

### BA407G Unbreakable Glass Side Court

**A scaled down version of our popular unbreakable 42" x 72" competition glass backboard...** Reduced to 42" x 54" to reduce weight and cost without sacrificing features • Goal is mounted "off glass" so even excessive hanging will not cause stress • Order Bison PKG500 to mount this board between 12" and 48" from the wall • **Unconditional lifetime warranty.** Approx. shipping weight: 150#; Truck

### BA465 Tuffglass™ Fan-Shaped

**Extra heavy-duty fiberglass front and back panels for superior playability...** High gloss, bright white gel-coat finish • Molded-in permanent orange border and shooter's square • Solid fiber laminate core • Official

- 39" x 54" size, 1<sup>5</sup>/<sub>16</sub>" total thickness • Completely weatherproof for outdoor or indoor use in all climates • 5" x 5" hole pattern • Threaded inserts are molded into the backboard to allow mounting to common fan-shaped structures (20" x 35") and most outdoor playground poles. Ten-year limited warranty. Approx. shipping weight: 89#; Truck

### BA44XL Extended Life Competition Fan-Shaped Glass

**Unbeatable warranty because this is a better built fan-shaped glass backboard...** Built-in support strut greatly improves durability • Official size 39" x 54" • Cushioned ½" tempered glass • Heavy-duty aluminum framework • Fire-impregnated white border and shooter's square • Industry standard

- 20" x 35" mounting brackets • Order BA68F padding separately
- **Unconditional lifetime warranty.** Approx. shipping weight: 115#; Truck

### BA495 Dura Steel™ Fan-Shaped

**Steel, and lots of it, highlight this 39" x 54" official size backboard...** Great option to replace rear mount side court backboards for greater durability • 12 ga. skin • Heavy-duty

- mounting support structure • 5" x 5" hole pattern • Standard 20" x 35" fan-type backboard mounting holes • Superior front mount design • Heaviest backboard of its type • White powder coated finish • Official orange shooter's square • Ten-year limited warranty. Approx. shipping weight: 100#; Truck

## Baseline™ 180° Breakaway Goal

**The ONLY true 180° Breakaway Goal with a Positive Lock Release Mechanism!**

From the left baseline, right baseline, down the lane or any angle in between, Baseline will provide consistent breakaway pressure even during the most aggressive slam dunk action... This is the most technologically advanced breakaway goal available today with the ring assembly floating on 13 hardened chromium steel ball bearings for smooth flexibility from any direction • Pressure release mechanism is field adjustable to insure the preferred feel and adherence to NCAA ring testing rule for the life of the goal • Meets National High School Federation and NCAA standards • Includes anti-whip net and mounting hardware.

### BA3180S Baseline™ Collegiate 180°

For 42" x 72" backboards... The preferred goal to use on all short 42" glass backboards at any level of play • **Three-year repair or replacement warranty.** Approx. shipping weight: 39# each; Sm. Pkg.

### BA3180T Baseline™ Universal Prep 180°

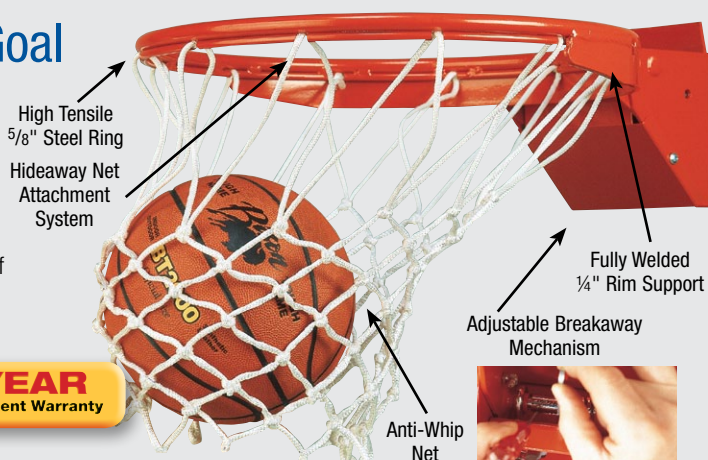

Universal board mounting design... Same mechanism as Collegiate above but fits both 48" x 72" and 42" x 72" glass boards • Use at all levels of play • **Three-year repair or replacement warranty.** Approx. shipping weight: 39# each; Sm. Pkg.

**Meets NCAA Rule regarding rebound elasticity**

## BA35A ReAction™ Breakaway Goal

Hideaway net attachment system makes net system failure virtually impossible and greatly improves player safety... Net attachment cable easily passes through the tubular channel in seconds without use of tools • AcuFlex™ adjustable, positive lock breakaway mechanism allows fine tuning throughout the life of the goal with special tool provided • Increased flexibility provides greater energy absorption • Steel coverplate • 5/8" diameter, high tensile steel ring with 1/4" full Oradius rim support • Fits all makes and models of glass backboards both 42" and 48" high • Meets National High School Federation and NCAA standards • Includes mounting hardware and anti-whip net • **Four-year limited warranty.** Approx. shipping weight: 23# each; Sm. Pkg.

**4-YEAR Replacement Warranty**

**Meets NCAA Rule regarding rebound elasticity**

**AcuFlex™ Adjustable Tension Breakaway Mechanism**

## v BA35E Elite™ Breakaway

Compare our fully welded 1/4" rim support with the 3/16" partially welded supports of other manufacturers... High tensile strength 5/8" steel ring provides 50% greater bend resistance than normal rim material • One-piece continuous net attachment system reduces net attachment worries • Low maintenance breakaway mechanism is enclosed by Bison's exclusive safety padded coverplate • Convenient six-point lubrication system insures the smoothest possible action • Backplate fits all hole patterns on 42" and 48" rectangular and fan-shaped glass backboards • Meets National High School Federation and NCAA standards • Includes hardware and anti-whip net • **Five-year limited warranty.** Approx. shipping weight: 25# each; Sm. Pkg.

**5-YEAR Replacement Warranty**

**Meets NCAA Rule regarding rebound elasticity**

**AcuFlex™ Adjustable Tension Breakaway Mechanism**

## v BA35 ProTech™ Breakaway

**Bison's original breakaway goal is still the best value...** Heat treated ball and socket, positive lock mechanism provides excellent rebound consistency over the life of the goal • ¼" rim support • Simple, maintenance-free design • Steel coverplate • Backplate fits all hole patterns on 42" and 48" rectangular and fan-shaped glass backboards • Continuous netlocks • Meets National High School Federation and NCAA standards • Includes mounting hardware and competition net • **Unconditional three-year replacement warranty.** Approx. shipping weight: 23# each; Sm. Pkg.

**3-YEAR**  
Replacement Warranty

Meets **NCAA Rule**  
regarding rebound  
elasticity

## v BA35S ProTech™ **NEW!** Breakaway for 42" Short Backboard

**For 42" glass backboards only...** Same features as BA35 above except rim mounting hole pattern is 5" x 4" only • Results in bottom of backplate being approximately 1" higher on backboard • **Unconditional three-year replacement warranty.** Approx. shipping weight: 22# each; Sm. Pkg.

Meets **NCAA Rule**  
regarding rebound  
elasticity

**Unconditional**  
**1-YEAR**  
Limited Warranty

## BA34 TruFlex™ Breakaway

**Economical yet durable...** Meets or exceeds NCAA and National High School Federation standards • Same breakaway mechanism as Bison's BA35 ProTech goal • Steel coverplate • Backplate mounting pattern fits 42" and 48" high glass backboards • One-year limited warranty. Approx. shipping weight: 23# each; Sm. Pkg.

**Unconditional**  
**1-YEAR**  
Limited Warranty

## v BA32XL Hang Tough™ Breakaway

**Our most affordable competition breakaway goal...** Same heavy-duty construction as ProTech but with simplified breakaway mechanism that provides consistent and long life for programs at all levels • Meets National High School Federation standards • Includes competition net and mounting hardware. Approx. shipping weight: 22# each; Sm Pkg.

### Ring Testing For NCAA Division I Men's Basketball

Beginning in 2004-05, All competitive rings shall be tested for rebound/elasticity once before the season and once before the postseason. This should be done with a non-mechanical, tamper-proof, computational testing device that determines the amount of energy absorption as a calibration. The rebound/elasticity of any basket ring support system shall be within a 35% to 50% energy absorption range of total impact energy and within a 5% differential between baskets on the same court.

All breakaway goals ever manufactured by Bison are capable of meeting the rebound elasticity requirements of this rule. For information on this requirement, request Bison's *Position Paper on NCAA Rules Regarding Rebound/Elasticity Testing of Competition Goals*. The actual testing device and complete instructions can be rented from Bison.

**NOTICE: THIS RULE APPLIES ONLY TO MEN'S DIVISION I COMPETITION BASKETBALL COURTS.**

## BA51H Anti-Whip Net

**Competition grade, affordable price...** Heavy braided nylon to reduce net whip common with lighter weight nets • Bright white • Use for competition or as upgrade to normal residential or playground string nets. Approx. shipping weight: 1#; Sm. Pkg.

Order BA51H-PK for a pink net.

BA51H

BA51H-PK

## BA35ARC Replacement Hideaway Net Attachment Cables

**Vinyl coated wire replacement cables to attach net to all Bison goals with tubular Hideaway Net Attachment System...** Sold in pairs.

Approx. shipping weight: 1#/pair; Sm. Pkg.

# Basketball Goals

**BA32 Heavy-Duty Side Court and Recreational Flex Goal**  
**An affordable flex goal that can take heavy use and abuse...** Simple, low-maintenance design can be used indoors or outdoors • 5/8" steel rim with 3/16" x 1 1/2" support • 15° deflection, auto return • **Universal backplate** mounts to all standard boards • Durable powder coated finish • Not recommended for interscholastic high school or collegiate play • Continuous netlocks • Includes mounting hardware and nylon net • One-year limited warranty. Approx. shipping weight: 22# each; Sm. Pkg.

**BA27A Front Mount Super Goal**  
**Excellent upgrade from standard front mount goals at a lower cost than double rim or breakaway goals...** Full 5/8" computer designed reinforcing bar gives "super support" when a player suspends from the goal • Additional 5/8" brace strengthens the vulnerable joint between rim and backplate • Continuous netlocks • 1/4" thick **universal backplate** • Packaged two goals per carton • Includes mounting hardware and nylon net • Two-year limited warranty. Approx. shipping weight: 34#/pair; Sm. Pkg.

**BA27 (not shown)**  
**Standard Front Mount Competition Goal**  
**Standard 5/8" steel rim...** 3/16" thick **universal backplate** for mounting to virtually all boards • 1/2" reinforcing bar, computer engineered for maximum support • Continuous netlocks • High-penetration continuous welded joints • Durable powder coated finish • Packaged two goals per carton • Includes mounting hardware and nylon net • One-year limited warranty. Approx. shipping weight: 25#/pair; Sm. Pkg.

**Rear mount goals are recommended for replacement only. Rear mount goals are not compatible with any Bison pole systems.**

**BA32RXT FlexCourt™ Rear Mount Flex Goal**  
**Rear mount backboard protection with same proven mechanism as Bison's popular BA32 flex goal...** Fits all brands of rear mount steel backboards • Fully enclosed mechanism • Continuous netlocks • High tensile strength 5/8" rim • Includes mounting hardware and nylon net • One-year limited warranty. Approx. shipping weight: 20# each; Sm. Pkg.

**BA21A Rear Mount Super Goal**  
**Stronger than other manufacturers' standard rear mount goals...** 1/4" continuous welded support ring for over half of the rim circumference • Continuous netlocks • Heavy-duty 3/16" thick **universal backplate** mounts to all rear mount boards • Additional bracing at the backplate joint gives greater strength when player suspends from goal • Durable, baked powder coated finish • Packaged two goals per carton • Includes mounting hardware and nylon net • Two-year limited warranty. Approx. shipping weight: 38#/pair; Sm. Pkg.

**BA21 (not shown)**  
**Standard Rear Mount Competition Goal**  
**Replace bent and broken goals on any brand of rear mount backboard...** Heavy-duty 3/16" welded backplate assembly • 3/16" support ring for over 1/2 of the rim circumference • Continuous netlocks • **Universal backplate** • Durable, baked powder coated finish • Packaged two goals per carton • Includes mounting hardware and nylon net • One-year limited warranty. Approx. shipping weight: 38#/pair; Sm. Pkg.

# Training Aids

**TR22 Three Point Shooter**  
**Installs without tools on any goal...** Reduces shooting target from normal ring's 18" diameter to 16" • This 20% reduction in area will train the shooter to hit a smaller target • Normal goal looks like a great big bucket during games • A must for developing players to dramatically increase their shooting percentage • Fits residential goals, too • One-year limited warranty. Approx. shipping weight: 4#; Sm. Pkg.

**TR23 10 1/2" Rebound Ring**  
**Develops rebound skills by insuring the ball will not drop during rebound practice...** Durable solid steel construction • Orange finish • Mounts easily on most standard 5/8" x 18" goals • One-year limited warranty. Approx. shipping weight: 3#; Sm. Pkg.

# Removable Goals

**TR75 Removable Goal Package**  
**Excellent option to add shooting stations to areas where a permanent goal would interfere with other activities...** Official size goal slides easily into mounting track for quick on and off • Bracket can be mounted directly to wall or any flat surface • **Not suitable for slam dunk action** • Select wall mounting anchors (not included) based on wall construction • One-year limited warranty. Approx. shipping weight: 12#; Sm. Pkg.

**TR74 Removable Goal Bracket**  
**Includes wall bracket only...** Same bracket as TR75 at right • Use with BA26 goal only • **Not suitable for slam dunk action** • Customer provides wall mount anchors • One-year limited warranty. Approx. shipping weight: 2#; Sm. Pkg.

**BA26 Economy Goal**  
**Our most affordable goal...** Affordable, yet features official size and powder coated finish • Multiple hole pattern fits many common, low cost backboards • Complete with nylon net and hardware • Use with TR74 and TR76 • *Note: Will not fit 5" x 5" and 5" x 4 1/2" mounting patterns* • 90-day limited warranty. Approx. shipping weight: 11# each; Sm. Pkg.

**TR76 Double Height Removable Goal Bracket**  
**Allows 12" goal height adjustment...** Wall bracket only • Mount goal higher for upper grades and lower for younger kids • Use with BA26 goal only • **Not suitable for slam dunk action** • Customer provides wall mount anchors • One-year limited warranty. Approx. shipping weight: 4#; Sm. Pkg.

# Easy-Up™ Youth Mini Goals

Over 35,000 Easy-Up™ Mini Goals are in service in youth camps, YMCAs, YWCAs, elementary schools, church recreation centers, basketball camps and city recreation facilities.

For over 25 years, Easy-Up has put the rim within reach and helped to teach aspiring young basketball players proper shooting techniques... Equipment with official 10' goal height can be converted in less than five minutes with no use of tools • Only Easy-Up will fit on any style of single-ring goal, breakaway or non-breakaway, regardless of manufacturer, age or condition • An Easy-Up goal lowers rim and moves rim 24" closer to free throw line • The full size rim allows play with either full sized or reduced size balls depending upon player age • Standing as low as 2' above the floor, one person can easily attach the tubular frame to a 10' goal with a unique cam operated lever • Total system weight is less than 40# • 48" x 32" backboard is molded of high impact ABS plastic • Ships completely assembled • Not suitable for dunking or hanging from goal • One-year limited warranty on structure and goal, **lifetime limited warranty on backboard.**

## v **TR86 6-in-1 Adjustable Easy-Up™**

Age appropriate goal height for kids of all ages now available in single adjustable unit... This one model can be set at 6½', 7', 7½', 8', 8½' or 9' goal height for kids as young as four years old • Two minute height adjustment without tools. Approx. shipping weight: 45#; Sm. Pkg.

Now with **SIX HEIGHT SETTINGS**

6-in-1 Adjustment is Quick and Easy

TR86 6-in-1 Adjustable 6½' to 9' Goal for Any Age

Less Than 40# Lifting Weight

**For Transport or Storage**  
Folds with three thumb screws to 48" x 32" x 7" and has built-in carrying handle.

7½' Goal Height for Ages 3-5

8' Goal Height for Ages 5-7

8½' Goal Height for Ages 8-10

**WARNING!**  
Easy-Up Youth Mini Goals are not for residential or outdoor institutional use. Adult installation is required. Use in supervised play only. **ABSOLUTELY NO HANGING OR DUNKING.**

## Heavy-Duty Ball Carts

“Mt. Olive is a small school and it was nice to have someone pay attention to every detail to make our scorers table the very best. Our Sports Boosters donated the money to purchase a Bison Sport Pride scorers table and they wanted our table to mirror the Wildcat painting in our gym. The customer service I received was second to none and the artwork is amazing!”

**Drew Logan,**  
High School Basketball Coach  
Mt. Olive High School, Mt. Olive, IL

"The Bison scorers table we purchased was more than we bargained for! The graphics were outstanding, the quality was excellent and the price was reasonable. I was impressed with the turnaround time and how well it was constructed. It has had a positive impact on our school spirit. Anyone who walks into the gym notices the table right away. When people ask who we got it from, I direct them to Bison with positive recommendations."

**Rob Murphy**  
St. Ignatius  
High School  
Thunder Bay, Ontario

## Sport Pride™ Lettered Scorers Tables

Same great Bison scorers tables previously available only with full colored printed graphics are now available with two-color front lettering and side lettering at a significant savings... Sport Pride lettered scorers tables are available in many vinyl background colors with multiple lettering color options so you won't have to sacrifice appearance to fit a great scorers table into your budget • Choose from the lettering styles shown • See page 102 for padding and lettering color options • Bison graphics department will provide sample layouts for approval • Optional oversize two-color (ABC50) logos can be included in the design at an additional cost, call for details • Some lettering size limitations apply • All lettering and logos are applied using specially formulated ink for maximum life • Tables can also be ordered in solid colors with no lettering • Due to their custom design, scoring tables and wall padding are not returnable • One-year limited warranty • **More details on chart on page 27.**

Approx. shipping weight: 8#/per stool; Sm. Pkg.

## STC036 Sport Pride™ Chair Transport Cart

**Stores up to 36 Team Chairs or up to 60 Event Chairs...** Transports, too • Floor friendly casters • Solid steel frame • Loaded dimensions 31" (w) x 60" (l) x 75" (h) • One-year limited warranty. Approx. shipping weight: 120#/Truck

## STC100 Sport Pride™ Chair Back Covers

**Customize standard folding chairs...** Show your program's spirit • Full color graphic printing for logos and lettering • Durable sewn vinyl construction • Fits Bison Team and Event chairs and most standard folding chairs • Bison's Art Department will assist in design • Minimum order of four chair covers • Each order must include one STC100ART set up and artwork charge. Approx. shipping weight: 1#/each; Sm. Pkg.

**Bison is well equipped to handle all your safety padding needs...** Whether simple solid color gym wall padding, full color graphic or lettered wall padding or durable outdoor stadium or ball field padding, Bison is your best bet • Custom sizes, shapes, cutouts and mounting systems are no problem • Let our in-house art department help you choose from in-stock vinyl colors shown on page 102, custom vinyl colors (at an additional cost) or an infinite range of Sport Pride full-color photo image options • Consider Bison for all your indoor and outdoor safety padding needs • Due to their custom design, scoring tables and wall padding are not returnable.

"We are extremely happy with our new graphic wall padding. Besides looking great, the padding was very easy to install. It's a terrific addition to our new gymnasium!"  
**Jeff Edwards, Superintendent**  
*Nebraska City Public Schools, Nebraska City, NE*

**Full Color Graphic** See page 32

There is no limit to the range of colors, images and program excitement that you can achieve with Sport Pride printed graphic wall padding.

**Lettered Vinyl** See page 33

Choose one of our in-stock vinyl colors and add one- or two-colored outlined lettering for impressive and safe wall protection.

Letters cannot cross pads (eight pads shown).

**Solid Color Vinyl** See page 34

Select one or more compatible vinyl colors from our in-stock color selections. Mix and match for added aesthetics.

**Outdoor Safety Padding** See page 35

Outdoor conditions require special design features to guarantee long life and beauty.

**WP20F Wall Padding Duplex Outlet Cutout Trim**  
**Urethane trim piece...** Use for field installed outlet or other 6" x 6" cutouts • Specify Light Gray WP20F-GR or Black WP20F-BK.  
Approx. shipping weight: 2#/each; Sm. Pkg.

**Custom Padding Options**

**Post/Beam/Column Wraps**

**Custom Wall/Door Padding**

**Stage Edge Padding**

**Hidden "Z" Track Mounting System (WPZ)**

**Standard Flange Style Mounting System**

**Special Chain Link Mounting System (WPC)**

**Outlet and Light Switch Cutouts (WP20)**

**Custom Cutouts (WP25)**

Additional wall padding options including 3" thick Urethane, 2" thick Neoprene, Vonar fire retardant covering, and Fire Retardant OSB covering are available. Consult Bison wall padding specialists for details and pricing.

All Sport Pride™ graphic wall padding includes Hidden "Z" Track Mounting system • See page 34 for size and style ordering chart • All printed graphic wall padding is protected with a Duralam™ clear coating • Optional protective covers are available for 6', 7' and 8' padding heights • Consult a Bison Product Specialist to assure proper ordering.

## Sport Pride™ Graphic Wall Padding

Add the **WOW!** factor to your indoor or outdoor athletic facility with Sport Pride™ full color graphic wall padding...The options are limited only by your imagination • Our creative art department offers exciting photo or logo reproduction and an infinite range of colors that make simple, one color padding seem, well, boring • Digitally printed graphics are far superior to silk screened or vinyl stick-ons in both image quality and durability • Protect your graphic padding investment with Protective Curtains (see page 33) • Bison Sport Pride graphic wall padding is an excellent project for booster club fundraisers to celebrate state championships or as a component of a gym renovation.

## 16' Below Backboard Padding Systems

**Save money by selecting Below Backboard Wall Padding Systems...**One-easy-to-order model number provides player protection a full 5' on either side of the 6' wide backboard • 16' is the commonly recommended width and is especially important if the wall is less than 10' from the end line of the basketball court • Below Backboard Systems are available in your choice of 6', 7' or 8' heights • Electrical outlets or other wall protrusions can be accommodated by adding optional cutouts for an additional cost • All Sport Pride graphic 16' systems are provided with Hidden "Z" Track Mounting Systems • Typical 16' installations consist of four, 4' wide panels but occasionally wall configurations dictate different width panels • A 16' system may be combined with additional individual panels • Consult a Bison Product Specialist for details regarding color options, cutouts, graphic layout and special padding configurations at time of initial order.

**Hidden "Z" Track Mounting System (WPZ) is standard with all Sport Pride™ Graphic and Lettered Wall Padding unless otherwise specified.**

### Mixing Sport Pride™ Graphic Wall Padding with Protector™ Unprinted Padding

Since all Sport Pride graphic wall padding is printed on a white-based vinyl material, the colors, including the background color are digitally determined. While it is possible to approximate the color of existing precolored vinyl used on unprinted Bison Protector™ wall padding, it is impossible to accomplish an exact match.

If your project calls for a significant number of panels with no graphics, and you want to take advantage of the lower cost of unprinted padding for those panels, care should be taken in the graphic design to minimize the effect of the color difference. To have an exact match requires "graphic free" panels to be ordered as Sport Pride graphic padding. Call Bison for details.

## Protector™ Lettered Wall Padding

**Show your home team pride...** Make a statement on solid colored wall padding with custom one- or two-colored lettering • Choose lettering style from the options below • Selection of 4' wide instead of 2' wide panels enhances the ability to lay out your custom padding with smaller or more letters • Bison art department will provide free assistance and sample layouts.

### Letter Styles

**A ABC**    *c* ABC  
**B ABC**    **D** ABC

Lettered wall padding includes Hidden "Z" Track Mounting system • See below for typical indoor padding specifications • See page 34 for size and style ordering chart • See page 102 for vinyl color options and available lettering color options • Individual letters must fit on a single 2' wide or 4' wide panel • Consult a Bison Product Specialist to assure proper ordering.

**SAVE \$\$\$  
WITH 16'  
PACKAGES**

## 16' Lettered Below Backboard Padding Systems

Order typical 16' wide padding system with a single model number and save money • Available in 6', 7' or 8' high sizes • See page 34 or consult a Bison Product Specialist for ordering details.

### Standard Indoor Wall Padding Specifications

Unless otherwise indicated, all indoor Full-Color Graphic, Two-Color Lettered, and Solid Color vinyl indoor wall padding is constructed of 7/16" OSB composite board backing with adhesive applied 2" fire retardant Reflex Plus urethane foam. Leather grain (Two-Color Lettered and Solid Color styles) flame-, mildew-, and UV-resistant 14 oz. vinyl is tightly stretched around foam and secured to OSB backing by means of staples no less than 2" apart. Full-Color Graphic padding is protected with DuraLam™ liquid laminate. Full color graphic and lettered vinyl padding come standard with hidden "Z" channel mounting. Solid color vinyl padding can be ordered with standard flange or optional hidden mount style. Specifications may vary on custom sizes, shapes, and configurations to meet site-specific requirements. **Contact a Bison Customer Service Specialist for details regarding other foam density, foam thickness and fire retardant specification options.**

**Wall Padding Protective Curtains**  
**Maintain the impact of your Sport Pride or Protector wall padding...** Reduce the temptation for vandalism and prevent unnecessary scuffing while still maintaining all your wall padding's

safety features • These lightweight black nylon curtains have fully hemmed edges and a full length Velcro top attachment strip that is designed to attach to Bison wall padding • Includes appropriate length of 3/4" wide adhesive backed Velcro strip to attach to top of padding • Consult a Bison Product Specialist for ordering information.

Approx. shipping weight: 2#; Sm. Pkg.

## Protector™ Solid Color Padding

**Protect your players and add color to your gym at the same time...** This padding that has all the safety, durability and quality of our graphic and lettered padding but is priced to allow more square feet of padding for your dollar • Choose from any of our standard vinyl colors shown on page 102 • Choose a single color for your entire wall or alternate compatible school colors at no extra cost to maximize the aesthetic appeal • Actual vinyl color samples are available free of charge on request • If choosing two colors, it is best to have an odd number of panels to allow the end panels to be the same color.

*Solid color padding can be ordered with either Standard Flange Style or Hidden "Z" Track Mounting Systems • See page 102 for vinyl color options • Consult a Bison Product Specialist to assure proper ordering.*

Now Available in Pink

### 16' Solid Color Below Backboard Padding Systems

You'll save money and make ordering easy with this all-in-one system  
 • Can be ordered with either Standard Flange Style or Hidden "Z" Track Mounting systems • If you want to alternate two solid colors, you will want to select 2' wide panels and add an additional 2' wide panel to have the same color on both ends of an 18' padded wall.

**Protector™ Solid Color Padding is available in either Standard Flange Mount or Hidden "Z" Track design.**

## All Weather™ Outdoor Padding

**Neither snow nor rain nor dark of night...** Oh wait, that's the US Postal Service motto, but it also applies to our All Weather Outdoor Padding and you can add heat, humidity, hail, sleet, wind, sunlight, frost and virtually any other common weather term to describe our padding's durability • All Weather Padding features ¾" BC SYP exterior grade plywood, 100% rust-proof stainless steel, brass or aluminum hardware and fittings, 3" thick mildew-resistant polyurethane foam and heavy outdoor durable vinyl coverings • 16 sunfast solid color options, full color graphic or lettered options

- Each assembled panel, regardless of size, is vented at the bottom to allow moisture to escape, increasing both functional and aesthetic longevity • Outdoor padding cost is computed by the square foot • Outdoor padding is available in all sizes, styles, custom configuration and colors of our indoor padding.

All Weather padding comes standard with flange style mounting but consult our Bison Padding Specialists to determine if optional **WPZ** "Z" Track Mounting, **WPC** Chain Link (included) or **WPV** Velcro Mounting better fits your specific needs for part or all of your installation.

### Outdoor Padding Specifications

Unless otherwise indicated, all outdoor Full-Color Graphic, Two-Color Lettered, and Solid Color vinyl outdoor padding is constructed of ¾" FDN CCA treated southern yellow pine plywood with adhesive applied 3" anti-microbial urethane foam. Two-color Lettered and Solid-Color styles are covered with fabric-backed flame retardant and mildew- and UV-resistant 30 oz. vinyl with leather grain texture. Full-Color Graphic styles are covered with 14 oz. flame-, mildew-, and UV-resistant vinyl with DuraLam™ protective coating applied over the graphics. All vinyl is tightly stretched around the foam and stapled to the plywood with rust-proof stainless steel staples no less than 2" apart. Mounting styles will vary depending upon specific requirements. Specifications may vary on custom sizes, shapes, and configurations to meet site-specific requirements.

## Easy Store™ Portable Bleachers

See pages 76-77 for outdoor seating.

BLI1503A

### Easy Store™ Indoor Bleachers

Portable indoor bleachers provide a mobile solution to seating needs in a wide range of indoor applications and can be used outdoors when required... When in use, Easy Store bleachers rest on non-marking rubber feet • Just lift front to tilt bleachers onto stable 3" diameter transport casters • Choose from 7½', 15' or 21' lengths in various heights • Heavy-duty 2" x 10" anodized aluminum seat and foot planks • Fully welded, hot dip galvanized steel structure • Planks have end caps for a finished look without sharp edges • High grade zinc plated hardware • See below for information on powder coated seat planks • Five-year limited warranty on steel structure, two-year limited warranty on planks.

## Bison has the selection to match your program's needs!

### VB4000 Centerline® Magic™ Self-Storing Volleyball System

This one of a kind system takes self storing to a new level, no wobbling overhead swing ups, and no 8' deep floor wells. Centerline Magic is perfect for new construction but can easily be retrofitted into existing gym floors. You'll never have to worry about transporting or storing your volleyball posts again.

US Patent #8,057,329 B2

**NEW!**

### VB8100JR Arena™ JR Freestanding Portable

Use the same pole system in gyms with floor sockets and on floors without sockets. These innovative base units are compatible with 3", 3½" or 4" Bison posts or any other manufacturer's competition posts. Arena JR will maximize your volleyball equipment investment.

### VB1000 Centerline® Elite Aluminum

Division I and premier high school programs that desire the advantages of lightweight aluminum but are concerned about excessive deflection and net tensioning problems common with other aluminum systems are the most common buyers of this system.

### VB2000 Centerline® Elite Steel Hybrid

For some programs, set up and tear down is not a common occurrence so the superior rigidity and relative cost advantage of steel makes perfect sense. Despite technical advances in recent years, telescoping steel systems are still the choice of a large number of programs.

### VB7777 Centerline® Elite Carbon Hybrid **NEW!**

Even lighter and more rigid than our popular Centerline Aluminum System. Carbon fiber volleyball systems have gained popularity at all levels and this is our most affordable carbon fiber system, offering all the features of the CarbonMax system except for the internal net height winder.

### VB7000 CarbonMax®

Elite programs that want a super lightweight, easy to set up system with easy internal winder net height adjustment but are not willing to sacrifice rigidity and superior net tensioning will discover this is the best system on the market today. Carbon fiber is an investment in the latest volleyball technology.

### VB3000 Lady CarbonMax™

Lady CarbonMax is the best choice for facilities or programs that play exclusively at official women's height. This system is super lightweight but has the stiffness of a heavy steel system so set up is quick, easy and perfect every time.

### VB6000 Match Point™ Aluminum

Designed for high schools on a budget, recreation centers and any facility that wants a lightweight, yet durable power volleyball system will be pleased with this balance of features and affordability. The unique 42" to 96" infinite height adjustment allows competition power volleyball and PE tennis with the same system.

### VB9000 UltraLite™ Aluminum

For programs who desire the versatility of easy tennis-to-volleyball net height adjustment and fast and foolproof net set up but demand elite volleyball net tensioning. Especially appealing to programs that have existing 4" floor sleeves because there's no need to install 3" or 3½" adapters.

### VB8100 Arena II™ Freestanding Portable

Large arenas and multi-use facilities where elite level volleyball is played but where floor sockets or anchors are difficult, expensive or impossible due to ice rink refrigerant lines, portable flooring systems, upper floor location or other constraints will find this system their best option.

All facilities and programs are not created equal so it's not surprising that the selection of volleyball systems is not a one-style-fits-all proposition. Bison offers the widest range of designs available in the industry, one with features that will be the perfect fit for your program. When it's time to purchase your next volleyball standards, don't make your selection on brand name recognition alone or you may overlook the best system for your site. Consider the following design features and you are sure to have a system you will be satisfied with for years.

**Floor Attachment** Most programs want the convenience of posts that drop into floor sockets permanently mounted in the floor. Some gymnasiums, such as upper level gyms, facilities with portable floors or ice refrigerant lines in the sub floor, however, are difficult if not impossible to fit with floor sockets. In these cases, portables that only require floor anchors might be preferable. Truly portable systems (no floor anchoring) are available and generally have a higher price tag and/or require significantly more set up effort.

**Post Weight** In recent years, lightweight aluminum posts have gained popularity due to their ease of set up and storage. Some buyers have, however, become disenchanted with their aluminum systems due to lack of durability and rigidity. The value of lightweight posts will depend upon how often you set up and tear down your equipment and, in the case of many manufacturers, your tolerance for excess post deflection when the net is tensioned. Some aluminum systems outperform those from other manufacturers. The newest technology available uses carbon fiber to achieve **lighter than aluminum, as stiff as steel** results.

**Deflection** For ideal playability, the top rope of a competition net is usually tensioned between 150# and 250#, depending on the system. This tension causes some inward deflection of even the most rigid steel posts. Excessive deflection makes net tensioning and net height adjustment difficult and results in unsightly bent posts. Choose a system that you feel balances weight, features and deflection. Steel and carbon fiber posts are most rigid. Aluminum posts are less rigid and deflection varies greatly from manufacturer to manufacturer.

**Program Level** Your needs will vary depending upon the intended level of play. Systems with telescoping net height adjustment, where the top of the net is always level with the top of the posts, are most popular with collegiate and elite high school programs. Other systems that offer features like tennis to volleyball height adjustment are common for programs that want to use the same systems for competition power volleyball one day and recreation and physical education classes the next. Generally these systems offer not only versatility but also tight budget affordability.

**Post Size** If you are installing a new system including floor sockets, the size of the selected posts will automatically match your new sockets. Retrofitting new systems into existing sockets, however, requires purchasing posts to match your sockets. There are three competition sizes in the industry: 3", 3½" and 4" (100mm). Most manufacturers offer adapters which allow you to put smaller posts into bigger sockets. Some are free, others are an additional cost. Installation of large posts in small sockets is possible but not ideal. Check with the manufacturer before you buy. Totally replacing existing sockets is an undesirable and expensive option in most cases.

**Transport and Storage** In a perfect world, you would snap your fingers and your volleyball system would magically appear. While it's not a perfect world, your equipment selection will, in large part, determine your future set up time and efforts. For many programs, Bison's Centerline Magic self-storing system is the answer. If you are selecting from the wide range of other transportable pole systems, consider issues such as pole weight, available storage and transport dollies to make the best decision for your program.

**Budget** There is a wide range of systems that meet all applicable NCAA, National High School Federation and USVBA rules. Like any equipment, the amount you wish to spend depends upon your budget and the features your program needs. Generally, you pay more for the convenience of lightweight aluminum. New high tech carbon fiber systems are priced above aluminum but have many additional features including superior resistance to deflection.

**Post Padding** Most programs want padding to match their school or facility colors. Some manufacturers offer limited colors or charge extra for expanded color options. Adding lettering to the padding is now very popular as it helps increase school spirit and improves the look of your courts. By and large, stick-on vinyl letters are not a good long-term lettering option as they will curl over time. **Most complete Bison systems ordered offer printed lettering at no extra charge.**

**Warranty** You'll want to know that the manufacturer will stand behind the product in the event of needed repairs or part replacement. Look for written warranties and buy from manufacturers who have a strong reputation for dependable customer service. Most often, the net tensioning winch is the weak link so winch durability usually indicates system durability. **Purchasing through a local dealer is not only friendly to the local economy but improves your service when you need help.**

Centerline Elite Telescoping Aluminum Standard

Common Telescoping Aluminum Standard

Bison Centerline Aluminum Systems Deflect Up To 30% Less Than Other Well-Known Aluminum Brands

Chain Net Height Gauge and Net Storage Bag both **FREE** with Complete Systems

Side Tape Rope Ratchet Tensioners

Bottom Rope Ratchet Tensioners

Centerline Elite aluminum are designed to provide the bowstring tight net tension desired by top programs. The lifetime warranty, precision machined 26:1 worm gear winch and 2" tensioning strap eliminate backlash found with inferior winch systems. The fold-away tensioning handle is safe, convenient and never gets lost. Totally hidden side dowels and bottom net rope are tensioned with Bison's specially designed rope ratchet tensioners that are easy to tighten and release.

Net height adjustment is made precisely and quickly with our unique Auto Track spring assisted telescoping piston design. Just glide the inner tube up or down and turn knob or insert the pin to lock in place. Centerline Elite systems are infinitely height variable from 72" to 98" and have easy-to-read height indicator scales. The 3" standards and winch are covered by a lifetime limited warranty.

## V VB1000 Centerline® Elite Aluminum System

**Power volleyball at the highest level demands equipment to match...** Centerline Elite Aluminum is used in top collegiate programs across the country and is designed for years of dependable use and quick, easy and bowstring tight set up • Aluminum systems have gained in popularity due to their lightweight handling for installation and removal • With Centerline Elite Aluminum standards, you don't sacrifice rigidity to get lightweight convenience • These custom extrusions put high strength, lightweight aluminum where it matters most to decrease post deflection as much as 30% over other well-known aluminum systems • Outer pole has durable powder coated finish • Complete competition system includes posts, net tensioning winch, VB1250K net, VB13 antennae, VB51P safety padding (choose from colors shown on page 102), net rope covers and VB23 floor sockets • **Free socket adapters on request with purchase of complete system** • Order VB73 or VB76 official's platform separately • See note below for 17/8" socket compatibility • **Lifetime limited warranty** on posts and Winch. Post weight for non-winch end 34#; winch end 39#. Approx. shipping weight: 145#; Truck.

### Common Applications

**VB1000 Centerline® Elite Aluminum**  
Division I and premier high school programs that desire the advantages of lightweight aluminum but are concerned about excessive deflection and net tensioning problems common with other aluminum systems are the most common buyers of this system.

### Complete Systems Include **FREE Chain Net Height Gauge, Net Storage Bag plus Lettered Post Padding and Side Tape Covers!**

Centerline Aluminum Model Order #	Approx. Shipping Weight	Description	Free Lettering and Side Tapes
V VB1000	145#, Truck	Complete system described above.	Yes

VB100	50#, Truck	Court adder increases the number of side-by-side courts and includes post and net tensioning winch. Order other components separately. Call for details.	No

"Steel is great in cars or buildings, but when the University of Arizona volleyball team practices in the Wildcats basketball arena, we got tired of hauling the heavy systems in and out. I'd never considered aluminum systems because of negative comments from other coaches. I am now a firm believer that weight alone is not the measure of a quality volleyball system. While Centerline Elite aluminum standards won't make our team better, it has made our equipment managers happier."

**Dave Rubio**  
Head Women's Volleyball Coach,  
University of Arizona

**NOTE:** For use with 17/8" floor sockets common in Canada and other markets, substitute VB10C for VB10 and VB100C for VB100 in any of the packages above.

Centerline Elite Carbon Hybrid Systems are the latest additions to our innovative volleyball system offering. The combination of the wound carbon fiber outer (lower) pole and aircraft quality aluminum inner (upper) pole make this system the lightest weight version of our popular easy to set up Centerline Elite Series.

Just like other Centerline Elite systems, these include lifetime warranty worm gear winch, floor friendly adjustable foot pads, high visibility net height markings and free features including post pad, lettering, chain style net height check gauge, lettered side tape covers, net storage bag and adapters to allow use in 3 1/2" or 4" sockets in addition to popular 3" floor sockets

**Common Applications**

VB7777 Shown with Free ABC52 Lettering and VB1250ST Side Tape Covers

**VB7777**

**Centerline® Carbon Hybrid**

Even lighter and more rigid than our popular Centerline Aluminum System, carbon fiber volleyball systems have gained popularity at all levels and this is our most affordable carbon fiber system, offering all the features of the CarbonMax system except for the internal net height winder.

**VB7777 Centerline® Elite Carbon Hybrid**

Enjoy the benefits of lightweight carbon fiber technology...at a cost that may surprise you • Same great features found in our popular Centerline series of volleyball systems for elite level play • Net height setting and adjustment is accomplished by three design features • Use pin stops for Men's, Women's and Junior heights • Use the infinitely variable adjustment knob to set at other heights • Use the adjustable floor foot to fine tune height settings to match your floor socket installation depth • Post fits in all brands of 3 floor sockets but can be used in 3 1/2" or 4" sockets • **Free socket adapters available on request with purchase of complete system** • Complete systems include posts, net, antennae, post padding, net rope covers • Systems also include free padding and side tape cover lettering, chain net height gauge, and net storage bag • See chart below for various packages and individual post components • Order official's stand separately • Post weight on non-winch end 27#, winch end 32#.

**Complete Systems Include FREE Chain Net Height Gauge, Net Storage Bag plus Lettered Post Padding and Side Tape Covers!**

Lighter than Aluminum

Centerline Elite Steel Hybrid Systems define the perfect balance between weight and pole stiffness. The high tensile strength steel outer (lower) section provides stiffness that is unsurpassed. The 6061-T6 aluminum upper telescoping inner pole reduces the overall weight in areas that are calculated to incur significantly less pole stress when the net is fully tensioned.

Just like Bison's popular Centerline Elite Aluminum system, easy and dependable net set up, lifetime warranty worm gear winch, floor friendly adjustable foot pad, easy-to-read net height indicator scale, free safety pad lettering and limited lifetime warranty, make Centerline Elite Steel Hybrid the perfect choice for programs who prefer the dependability of steel.

VB2000 Shown with Free ABC52 Lettering and VB1250ST Side Tape Covers

## Common Applications

### VB2000 Centerline® Elite Steel Hybrid

For some programs set up and tear down is not a common occurrence so the superior rigidity and relative cost advantage of steel makes perfect sense. Despite advances in technology in recent years, telescoping steel systems are still the choice of a large number of programs.

## VB2000 Centerline® Elite Steel Hybrid

When transport and storage of heavy steel standards is not a concern...Centerline Steel Hybrid is your logical choice

- No material can surpass the rigidity and durability of steel and Bison has put high tensile strength steel where it matters most, the lower section of the pole
- Only Bison offers a hybrid system that includes a lighter weight aluminum, inner telescoping pole where the forces of net tensioning don't require heavy steel
- Outer pole has a durable powder coated finish
- Complete competition systems including posts, net tensioning winch, VB1250K net, VB13 antennae, VB51P safety padding (choose from colors shown on page 102), net rope covers and VB23 floor sockets
- **Free socket adapters on request with purchase of complete system**
- Order VB73 or VB76 officials platform separately
- **Lifetime limited warranty** on posts and winch. Post weight for non winch end 61#; winch end 66#. Approx. shipping weight 220#, Truck

### Complete Systems Include FREE Chain Net Height Gauge, Net Storage Bag plus Lettered Post Padding and Side Tape Covers!

Graphite composite has long been the preferred material for lightweight yet strong sports equipment including tennis rackets, golf club shafts, racing bicycle frames and a wide variety of other products where traditional materials have not provided the performance desired by athletes. Bison has worked with composite engineers to develop a wound carbon fiber tube that maximizes rigidity and minimizes weight. CarbonMax is truly **lighter than aluminum** and **as rigid as steel**.

**Common Applications**

VB7000 Shown with Free ABC52 Lettering and VB1250ST Side Tape Covers

**VB7000 CarbonMax® Composite**  
 Elite programs that want a super lightweight, easy to set up system with easy windup net height adjustment but are not willing to sacrifice rigidity and superior net tensioning will discover this is the best system on the market today. Carbon fiber is an investment in the latest volleyball technology.

**VB7000 CarbonMax® Composite System**

**Maximum rigidity, maximum convenience, maximum overall performance and maximum satisfaction...** Carbon fiber 3½" outer posts with 3" tempered aluminum floor socket stem and inner extension tube for rigidity and durability

- **Lighter than aluminum design** and windup internal net height adjustment maximize fast, easy and convenient set up and teardown
- 26:1 worm gear winch and knotless mesh net with Kevlar top rope maximize net tension performance
- 40% less deflection than even Centerline Elite Aluminum Systems, as much as 60% less deflection than popular aluminum systems from other manufacturers
- Internal net height adjuster has a durable ¾" diameter lead screw for easy net height adjustment even when the net is tensioned
- Safety padding includes lettering (up to 10 letters on all four sides)
- See page 102 for color options
- **Adapters for installation into existing 3½" or 4" floor sockets are free on request with purchase of complete system**
- Other features include premium Centerline antennae, net rope covers and 78" to 98" net height adjustment for all levels of play
- Entire system meets NCAA, National High School Federation and USVBA rules
- Order VB73 or VB76 padded official's stand separately
- Complete competition system includes posts, net tensioning winch, VB1250K net, net storage bag, VB13 antennae, VB51P safety padding (choose from 16 colors shown on page 102), padding lettering, net rope covers, VB23 floor sockets
- **Lifetime limited warranty** on posts and winch. Post weight for non-winch end 32#, winch end 37#. Approx. shipping weight: 150#, Truck

Lighter than Aluminum

**Complete Systems Include FREE Chain Net Height Gauge, Net Storage Bag plus Lettered Post Padding and Side Tape Covers!**

"Our Division I program is a perennial National Championship contender, and we work hard to provide our players with superior equipment. As a longtime user of Bison Centerline Elite Aluminum Systems, we thought we had the best...that was until we discovered CarbonMax. Our equipment manager loves the lightweight design that doesn't compromise on rigidity. The ability to adjust the net height with the turn of a crank without loosening the net is an added bonus."

**John Cook**  
 Head Women's Volleyball Coach  
 University of Nebraska  
 2006 NCAA Division I Champions

# Lady CarbonMax

At last, a system exclusively for women's volleyball programs. Unbelievably lightweight, only 19#, yet surprisingly rigid, Lady CarbonMax matches the stiffness of steel systems that weigh up to three times as much! Aerospace carbon fiber standards mean you don't need to sacrifice easy transport and set up to get maximum performance. Since nine out of 10 high school and college volleyball programs are women's teams, Bison designed Lady CarbonMax for easy set up at women's height only.

Stiff as Steel

Floor Friendly Adjustable Foot

Top Rope Saving Pole Dome

26:1 Worm Gear Winch with Lifetime Warranty

Lighter than Aluminum

VB3000 Shown with Free ABC52 Lettering on NEW VB51P-PK Post Padding and VB1250ST Side Tape Covers

## Common Applications

## VB3000 Lady CarbonMax® Composite System

**Light as a feather yet performance that equals that of heavy steel systems...** Set up is fast, easy and perfect every time, no need for net height gauges because this system is designed specifically for set up at official 7' 4 1/8" (2.24 meters) women's height only • The below-the-floor fine tuning height adjustment features allow Lady CarbonMax to be field adjusted when the system is first installed • Fits in any brand of 3" or larger floor socket • **If your existing sockets are 3 1/2" or 4", Bison will provide socket adapters at no extra charge on request with purchase of complete system** • The 3 1/2" high tech carbon fiber pole is fitted with a 3" tempered aluminum floor socket stem • Even at 19# (non-winch end), the post rigidity far exceeds any aluminum system on the market and equals that of steel posts that weigh as much as 60# • 26:1 lifetime warranty worm gear winch, Kevlar top rope net and unique rope ratchet side tape tensioners create the net tension preferred by elite players and coaches • Safety padding includes lettering (up to 10 letters on all 4 sides), see page 102 for color options • Complete package includes standards, winch, VB1250K Kevlar net, net storage bag, VB13 antennae, safety padding, padding lettering, net rope covers and VB23 floor sockets • Entire system meets all NCAA, National High School Federation and USVBA rules • Order VB73 or VB76 official's stand separately • **Lifetime limited warranty** on posts and winch. Post weight for non-winch end 19#; winch end 24#. Approx. shipping weight 120#; Truck

### VB3000 Lady CarbonMax® Composite

Lady CarbonMax is the best choice for facilities or programs that play exclusively at official women's height. This system is super lightweight but has the stiffness of a heavy steel system so set up is quick, easy and perfect every time.

"Our volleyball coach loves Bison's Lady CarbonMax composite volleyball system. We've used this system for a few seasons now and are pleased with its trouble-free performance. The standards are very easy to set up, they're lightweight and dependable."

**Bill Clements**  
Activities Director  
Dakota Valley High School  
North Sioux City, SD

No competition volleyball system on the market offers the features found on the Centerline Magic Self-Storing Volleyball System. Just like the name implies, super rigid and durable telescoping poles disappear into a 32" deep floor well that can be installed during gym construction, retrofitted into existing floors or installed as a replacement to existing traditional floor sleeves. Injuries, floor damage and equipment deterioration common when heavy, awkward poles are constantly moved from gym to storage are a thing of the past. Centerline Magic set up takes five-minutes maximum and tear down is even faster. The best part is you won't sacrifice durability, post rigidity, net tensioning or stability in exchange for safety and convenience. You can count on Bison to provide you the best volleyball system options in the industry.

US Patent #8,057,329 B2

Pole Magically Telescopes from Floor in Five Rigid Sections

## Common Applications

VB4000 Shown with Free ABC52 Lettering and VB1250ST Side Tape Covers

### VB4000

#### Centerline® Magic™

This one of a kind system takes self-storing to a new level, no wobbling overhead swing ups, and no 8' deep floor wells. Centerline Magic is perfect for new construction but can easily be retrofitted into existing gym floors. You'll never have to worry about transporting or storing your volleyball posts again.

## VB4000 Centerline® Magic™ Self-Storing Volleyball System

**Now you see it...Now you don't...**Never hassle with hauling heavy, awkward or bulky volleyball posts to and from your gym again • Centerline Magic is self-storing in a self-contained 32" deep floor well • 5 high tensile, hard coated aluminum telescoping tubes lift easily from the floor sleeve • When extended for setup, each tubular section twists to lock into place • When lowered into well for storage, sectional tubes slowly recede into the tube below due to a patent pending air cushioning design to eliminate pinched finger or sudden pole retraction • Net height is infinitely adjustable to any net height from 42" to 96" for competition at collegiate or high school men's or women's level one minute and youth PE class the next • Complete Magic system includes telescoping self-storing poles with floor well (sleeve), VB23-CV brass floating floor plates, VB1250K net with zippered net storage bag, VB13 antennae/boundary markers, post padding (choose from colors shown on page 102), free pad lettering and net side tape lettering, net height chain gauge and lifetime warranty 26:1 worm gear winch • Centerline Magic meets or exceeds all NCAA, National High School Federation and USVBA rules for play at all levels • Order VB73 or VB76 padded officials stand separately

• **Lifetime limited warranty** on posts and winch. Approx. shipping weight: 125#; Sm. Pkg.

"The storage room for our volleyball equipment was located on the second floor above the gym. I always held my breath as my players carried heavy poles up and down the steep stairs before and after each practice. So much time was wasted setting up and taking down. Bison self-storing poles are ingenious! It literally takes only minutes to set up the nets. They are designed for optimum performance and safety. I have used four different manufacturers' volleyball systems during my eight years of coaching club and high school, and it has been a relief to use the Magic volleyball system!"

No need to install adapter sleeves into your existing 4" floor sockets with UltraLite 4" aluminum volleyball systems. Increased post diameter allows thinner and lighter post extrusions without sacrificing post rigidity. The lifetime warranty winch mounts on a unique sliding track for quick net height adjustment. QwikSet net design makes set up lightning fast and provides superior net tensioning. When coupled with Bison premium system components, UltraLite might just be the volleyball system for your program.

Slim Profile Winch

QwikSet Net

Net Height Lever

Bottom Rope Ratchet Tensioners

VP9000 Shown with Free ABC52 Lettering and VB1250ST Side Tape Covers Plus Optional ABC53 Second Color Lettering

## Common Applications

## VB9000 UltraLite™ Aluminum System

**New from Bison but not new to the industry...** Popular, super lightweight 4" diameter posts fit all manufacturers' 4" diameter floor sleeves so there is no need to use adapter sleeves • **Lifetime warranty on posts and winch** proves this is a durable, functional system with a long life • The slimline, high tech, self-lubricating lead screw winch allows maximum tension with minimum effort • QwikSet net attachment system has no loose parts so it sets up consistently in less than five minutes • Net height is variable by a simple flip of a lever, allowing the slide rail to adjust net height from 96" to 42" and every height in between for all levels of volleyball play, badminton, tennis or pickle ball • Set up at tennis height (42") requires special attachment components, call a Bison Product Specialist for details, free components and instructions • Durable powder coated finish • Choose complete system with all components or order components separately • Complete system includes two standards, winch, post padding (choose from colors shown on page 102), net, antennas, net rope covers, net storage bag, padding lettering and VB27 floor sockets • Order VB73 or VB76 volleyball official's platform separately • See chart for ordering information.

Post weight for non-winch end 31#; winch end 39#. Approx. shipping weight: 130#; Truck

### VB9000 UltraLite™ Aluminum

For programs who desire the versatility of easy tennis-to-volleyball net height adjustment and fast and foolproof net set up but demand elite volleyball net tensioning. Especially appealing to programs that have existing 4" floor sleeves because there's no need to install 3" or 3½" adapters.

**Complete Systems Include FREE Chain Net Height Gauge, Net Storage Bag plus Lettered Post Padding and Side Tape Covers!**

VB600	60#, Truck	Court adder increases the number of side-by-side courts and includes post and net tensioning winch. Order other components separately. Call for details.	No

Until now, facilities where floor sockets or floor anchor systems were difficult, inconvenient or truly impossible to install had limited options when it came to selecting volleyball systems suitable for elite power volleyball.

Unlike other portable units on the market, Arena II needs absolutely no floor anchors and no bulky, heavy, awkward, loose ballasts and extended framework. Unlike ceiling mount swing down systems, there is no custom design, extended delivery, expensive installation or difficult net height adjustment. Arena II is totally self-contained, with built-in ballast that allows superior net tensioning and a 100% guarantee not to slip or slide on any common volleyball court flooring system including permanent or portable maple athletic flooring, synthetic floor systems or any quality clip together tile system, including but not limited to Sports Court®, ActiveCourt®, Spider Tile® or Mateflex®.

Any facility regardless of size will value the convenience of these hassle-free, super stable, totally freestanding volleyball standards.

Totally Self-Contained for Easy Transport and Storage

Down Official's End with Optional ABC50 Oversized Logo

Special liftgate delivery charge or extreme manual lifting required if dock/forklift not available.

### VB8100LOW Arena™ II Badminton/ Tennis Adapter Kit

Allows Arena II freestanding standards to be used for recreational tennis or badminton • Order nets separately.

VB8102 Shown with Optional ABC50 Oversized Logo

### Common Applications

#### VB8100 Arena™ II Portable Freestanding

Large arenas and multi-use facilities or upper floor gyms where elite level volleyball is played but where floor sockets or anchors are difficult, expensive or impossible due to ice rink refrigerant lines, portable flooring system, upper floor location or other constraints will find this system their best option.

## VB8100 Arena™ II Freestanding Portable Volleyball System

**No sockets, no problem...** Arena II makes life easier • Start-to-finish set up in 15 minutes without tools, floor anchors, guy wires or moving heavy ballasts • Built-in swing-up official's stand • 8" diameter, 2" wide floor-friendly urethane wheels • Safe, attractive and minimally obtrusive padding system available in colors shown on page 102 • Totally padded base size 40" (w) x 47" (l) when in play • Superior net tensioning with lifetime warranty 26:1 backlash free worm gear winch • Pin lock net height adjustability including junior and official men's and women's heights • Transport and storage without removal of padding • Premium Kevlar top rope net • Add lettering to padding at no extra charge (see ABC52) or add logo on side panel padding at an additional cost (ABC50) • Arena II meets all NCAA, National High School Federation and USVBA standards • System includes two bases with posts, built-in official's stand, VB1250K net and storage bag, VB13 antennae, net rope covers, chain net height gauge and complete padding system • **Lifetime limited warranty** on posts and winch.

Approx. shipping weight: 3200#, Truck

**Complete Systems Include FREE Chain Net Height Gauge, Net Storage Bag plus Lettered Post Padding and Side Tape Covers!**

Arena II Model #	Approx. Shipping Weight	Description	Free Lettering and Side Tapes
VB8100	3200#, Truck	Complete system including one each of internally ballasted "down official" and "platform" end bases, full padding system, net, antennae, boundary markers, lettered side tapes, base pad lettering, net rope covers and net height gauge.	Yes
VB8102	3900#, Truck	Complete side-by-side, 2 court Arena II system including one each of internally ballasted "down official" and "platform" end bases, full padding system, VB810 padded center post with winch, center post transport dolly, 2 nets, 2 pair of antennae, 2 sets of boundary markers, base pad lettering, lettered side tapes, net rope covers and net height gauge.	Yes

VB810	600#, Truck	Arena II center post and winch with transport dolly. Add any number of side-by-side courts to VB8100, VB8102 or VB8102DJ. Order VB810P center post padding, nets, boundary markers and antennae separately.	No

"We've used the Bison Centerline Aluminum Volleyball System for years in our program and have loved it. A major facility renovation forced us to move to temporary quarters for a season and we faced the dilemma of using a portable floor in a facility with no floor sleeves. Bison's Arena II Volleyball System worked perfectly for us. It provided us the free standing portability needed without sacrificing net rigidity, ease of set up, player safety or overall quality. And, it looks AWESOME!"

**Debbie Brown**  
Head Volleyball Coach  
University of Notre Dame

## Arena™ JR Freestanding Portable Volleyball System

The same 3", 3 1/2" or 4" volleyball poles that you use in existing or new gym floor sleeves...

Now can be used to create a 100% freestanding portable volleyball system that can be used on any floor, without sockets, loose ballast, floor anchors or guy wires • Arena JR bases are fully padded in your choice of colors shown on page 102 and can easily be transported to and from storage with the transport dolly provided • Just lift the poles from the Arena JR base to use poles inserted into floor sockets in other gyms (see note below) • Order VB8100JR to get complete system including bases, base padding, VB20 Centerline Hybrid 3" posts, post padding, net, antennae, boundary markers, lettered side tapes, pad lettering, net storage bag, net rope covers and net height gauge • If you wish to use your existing 3", 3 1/2" or 4" posts (any brand) and your own net, post padding, etc., order VB80JR for one pair of Arena JR bases with base padding • To create your own Arena JR system by purchasing Bison volleyball components separately, consult a Bison Product Specialist • Order VB73 separately for compatible padded officials platform • Can also be used with VB810 and VB810P Arena II Court Adder to create 2, 3 or more side-by-side volleyball net systems.

**NOTE: If you intend to use new posts ordered with Arena JR system exclusively with Arena JR bases and NOT also in typical floor sockets, substitute shortened VB20T posts for full length posts.**

### WARNING!

Arena II center posts are designed exclusively for use between two Arena II freestanding bases (VB8100). Use as end posts for any net system may result in serious injury caused by tipover.

## Centerline™ and Match Point™ Portable Volleyball Systems

**When floor sockets are not an option...Bison T-bases to the rescue** • Popular standard Centerline Steel Hybrid and Match Point Aluminum Volleyball Systems can be permanently or temporarily mounted into easy-to-transport and store T-bases allowing use of easier-to-install threaded floor anchors • Both systems have all the features of their in-floor socket-style counterparts shown on previous catalog pages including superior net tensioning, easy net height adjustment, durable winch and pole combination and silver gray powder coated finish • Bases have floor friendly transport wheels and easy-to-operate hold down knobs • Each system includes: T-Bases, Centerline or Match Point poles with winch, base and pole safety padding (see page 102 for color options), competition net, net storage bag, net rope covers, four VB25FL floor anchors, antennae and free padding lettering (4 sides) • Consult a Bison Product Specialist if your floor is not a common floating maple design • Order VB76 official's platform separately.

### VB2000T Centerline™ Steel Hybrid Portable

Lifetime limited warranty on pole, winch and base. Approx. shipping weight: 300#; Truck

### VB6000T Match Point™ Aluminum Portable

10-year limited warranty on pole, winch and base. Approx. shipping weight: 250#; Truck

**Complete Systems Include FREE Chain Net Height Gauge, Net Storage Bag plus Lettered Post Padding and Side Tape Covers!**

### VBTBASE T-Base Adapter

Convert virtually any 3", 3½" or 4" volleyball standards into a portable system...Without sacrificing net tensioning • Purchase separately or in complete systems VB2000T or VB6000T above • Eliminates the need to install costly and sometimes impractical or impossible floor sockets

for traditional posts • Order four Bison floor anchors separately (VB25, VB25FL or VB25TF) based on gym flooring system • Features heavy steel construction, floor friendly transport wheels, easy-to-use, built-in floor attachment knobs and durable powder coated finish • If ordered separately, customer will need to order two VB354 sleeve adapters for any 3½" pole system or two VB340 sleeve adapters for any 3" pole system. Approx. shipping weight: 30#/each; Sm. Pkg.

### Common Applications

#### VB2000T Centerline™ Portable Systems

College or high school programs that want all the features of an elite system but find floor socket installation is impossible or impractical. This system only requires installation of four easy-to-install threaded floor anchors.

#### VB6000T Match Point™ Portable Systems

Budget conscious programs that need portability but won't sacrifice playability. Floor anchors are easier and less costly to install than floor sleeves required on typical in-floor systems.

**NEW!**

## SVB5050W Match Point™ Post or Wall Mounted Volleyball System

**All the features of Bison's popular Match Point systems on a convenient track system...**Track system mounts to customer's supplied posts, walls or any surface strong enough to support desired net tensioning • Net can be infinitely adjusted from 42" (tennis) to 96" (men's volleyball) net height • System includes VB1250K competition volleyball net, net tensioning winch, net storage bag and net cable covers • Order VB13 boundary antennae separately • Tracks must be mounted between 34' and 40' apart to be compatible with net provided • With customer supplied net rope extension tracks could be mounted wider but net might sag or require additional supports to maintain net height • Five-year limited warranty on track and winch. Approx. shipping weight: 75#; Sm. Pkg. Ships Oversize

## SVB1000 Centerline® Elite Sand Volleyball System

**You supply the sand...** Bison will supply the rest • You won't need to sacrifice ease of setup, safety or net tensioning with Bison's Centerline Elite Sand Volleyball Systems • Bison's exclusive TwistLock™ removable stainless steel sand sockets not only allow easy removal of posts when not in use but also eliminate the problem of sand or water filling the socket • Centerline Sand Volleyball posts have all the great features that have made Centerline Elite a standard in the industry plus special features for outdoor and indoor sand court use including stainless steel hardware and other weather and sand proofing features • See page 40 for highlights of Centerline Elite premium design features • As an added bonus, the same 3" Centerline posts can be used indoors on your hardwood floor court and outdoors without modifications for maximum equipment utilization • Complete system includes special Centerline 3" sand aluminum posts, lifetime warranty net tensioning winch, competition TwistLock stainless steel sockets, player safety padding (see page 102 for color options), competition Kevlar top rope net, antennae, net and antennae storage bag, net rope cover and net height indicator • You'll also get FREE post pad lettering on all complete system orders • Order SVB73 Sand Volleyball Officials Stand and boundary kit separately • Systems meet all applicable high school and college rules. Approx. shipping weight: 300#; Truck

## SVB1002 Centerline Side-by-Side Double Court Sand Volleyball Systems

**Need two courts but want to save money?...** Bison side-by-side courts are the answer • Three posts, two net tensioning winches, three TwistLock sand ground sockets, two nets, two antennae and post padding are all included in this complete package • As an added bonus, free pad lettering on the outside end posts, free net and antennae storage bag and free net chain net height indicator makes this a truly complete package. Approx. shipping weight: 425#; Truck

## SVB100 Centerline Sand Volleyball Court Adder

**Need even more side-by-side courts?...** Purchase one court adder plus additional VB1250K nets, VB510P post padding, VB13 antennae/boundary markers and SVB23 sand ground sockets to string as many courts together as desired • Each SVB100 includes one Centerline Elite Sand Volleyball post and lifetime warranty net tensioning winch. Approx. shipping weight: 50#/each; Truck

### SVB23 and SVB27 TwistLock™ Sand Volleyball Sockets

**Now you see it...** Now you don't • Unique twist lock design allows the socket to be installed or removed from a permanent concrete base foundation in a matter of seconds • No more water or sand filled sockets or sockets that protrude above the sand • These stainless steel sockets will not rust even if left installed year round • The unique concrete foundation with imbedded base plate design has a leveling feature to allow precise post leveling and eliminate installation errors • TwistLock sockets come standard with Centerline Elite single and side-by-side systems but can be ordered separately to use with any 3" Bison or other indoor competition volleyball systems for maximum utilization of existing equipment • Order SVB27 for TwistLock 4" Sand Volleyball Sockets available for Bison VB9000 UltraLite or other manufacturers 4" systems • Order VB354 to allow installation of 3½" volleyball posts in SVB27 4" sockets. Approx. shipping weight: 50#/each; Sm. Pkg.

## SVB73 Sand Volleyball Official's Platform with Padding

**Perfect for sand courts...** Same great features as our indoor Clamp-On Officials Platform but with special sand skids instead of wheels to avoid sinking into the sand • Includes gray padding system conforming to all NCAA, National High School Federation and USVBA rules • Substitute padding in black, maroon, navy, royal or scarlet at an additional cost • Five-year limited warranty on stand. Approx. shipping weight: 90#/each; Truck

## SVB28 Premium Sand Boundary Kit

**Kit comes complete with ½" yellow rope spliced into a continuous loop to mark the outer boundary of an official sand volleyball court...** Includes galvanized ground anchors that screw below the playing surface for maximum player safety • Two-year limited warranty. Approx. shipping weight: 26#; Sm. Pkg.

## SVB26 Boundary Kit

**Bright orange ¼" rope with excellent outdoor durability...** Includes storage reel and corner stakes • Can be used on grass or sand. Shipping Weight: 4#; Small Package

Strap Style  
Worm Gear Winch

SVB5000 Shown with Optional ABC52 Lettering

## SVB5000 Match Point™ Competition Outdoor Volleyball System

**Sand volleyball can now be played at the same level as on the hardwood court...** Rugged system designed for California-style power volleyball • 3½" posts are galvanized and powder coated for maximum rust resistance • Net is infinitely adjustable to insure exact net height for competition or recreational volleyball • Tightens with the same mechanism found on our Match Point competition systems • **Includes post padding, net and antennae** • Optional padding lettering or logo available for team or sponsor recognition (ABC51, ABC52 and ABC53) • Install permanently in concrete or using optional SVB210 ground sleeves • Five-year limited warranty. Approx. shipping weight: 260#; Truck

### SVB5050 Outdoor Volleyball System

**Same system as SVB5000 except without antennae and padding...**  
Five-year limited warranty. Approx. shipping weight: 225#; Truck

### SVB500 Court Adder for SVB5000 or SVB5050

**Designed for adding additional courts with a single post...** Includes post, net tensioning and adjustment mechanism • Other components sold separately • One SVB500 adds one side-by-side court, order multiple SVB500s to add more courts • Five-year limited warranty. Approx. shipping weight: 115#; Truck

Model	SVB5000 Components	Warranty
SVB50	Competition Outdoor Volleyball Standards	Five-Year Limited
VB1250K	Competition Net	One-Year Limited
VB13	Sideline Antennae	90-Day Limited
VB51P	Post Padding - 16 Colors	90-Day Limited Outdoor

### SVB210 Ground Sleeve (not shown)

**For removable installation of SVB5000, SVB5050 or SVB500...** This steel sleeve, buried in concrete, allows for easy removal of posts when not in use • When installed according to instructions, the top of the sleeve is approximately 6" below the top of the sand, so sand can be used for other activities • Durable molded plastic cap keeps sand out • Each system requires two sleeves. Approx. shipping weight: 35#/each; Sm. Pkg.

SVB2000A

## SVB2000A Aluminum Recreational Volleyball System

**The perfect volleyball system for playing in the sand or grass whenever the goal is fun...**

Recreational leagues, beach resorts, campgrounds, playgrounds, parks, school yards, any place where a group gathers to play volleyball • 3½" diameter aluminum extruded posts permanently install in a 30" deep x 8" diameter concrete footing or can be installed using VB21 ground sleeve (optional) to allow easy removal of the poles when not in use • Rigid, lightweight aluminum is 100% rust-proof • Net is infinitely adjustable from men's competition volleyball height, 7' 11½", to as low as 42" tennis height • Poles are capped to keep out moisture • Crankless net tightening • Powder coated finish • Includes net with fluorescent top tape and all necessary hardware • Two-year limited warranty on standards. Approx. shipping weight: 110#; Truck

### SVB08 Recreational Volleyball Net

Official size 32' x 36" nylon net with

**fluorescent top tape for maximum visibility...** Nylon top rope • Black webbing • Fits SVB2000A and VB0050 Bison systems and most net games • Weather-resistant • 90-day limited warranty. Approx. shipping weight: 3#; Sm. Pkg.

SVB400

## SVB400 Portable Volleyball/Badminton Set

**Enjoy net game fun including volleyball or badminton anywhere you go...** Family picnics, class reunions, summer camp or school outings • You'll be ready to play quickly with snap together poles • System includes poles, net, guy ropes and zippered carrying case. Approx. shipping weight 3#; Sm. Pkg.

### VB21 3½" Round Ground Sleeve

**These aluminum ground sleeves allow removal of your SVB2000A aluminum volleyball system...** Sleeves mount permanently in a 30" deep x 10" diameter hole filled with concrete • Cap keeps out rain, snow and dirt • SVB2000A requires two sleeves, each sold individually. Approx. shipping weight: 9#; Sm. Pkg.

**VB73 Clamp-On Official's Platform with Padding**

Popular design is compatible with most volleyball systems that use floor sockets regardless of manufacturer...3", 3½" or 4" standards • Unique and stable clamp grasps post at approximately 74" above the floor to eliminate interference with required post padding • Widened platform and taller side rails increase official's comfort and safety • Floor-friendly wheels allow easy transport to and from storage • When in use, sits on non-slip rubber floor pads • Heavy-duty 1" diameter tubular construction is covered with 1" thick matching gray vinyl covered foam padding to meet all NCAA, National High School Federation and USVBA rules • Substitute padding in black, maroon, navy, royal or scarlet at an additional cost • Not recommended for use with VB6000, VB2000T, VB6000T, or systems utilizing VBTBASE adapters • **Order SVB73 for use on sand volleyball courts** • Five-year limited warranty. Approx. shipping weight: 75#/each; Truck

**VB76 Freestanding Folding Volleyball Official's Platform with Padding**

The perfect balance of stability and storability...Meets all NCAA, National High School Federation and USVBA rules • Easy pull-pin folding design • Powder coated heavy gauge steel construction • Floor-friendly wheels and floor pads • Includes color coordinated gray padding • One-year limited warranty. Approx. shipping weight: 120#/each; Truck

**VB98HG Chain Net Height Gauge**

Eliminate the need for tape measures or bulky poles with this easy-to-use chain net gauge... Multiple indicators for all common net heights • Complete with small zippered storage bag, instructions and spring clip to store gauge behind padding attached to the pole or net rope. Approx. shipping weight: 1#; Sm. Pkg.

**VB99HG Premium Telescoping Net Height Gauge**

Perfect net height is now achievable with this easy-to-use tool...Measure any common competition net height • Aluminum telescoping pole folds to only 39" length for easy transport in nylon storage bag. Approx. shipping weight 2#; Sm. Pkg.

**NEW!**

**VB1200RR Rope Ratchet Net Tensioning Kit**

Purchase this set of four net tension ropes to replace or supplement current volleyball side tape tensioning devices...Easy ratchet design pulls tight, then releases with the push of a button • Quick, easy and safe • Tensioners are standard on Centerline, CarbonMax, Lady CarbonMax and Match Point systems but are available for lost or worn tensioners and for any system when horizontal net tensioning is needed • Set of four. Approx. shipping weight: 1#; Sm. Pkg.

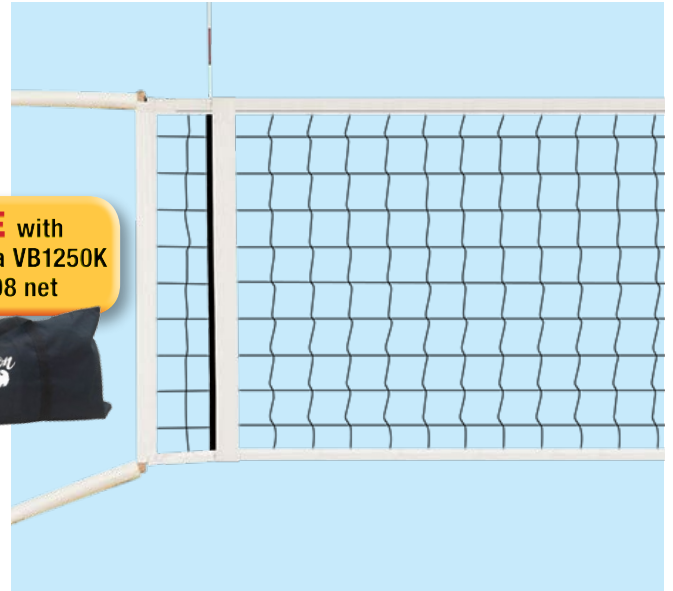

**VB123 NetSet™ Volleyball Net Tensioning Gauge**

Never guess at proper net top rope tension again...Find the best tension setting for your system and count on an exact repeat every time • Gauge installs between the winch and the top rope on all Bison and most manufacturers' competition systems • Easy-to-read 1-2-3 tension indicators • Mark your desired setting with a permanent marker so no matter who sets up the system, it will be the same as the last time • Anodized aluminum body, chromium steel spring, red line indicator, plated steel internal plunger and heavy-duty spring clip connectors • Two-year limited warranty. Approx. shipping weight: 2#; Sm. Pkg.

**FREE** with purchase of a VB1250K or VB1298 net

## VB1250K Kevlar Competition Volleyball Net

This net is designed specifically to install easily and bowstring tight on our Centerline, CarbonMax, Lady CarbonMax and Match Point systems...Totally encased stretcher bar • ¼" no-stretch Kevlar top rope and ⅜" tenex bottom rope • Knotless woven webbing for tighter square net tensioning • White top, bottom and side tapes • Meets all appropriate association rules • 32' x 1 meter official size • Four easy operating rope ratchet side tape tensioners • Rope ratchet bottom rope tensioner • Top and bottom ropes extra long to allow use with floor sockets from 35'-45' apart • May require field shortening of top rope • **Includes zippered net storage bag and top and bottom rope cable covers** • Two-year limited warranty. Approx. shipping weight: 15#; Sm. Pkg.

**Notice! Volleyball nets are not returnable once opened unless defective.**

## VB1298 QwikSet™ Competition Volleyball Net

Designed specifically for fast and easy set up on Bison UltraLite systems...No need for extra side tape tensioners as top and bottom rope tensioning results in superior net tension • Knotless woven webbing and bright white top, bottom and side tapes • Rope ratchet bottom rope tensioner • **Net storage bag and top and bottom rope cable covers included** • 32' x 1 meter official size • Net compatible with posts positioned between 34½' and 38¼' apart • Consult a Bison Product Specialist if posts are not within this range • Two-year limited warranty. Approx. shipping weight 15#; Sm. Pkg.

**Notice! Volleyball nets are not returnable once opened unless defective.**

## VB1250SP Sport Pride™ Volleyball Net Band

See your program's name or logo on the sports page...Customize this add-on white net tape • Velcro's onto any manufacturers' net in less than five minutes • Full-color logo or lettering on a white background • Permanent ink and lamination for lasting school spirit • Remove and reinstall as you replace nets • Allow 4-6 weeks • One-year limited warranty. Approx. shipping weight 3#/each, Sm. Pkg.

## VB35P Cable Covers

Protects players on any manufacturers' system... Each 24" long • Can be shortened in 2" increments to 16" • Set of four. Approx. shipping weight: 1#; Sm. Pkg.

## VB1250ST School Spirit™ Side Tape Covers

Show your school pride...See your school name on the sports page or TV highlights • Velcro attached side tapes have a white background • Select from letter styles below • See page 102 for color options (one color only) • 10 letters maximum, 24" x 2" imprint area • Printed on both sides • Sold in pairs (per net) • Fits most manufacturers' competition nets • One-year limited warranty. Approx. shipping weight: 5#/pair; Sm. Pkg.

Approx. shipping weight: 90#; Sm. Pkg.

## VB95 Multi-Court Volleyball Storage System

**Store it all, up to four courts on a single compact cart...** Eight posts, four nets, eight post pads, four pair of antennae and up to 12 volleyballs can all be neatly stored and easily transported from storage room to court by even your smallest player • 1" square, heavy wall tubular frame has a durable silver gray powder coated finish • Spreader rods are 3/4" diameter steel with a chrome plated finish • Four 150# capacity floor-friendly casters will support even the heaviest steel volleyball standards • Loaded dimensions depend on pole length and padding stack height • Unloaded cart dimensions are 28" (w) x 60" (l) x 58" (h) • Design protects nets from dirt, poles from damage, padding from tears and antennae from breakage • Customize your cart with optional ABC92 custom vinyl lettering • Five-year limited warranty.

Approx. shipping weight: 91#; Sm. Pkg.

## VB94 Volleyball Four Post Transport Cart

**Heavy-duty design allows compact and easy storage and transport of up to two complete volleyball systems...** Compatible with any brand of 3", 3 1/2" or 4" outside diameter posts • Non-marking, 4" swivel casters • Bonus storage for net and padding • Durable, white powder coated finish • Reduces damage to posts and floor • Total width when loaded is 30", allowing transport through most doors • Eliminates multiple trips from storage to set up equipment • One-year limited warranty.

Approx. shipping weight: 88#; Sm. Pkg. Ships Oversize

**NEW!**

## VB92 Volleyball Standard Wall Storage Rack

**Keep any 3" to 4" diameter volleyball standards safely stored without damage...** Order one VB92 for each pair of standards • Mount to any wall with customer supplied mounting hardware.

Approx. shipping weight: 7#; Sm. Pkg.

## VB9130, VB9135, VB9140 Volleyball Pole Caddies

**Make transport of your volleyball poles easy and safe...** fits any manufacturer's poles • 3" floor friendly wheels and 8" tall receiver socket • Choose **VB9130** for 3" poles, **VB9135** for 3 1/2" poles or **VB9140** for 4" poles.

Approx. shipping weight 5#/each, Sm. Pkg.

## VB01XL AcuSet™ Volleyball Trainer

**Improve setting and passing skills...**Great for training at all ages and skill levels • New design for superior stability, durability and transportability • Factory weighted dome base with non marking wheels tips backward for repositioning and transport • Set 30" diameter target ring at any height from 7' to 12' in 2" increments or any angle with easy locating pull pins • Use with VB185 Easy Reach Volleyball Cart for ball retrieval. Approx. shipping weight: 150#; Truck

## VB185 Easy Reach™ Volleyball Cart

**Durable lightweight cart holds up to 30 balls...**Lining constructed of black 600 Denier Cordura • Quick-fold design provides simple compact storage • Equipped with swivel casters for smooth rolling from locker room to gym • Chrome plated tubular frame • Includes storage bag for transport and off-season use • Perfect for use with AcuSet Volleyball Trainer • One-year limited warranty.

Approx. shipping weight: 15#; Sm. Pkg.

## BA175 Ball Security Locker

**Secure your investment in inflatables...**Sturdy blue powder coated wire and tubular locker • Hinged, lockable top (lock not included) • Overall dimensions 24" (w) x 36" (l) x 35" (h) • Easy to roll with convenient handle and heavy-duty swivel casters • Holds approximately 25 to 30 basketballs, volleyballs, soccer or miscellaneous game balls and equipment • One-year limited warranty.

Approx. shipping weight: 50#; Sm. Pkg. Ships Oversize

## VB23IK Hinged Brass Floor Plate Cover Installation Kit

**NEW!**

**Install Bison VB23, VB26, VB27, VB23-CV, BM23 or VB23LK-CV Floating Floor Socket Covers with professional results...**Two-piece router template kit can be used over and over for perfectly sized pockets in floating wood floors • Router and router bits not included.

Approx. shipping weight: 5#/kit; Sm. Pkg.

## Floating Floor Sockets with Brass Floor Plate

Premium quality, cast brass floor plates are machined for a high quality fit and finish...Hinged for easy use • Subfloor excavation and hardwood floor routing required for installation in existing floors • Use with Bison equipment or any 3", 3½" or 4" standards • 8" outside and 6" opening on cover plate • Select size below • Sockets allow floating floor to expand and contract with changes in humidity • Requires two per system.

VB23

**CAUTION!** Floor sockets are difficult and often impossible to install on floors with basements or other hollow cavities below, consult an experienced installer for assistance.

Model #	Size	Used with Bison Posts/Systems	Description	Shipping
VB23	3"	Centerline, CarbonMax, Lady CarbonMax	3" diameter x 10" deep	9#/each; Sm. Pkg.
VB26	3½"	Match Point	3½" diameter x 10" deep	9#/each; Sm. Pkg.
VB27	4"	UltraLite	4" diameter x 13" deep	8#/each; Sm. Pkg.
BM23	1½" sq.	BM10 Badminton	1½" sq. x 12" deep	9#/each; Sm. Pkg.

## Standard Floor Sockets

The same special extrusions as Bison floating floor sockets but with a machined aluminum ring and cover assembly...Use on all nonfloating floor systems, including concrete, tile or synthetic • Aluminum cap • Requires excavation of existing floors • Requires two per system • Select size below.

### BM21 Badminton Floor Sockets

Compact hinged brass cover...hides 12" deep socket designed for 1½" square badminton on other game posts • 4½" outside and 3" opening diameter. Approx. shipping weight: 5# each; Sm. Pkg.

VB235

BM21

**CAUTION!** Floor sockets are difficult and often impossible to install on floors with basements or other hollow cavities below, consult an experienced installer for assistance.

Model #	Size	Used with Bison Posts/Systems	Description	Shipping
VB24	2¾"	Universal Game Standards VB0050	2¾" diameter x 12½" deep	5#/each; Sm. Pkg.

### VB23-CV Hinged Brass Plate Floor Cover

Cover plate only for replacement use...8" outside diameter and 6" diameter openings. Approx. shipping weight: 5# each; Sm. Pkg.

### VB23LK-CV Lockable Hinged Brass Floor Plate Cover

Same hinged brass design but includes a keyless locking device to avoid unwanted access to socket...Substitute VB23LK-CV for standard brass floor plate • Floor plate only, no socket included • 8" outside diameter and 6" diameter opening. Approx. shipping weight: 5# each; Sm. Pkg.

### VB23CH-CV Chrome Plated Swivel Cover

Cover plate only...8" outside diameter and 4½" diameter opening • Steel with polished chrome finish • Includes lifting key. Approx. shipping weight: 5# each; Sm. Pkg.

### BM30-CV Small Hinged Brass Plate Cover

Cover plate only for badminton...or other needed floor cutouts • 4½" outside diameter and 3" diameter opening. Approx. shipping weight: 3# each; Sm. Pkg.

## FREE! Upon Request

(with complete system orders)

### Volleyball Sleeve Adapters

Install 3" diameter or 3½" diameter volleyball systems in any manufacturer's existing 4" or 3½" floor sockets...Order one per each existing socket. Approx. shipping weight: 5-7#/each; Sm. Pkg.

**VB354** To Install 3½" Posts in 4" Floor Sockets

**VB340** To Install 3" Posts in 4" Floor Sockets

**VB335** To Install 3" Posts in 3½" Floor Sockets

### VBDSS Socket Depth Adapter (not shown)

If your existing sockets are extra deep...You may need depth adapters to allow proper installation of your volleyball poles • Bison will provide, free of charge, custom depth adapters with the purchase of any Bison volleyball system • Provide diameter and depth of existing sockets and model of Bison system. Approx. shipping weight: 1#; Sm. Pkg.

### VB25 Standard Drill-In Floor Anchor

Allows anchoring of portable volleyball or basketball systems to existing concrete, synthetic or tile floors without major concrete excavation...Provides ½" threaded hole with spring loaded plug • Requires core drilling and grouting. Approx. shipping weight: 2#/each; Sm. Pkg.

### VB25FL Drill-In Anchor for Common Floating Floors

Same as VB25 except with flange to add additional anchor support when installed on floating maple floor systems... Includes all necessary hardware • Requires concrete core drilling, routing of wood floor and grouting of anchor into concrete • Provides ½" threaded hole with spring loaded plug. Approx. shipping weight: 3#/each; Sm. Pkg.

### VB25TF Thin Slab Drill-In Floor Anchor

Wide range of thin slab applications...Use on athletic floors that have playing surface installed directly over a concrete surface such as tile or synthetic and where the concrete is too thin to allow the use of VB25 or VB25FL • Same ½" threaded insert hole with spring loaded plug • No hardware is provided as this anchor is used in a wide range of applications • Consult a Bison Product Specialist. Approx. shipping weight: 2#/each; Sm. Pkg.

### VB230 Second Story Volleyball Socket Form

Just what you need to install volleyball sockets in floors with lower level or crawl space directly below volleyball court... Prefabricated form can be used as is or field

modified • Use in conjunction with any Bison floor socket • Heavy welded steel with powder coated finish • Requires experienced installer for proper use. Approx. shipping weight: 45#; Sm. Pkg.

## Floating Floor Sockets with Chrome Plated Swivel Covers

Purchase separately or substitute for brass hinged floor plates standard in most Bison systems...Available with 3", 3½" or 4" floor sockets or order cover without socket • 8" outside diameter and 4½" diameter opening. See chart below for ordering details.

Model #	Size	Used with Bison Posts/Systems	Description	Shipping
VB23CH	3"	Centerline, CarbonMax, Lady CarbonMax	3" diameter x 10" deep	8#/each; Sm. Pkg.

VB0050

## VB0050 Universal 2<sup>3</sup>/<sub>8</sub>" Game Standard System

**Excellent value for elementary schools...** This system allows infinite height adjustment between 42" tennis net height and 96" competition volleyball height • Crankless net tightening • Heavy wall steel standards with white powder coated finish • Standards come with adapters to allow installation into 3" or 3½" existing floor sockets in addition to the VB24 floor sockets provided • SVB08 net is standard • If you are purchasing this system only as an official sized badminton court request substitute BM10N badminton net and install sockets 21' apart instead of the 36' standard width for volleyball courts • If this system will be installed on a floating maple floor add VB23-CV floating floor plates (not included) • Can be used with VB51P post padding • One-year limited warranty. Approx. shipping weight: 140#; Truck

3" and 3½" Floor Socket Adapters

## PB050 Universal Portable Base

**Versatile portable base...** This base can be used for a variety of purposes including low cost PE net games • Base can be weighted with optional SC50B ballast bag • 12" x 16" base has floor friendly feet • Post is 60" high • Net not included • 90-day limited warranty. Approx. shipping weight: 13#/each; Sm. Pkg

PB050

# TETHERBALL

TB300

## TB300 Indoor/Outdoor Portable Tetherball Set

**Play anywhere...** 2<sup>3</sup>/<sub>8</sub>" diameter, 10' galvanized steel pole mounted to 24" diameter steel base with 145# of built in ballast for stability • Easy roll wheels • Includes ball, rope and top ring • Non-marking rubber ring on bottom of base • Quick set up with no hole to dig or loose weight bags to carry • One-year limited warranty on pole and base. Approx. shipping weight 188#; Truck

## TB50-B Replacement Tetherball Quality ball with rope and attachment clip.

Approx. shipping weight: 2#; Sm. Pkg.

## TB100 In-Ground Tetherball Set

**Long-lasting outdoor durability...** Includes 1<sup>7</sup>/<sub>8</sub>" diameter galvanized steel pole, PVC ground sleeve for easy pole removal when not in use, rope attachment ring and tetherball with rope • One-year limited warranty on pole. Approx. shipping weight 22#; Truck

## TB100P Tetherball Pole and Ground Sleeve Only

**Order ball separately.** Approx. shipping weight: 20#; Truck

TB100

**Galied**  
TUBE & CONDUIT®  
A PART OF **atkore**  
INDUSTRIAL

**BM10 Competition Badminton/Pickleball System**  
**For official competition or physical education class...** Suits every level of play • 1<sup>11</sup>/<sub>16</sub>" square aluminum standards designed to set up and tear down quickly • Hardware included to adapt to pickleball • System includes official net • Order BM23 sockets and brass floor plates separately • Consult with a Bison product specialist for replacement systems for existing sockets • Two-year limited warranty. Approx. shipping weight: 25#; Sm. Pkg.

**BM10N Official Badminton Net**

**Nylon competition badminton net...** Official 21' x 2<sup>1</sup>/<sub>2</sub>' size • Fits any standard badminton system • 90-day warranty. Approx. shipping weight: 4#; Sm. Pkg.

**BM23 Badminton Floating Floor Sockets/Floor Plates**

**For use with Bison BM10 system...** Quality, hinged brass floor plate with 12" deep aluminum socket • Requires two per BM10 system • Requires sub floor excavation and routing of wood flooring to retrofit into existing facilities • **CAUTION! Floor sockets are difficult and often impossible to install in floors with basements or hollow cavities below; consult an experienced installer for assistance.** Approx. shipping weight: 5#/#each; Sm. Pkg.

**BM21 Standard Floor Socket for 1<sup>11</sup>/<sub>16</sub>" Square Badminton Posts** (not shown)

**1<sup>11</sup>/<sub>16</sub>" square floor sockets for use with BM10 badminton posts...** For installation on non-floating floor systems including concrete, tile, or synthetic • Machined aluminum ring and cap • 1<sup>3</sup>/<sub>4</sub>" inside dimension square tubular socket • Requires two per system. Approx. shipping weight: 9#; Sm. Pkg.

**BM10P Portable Badminton System**

**Competition play without sockets or floor anchors...** Portable yet sturdy • Each end support is designed with a 1<sup>11</sup>/<sub>16</sub>" square post with built-in ballast outrigger and floor friendly transport wheels • Quick and easy set up, tear down and storage • Two-year limited warranty. Approx. shipping weight: 100#; Truck

**TN10 Competition Tennis System**

**Indoors or outdoors...** Competition system for any level • 41' net with 46' coated top cable (TN10N) • 3" round, high tensile aluminum posts with durable powder coated finish • Chrome plated internal winch to tension top cable • Removable handle • System includes posts, indoor/outdoor official net and center court net hold down strap • Order optional sockets separately for easy post removal • Consult with a Bison product specialist for replacement systems for existing sockets • Two-year limited warranty. Approx. shipping weight: 40#; Sm. Pkg.

**TN10N Premium Tennis Net**

**For net replacement on any tennis court...** Use indoor or outdoors • Includes center court net hold down straps and all required net attachment ropes • 41' net with 46' coated top cable (TN10N) • One-year limited warranty. Approx. shipping weight: 16#; Sm. Pkg.

**TN10CS Center Court Hold Down Straps**

**For net replacement on any tennis court** Replacement center strap assembly. Approx. shipping weight: 2#; Sm. Pkg.

**VB23 Indoor Tennis Floor Socket/Floor Plate**

**Remove tennis posts with ease...** 10" deep socket installs into court surface • Hinged brass floor plate covers socket when posts are removed • **CAUTION! Floor sockets are difficult and often impossible to install in floors with basements or other hollow cavities below; consult an experienced installer for assistance.** Approx. shipping weight: 9#/#each; Sm. Pkg.

**VB235 Outdoor Tennis Ground Socket/Ground Plate**

**Same as above but made for the outdoor court...** Approx. shipping weight: 9#/#each; Sm. Pkg.

**BNP0401BC 4' Court Bench**

**See page 77 for the perfect 4' bench for your tennis facilities. Specify black legs and forest green planks.**

# HOW TO SELECT YOUR NEXT SOCCER GOALS

## Special Features of All Portable Aluminum ShootOut™ Goals

Your program is not just like everyone else's. Your level of play, playing surface, goal removal requirements and budget all define your needs. Many programs that use brand name alone as their selection criterion often miss out on features that better fit their requirements. Bison offers a wide range of goals to meet the needs of college, high school, club, recreation and youth programs. Consider the following design features before you invest in your next pair of goals.

### Portability

Since many soccer fields serve double duty, portable goals make up a large percentage of the market. Even if the goal is not permanently attached to the ground, it might not be truly portable. Overall weight, use of rear stabilizing bars, transport systems and the quality of construction all contribute to the true portability. Common problems with hard to move portables include premature failure of welded corners and the potential for staff or player injury. Aluminum is the material of choice for portable goals. There are some lower cost steel portables but they are heavy, hard to move, prone to rust, and worst of all, dangerous if they tip over.

If you have full-time soccer fields, permanent or semi-permanent goals might fit your needs best. Generally, they offer a lower cost alternative with either steel or aluminum as viable options.

### Manufactured or Locally Produced Goals

Over 80% of all portable goal tip over injuries and deaths reported in a recent study occurred with the use of homemade goals produced in shop class or at a local fabrication facility. Failure to understand and follow guidelines and testing requirements found in ASTM F2056 often leads to lack of adequate tip over ballast or ground anchoring, unsuitable goal depth and heavy materials and construction that make goals top heavy. Off the shelf tubing commonly has sharp corners that affect safety. It is critical to purchase goals that have proper warning labels that also certify the goal meets the ASTM safety standards to reduce liability risk for your program.

### Football Gooseneck Post Compatibility

Many high schools and collegiate soccer programs share facilities with football and other activities. It is vital that portable soccer goals are compatible with permanently installed football goalposts, allowing quick and easy conversion from football to soccer and back. All official size (24' x 8') Bison Shootout portable goals, **excluding those with the No-Tip feature**, allow placement in front of permanent football goal posts using the same goal line for both sports by moving the rear horizontal stabilizer bar forward or backward. This is especially critical for fields with permanently painted field markings.

### Post Size Compatibility

NCAA, National High School Federation and FIFA rules require that front uprights and crossbars be no less than 4" and no more than 5" wide for official play. Round, square, rectangular or oval shaped materials are all permitted. Round goals are often selected by clubs that play by FIFA rules but many other programs like round as well. If you choose square or rectangular goals, pay attention to the corners on the tubes. The bigger the radius, the greater the player safety. Bison offers round, square and rectangular goals.

### Goal Size

Official play at high school, college and many club levels requires 24' wide and 8' high goals. These are the goal opening dimensions. Youth goals are available in a variety of sizes and often local club rules, field availability or other factors will determine goal width. Generally, younger players use smaller fields and goals.

### Post Safety

Over the past few years, there has been an increasing awareness of soccer player injury statistics. While most injuries occur in the open field, injuries including concussions, broken bones, cuts and damaged teeth caused by player contact with goals are common.

If you prefer square or rectangular goals, look for manufacturers who use a large corner radius on all upright and crossbar tubes. Choose portable goals with the greatest back depth (10' on 24' x 8' goals) and provide premium anchoring or built-in ballast systems as a part of the package. Soccer is currently the most played team sport that does not require padding on equipment that players might come in contact with during competition. In the last few years, however, there has been a steady move in the direction of allowing and using upright padding to protect players and reduce program liability. All play that is governed by National High School Federation rules now allows post padding. Only Bison manufactures goals that can maintain the official 24' width with or without upright padding. Bison DuraSkin for Soccer padding has virtually no negative impact on ball rebound. To assure safety and avoid unnecessary liability, NEVER purchase goals that do not meet ASTM F2056 safety standards.

### Convenience

It's always easiest to buy in complete, ready-to-play packages. This insures all components are compatible. Features like transport systems and built-in safety ballast on portable goals make goal movement easier and safer. Net attachment methods are not all the same. Avoid systems that have loose clips or Velcro straps that get lost and goals with protruding net attachment hardware that presents a safety issue. Most programs prefer goals with built-in net attachment tracks like Bison's QwikTrack.

### Durability/Warranty

When you invest in soccer goals, you want to be confident they will provide maintenance free service for many years. Aluminum goals have the advantage of a lifetime of rust free use. Some common aluminum goals, however, are prone to failure of welds where backstays attach to uprights. Big bulky goals get dragged across the field, putting stress on joints and resulting in the need for costly repairs. Bison's unique Torque Tested backstay attachment system, standard rear stabilizer bar and the inclusion of built-in transport and ballast systems on many goals allow Bison to offer an industry leading, **eight-year limited warranty** on 4" round and 4" square goals. Compare standard features and published warranties to get the most value for your investment.

**Purchasing through a local dealer is not only friendly to your local economy but improves your service when you need help.**

- Competition 24' x 8'**: U12 and up, high school, collegiate, international
- Club Plus 21' x 7'**: U10 - U12

FIVE POPULAR SIZES

# ShootOut™ No-Tip™ Portable Soccer Goals

**No Loose Ballast**    **No Ground Anchors**

**Easy to move and tip over safe at the same time...** Bison No-Tip Portable Soccer Goals help you sleep well at night • No-Tip Goals meet all ASTM F2056 standards for safety and performance without the use of loose ballast bags or undependable ground stakes that are often forgotten or improperly installed • Safety is the hallmark of these goals with extra backstay depth, radii on all square post corners and net attachment that has no hardware • Portable goals are meant to be truly portable so in addition to the No-Tip transport/ballast drums and lightweight aluminum post design, all Bison portable goals feature a unique Torque Tested backstay attachment design and rear backstay spreader bar that allows us to offer an industry leading **eight-year limited warranty** that includes typical failure of the vulnerable connection between uprights and the backstays • Available as 4" round or 4" square in three goal sizes, these goals meet or exceed all NCAA, National High School Federation, FIFA and ASTM F2056 standards and rules • Bison's popular QwikTrack net attachment system allows net clips to stay connected securely to the net when net is removed from goal • No loose fasteners, Velcro straps, welded hooks or screw-on net clips are necessary • Goals have an extra thick textured white powder coat finish and backstays are galvanized • Only Bison offers a post padding width compensating feature that allows the goal to maintain the designated opening width if your program chooses to protect players from injury with safety padding now allowed by National High School Federation rules • All ShootOut goals are sold in pairs • See charts below.

**No-Tip Packages** include goals with combination transport/ballast drums, competition white net, zippered net storage bag, rear horizontal stabilizer bars and QwikTrack net attachment kits. Customer supplies 250# of sand to fill ballast drums.

**Value Packages** include goals, auger style hold downs, rear stabilizer bar and QwikTrack net attachment kit (nets and No-Tip feature sold separately).

**8-YEAR Limited Warranty**

**US Patent #8,579,736**

See page 71 for No-Tip details on packages indicated.

## COMBINATION SOCCER/FOOTBALL/RUGBY GOALS

### ShootOut™ Combo Aluminum Football/Soccer/Rugby Goals

When soccer and football teams share space...Combo Goals are the answer • Constructed of weatherproof 4" square aluminum extrusions • Nets attach with popular Bison exclusive QwikTrack system • 4" square upright and crossbar extrusions have large corner radii for superior player safety and have a bright white, textured powder coated finish • Official 24' (w) x 8' (h) soccer goals and official 10' high football crossbar and 10' uprights that can be installed either at 23'4" high school width or 18'6" college width • Order FB10EXT-WT to extend uprights from 10' to 20' height • Uprights can also be installed at rugby width for added versatility • Choose in-ground permanent/semi permanent or portable (see details below) • Eight-year limited warranties • Sold in pairs but available individually.

#### SC2480IGAFB Permanent Semi Permanent Combo Goals

Install goals permanently in concrete footings or install using optional SC44S ground sleeves to allow easy removal...Order SC095N net separately for standard Combo Goals or order SC100N for goals with optional European backstayS. Approx. shipping weight: 500#/pair; Truck

#### SC02BSA Optional European 4' Backstays

Add 4' top backstay to any Bison in-ground aluminum soccer goal...White powder coated finish • Order one pair per goal. Approx. shipping weight: 20#/pair; Sm. Pkg.

#### SC2480PA44FB Portable Combo Goals Add the convenience of portability and built-in No-Tip ballast system to the versatility of Combo Goals...

Bison No-Tip system insures safety without the inconvenience of ballast bags, ground anchors or other anchor systems that are often forgotten, lost, discarded or ineffective • The rear ballasts double as transport wheels allowing movement on and off the field to improve space utilization. Note: Due to the added weight of the football crossbar and uprights, goal transport typically requires four people • Order SC100N nets separately. Approx. shipping weight: 750#/pair; Truck

#### SC44S Ground Sleeve

4" square, 24" deep sockets...Install in 8" diameter minimum x 30" deep concrete footing for easy removal of in-ground goals when not in use • Order two sleeves per goal (four per field). Approx. shipping weight: 5#/each; Sm. Pkg.

### Upright Extensions for Football Gooseneck Goalposts

**Increase the upright height from 20' to 30' on 5<sup>9</sup>/<sub>16</sub>" Gooseneck Goalposts or from 10' to 20' on Aluminum Combination Soccer/Football Goals with these 10' extensions...** Includes four 10' aluminum upright extenders and adapter hardware • Not recommended on 4½" gooseneck goalposts • Order one kit per field • Specify white or safety yellow • Contact your Bison Product Specialist for details.

Approx. shipping weight: 60#/kit; Truck

FB10EXT-SY **Safety Yellow Upright Extensions**

FB10EXT-WT **White Upright Extensions**

### FBRUGBY Official Rugby Goals

**Goals as tough as the players who play the game...**

Built to last • Heavy wall 3½" diameter galvanized steel uprights and crossbars • Uprights extend 27' above the playing surface and bury 3' into the ground for lasting installation in all climates • Crossbar spreads upright to official 18' 4" width • Height can be adjusted in the field to make installation easy and precise • Galvanized surface can be painted in the field if desired • Rain caps keep water out of upright posts • Goals meet all applicable rules • Sold in pairs. Approx. shipping weight: 1,000#/pair; Truck

## Goal Corner Post Safety Padding to **Protect** Soccer Players

Leave it to Bison to revolutionize soccer by developing player safety padding that insures the integrity of the game.

### National High School Federation 2004-2005 Soccer Rule Interpretation

**Rule 1-4-1:** The vertical portion of the goal post may be padded with commercially manufactured material for soccer goals. This material shall be white, have a maximum thickness of 1", be a minimum of 72" high and shall be properly secured. No markings other than a single manufacturer's identification/logo may appear on the goal post padding.

**FREE!**  
Zippered Storage Bag

## DuraSkin For Soccer Safety Padding

Finally, soccer padding that satisfies even soccer purists...DuraSkin soccer padding, available exclusively from Bison, is firm enough to have minimal impact on the rebound of the ball off the corner posts but resilient enough to provide player safety

- While other manufacturers offer padding that is bulky, soft, spongy and colored, DuraSkin For Soccer is bright white to match the goal so it is nearly invisible
- Since DuraSkin For Soccer is molded of the same material as Bison DuraSkin basketball backboard padding in a 5/8" thick cross section, it is durable even if left outside
- Available to fit all brands of 4" square, 2" x 4" and 4" round or elliptical soccer goals, steel or aluminum portable or semi-permanent
- Slips on with ease with no fasteners, straps or buckles
- Each post is covered to a height of 72" with a two-piece molded pad, each piece 36" long
- Pads are easy to remove, transport, store and attach
- Includes zippered storage and transport bag
- Padding carries a one-year limited warranty but will last for years with proper care
- **DuraSkin For Soccer is sold in kits, one kit protects one goal**
- **Order two kits per field**
- Meets National High School Federation Rule Interpretations 1-4-1.

Goal Style	Model to Order	Shipping Weight
4" Square	SC44PP	Approx. 20#/kit; Sm. Pkg.
4" Round or Elliptical	SC40PP	Approx. 15#/kit; Sm. Pkg.
2" x 4" Rectangular	SC24PP	Approx. 16#/kit; Sm. Pkg.

Fits all manufacturers' goals. Protects one goal per kit. Order two kits per field.

WARNING

For Technical Information Call 800-247-7668

WARNING

**ALL SOCCER GOALS**

- NEVER CLIMB OR HANG ON GOAL OR NET.
- REGULARLY CHECK ALL FASTENERS PRIOR TO USE.
- CLIMBING, HANGING, TIPPING OR OTHER NON-INTENDED USES OR FAILURE TO PROPERLY INSTALL GOALS CAN CAUSE SERIOUS INJURY OR DEATH.
- CONSIDER PADDING GOAL UPRIGHTS.

**PORTABLE SOCCER GOALS**

- ALWAYS ANCHOR GOALS ACCORDING TO INSTRUCTIONS.
- DO NOT STORE OR USE ON SLOPED GROUND.
- STORE PORTABLE GOALS TO AVOID UNAUTHORIZED USE.

THIS GOAL MEETS ALL SAFETY AND PERFORMANCE STANDARDS OF ASTM F2056.

### Free Replacement Warning Labels

For any soccer goal, even non-Bison...  
Call a Bison Customer Service Representative to order.

"As an involved soccer enthusiast, I, like most of my colleagues, have resisted efforts to pad soccer goals despite being aware of various goal contact related injuries. When an injury actually affected my goalie daughter, I changed my tune and began investigating padding solutions that had limited negative impact on the game. I'm convinced that Bison DuraSkin for Soccer is the perfect balance between player safety and the integrity of the game.

Isn't it time we provide soccer players at all levels the same protection from goal contact given football, volleyball and basketball players?"

**Dennis Andersen**  
West Palm Beach, Florida

## Youth/Practice Soccer Padding

Protect soccer players from contact with the corner posts with this vinyl covered foam pad...Compact 1" thick padding is 72" high

- Velcro attachment
- Sold in kits each to protect one goal
- Order two kits per field
- Meets National High School Federation Rule Interpretations 1-4-1.

### SC00PP For 4" Square and 2" x 4" Goals

Approx. shipping weight: 10#/kit; Sm. Pkg.

### SC01PP For 4" Round and Elliptical Goals

Approx. shipping weight: 10#/kit; Sm. Pkg.

## SCNOTIP No-Tip™ Retrofit Kit

**Take the worry out of soccer goal set up...** You'll never need ballast bags, ground stakes or complex anchoring systems again

- The molded polyethylene rear drums double as anti-tip ballast to meet ASTM F-2056 and easy rolling 12" wide transport wheels
- Bison No-Tip system is included as a standard feature on many of the ShootOut soccer goal packages found on pages 63-65 but can be added to all sizes of Bison's 4" square, 4" round and 2" x 4" Portable ShootOut goals
- Retrofit comes complete with all components required to add No-Tip to a pair of goals except 250# of customer supplied dry sand
- Installation takes less than 30 minutes
- Sold in pairs but can be ordered individually
- Five-year limited warranty. Approx. shipping weight: 50#; Small Pkg.

**U.S. Patent #8,579,736**

SCNOTIP

SC04WKU

During Transport

During Play

## SC04WKU Tip and Roll Wheel Kit

**Make portable aluminum goals truly portable...** Reduce stress and breakage caused by dragging goals across the field

- Flips forward for easy transport with maximum ground clearance
- Flips back and stores during play
- Fits any goal with 1 5/8" to 2" diameter backstays including all Bison value package aluminum portable goals
- Order **SC04WK** for wheel kit to fit specifically on Bison soccer goals that do not include wheel kits
- 10" wheels
- Set of four for two goals. Approx. shipping weight: 65#/set; Sm. Pkg.

## SC50B Ballast Bag

**Safety first...** Use in place of ground anchors on artificial turf fields or as preferred anchor method

- Requires two per goal
- Black vinyl bag with zippered sides
- Capacity for 70# of sand or gravel (customer provides).
- Approx. shipping weight: 8#/each; Sm. Pkg.

## SC34BI Ballast Inserts for Bison Portable Aluminum Soccer Goals

**For all Bison portable goals used indoors or on surfaces that do not permit installation of auger style ground anchors (SC04GA)...** Each ballast insert is 34" long, 1 7/16" solid steel and weighs 16#

- Installs hidden inside rear stabilizer bar
- Easy slide-in installation
- Use only when unable to use preferable ground anchors or No-Tip ballast system.
- Approx. shipping weight: 16#/each; Sm. Pkg.

Goal Width	# of Inserts to Order	Total Weight
24'	8 per goal	128#
21'	7 per goal	112#
18 1/2'	6 per goal	96#
12'	4 per goal	64#
9'	3 per goal	48#

## SC04GA

### Soccer Goal Ground Anchor Kit

**Auger type anchors designed for superior anchoring in soft or loose soils...** Proper use of two anchors per aluminum portable goal complies with all NCAA, National High School Federation and FIFA rules for anchoring portable goals

- These anchors are provided as a standard feature with all Bison aluminum portable goals
- **Bison does not provide straight ground stakes as we feel they are not sufficient ground anchoring in most soils**
- Sold in sets of four (use two per goal). Approx. shipping weight: 5#/set; Sm. Pkg.

## FBCPP Competition Goalpost Padding

**Super thick 5" foam covered with weatherproof vinyl in your choice of 16 school colors...** Velcro strap closures

- Protects players to a height of 72"
- Meets all NCAA and National High School Federation rules
- Designed to fit all goal posts to 5 9/16" diameter and 4" square. Approx. shipping weight: 18#/each; Sm. Pkg. Ships Oversize

## Custom Lettering and Logos for Bison Padding

**Show your school spirit with customized padding...** Almost any Bison vinyl padding surface can be lettered with up to 10 letters for one low price

- All lettering and logos will be sized and spaced by the Bison Art Department based on the size and shape of the padding and the number and style of letters or logo requested
- Order multiple ABC51, ABC52, ABC53 for application on multiple sides of padding
- Available only on Bison padding.

### ABC52 Standard One-Color Lettering

**Maximum of 10 letters...** Choose from letter styles A, B, C and D

- Must select from colors shown on page 102.

### ABC53 Second Color Letter Outline Option

Optional addition to letter styles A and B only

- Must select from colors shown on page 102.

### ABC51 Standard One-Color Logo

**Send a logo to Bison Art Department prior to placing order...** Artwork subject to pre-approval and hourly BNART artwork charges may apply

- Must select from colors shown on page 102
- 12" x 12" maximum size.

### ABC52 Letter Styles

This 30" x 48" sturdy fine mesh nylon bag will hold team equipment, balls or soccer nets...

Convenient top drawstring. Approx. shipping weight: 1#; Sm. Package.

## SC72NC Replacement Net Attachment Clips

Easy, weatherproof molded nylon clips specifically for use with Bison portable

aluminum goals...Slide in track on rear side of aluminum extrusions • Set of 72 • Provided standard with all Bison aluminum goals • Will attach nets to two goals of any size • For Bison goals only. Approx. shipping weight: 2#/set; Sm. Pkg.

## Practice Kicking Cage

**Kick until your leg is tired without ever chasing the ball...** Punters, place kickers or soccer players can practice in confined spaces, indoors or out • Sturdy 1" diameter, tubular, powder coated blue steel framework • Pop-together, push button assembly • Heavy mesh catch net • 6' high x 4' wide opening creates a big target • Folds flat for storage when not in use • One-year limited warranty.

### FB100KC Practice Kicking Cage with Net

Approx. shipping weight: 30#; Sm. Pkg.

### FB100N Replacement Kicking Cage Net

Approx. shipping weight: 2#; Sm. Pkg.

## FB04EM Weighted Football Goal Line End Markers

**Bright, safe and durable...** Bottom weighted end zone markers require no ground stakes or sockets to install, just place on end line • Weighted markers tip with the slightest player contact for maximum safety • Heavy florescent orange vinyl covered foam • Meets all NCAA and National High School Federation rules • Sold in sets of four • One-year limited warranty.

Approx. shipping weight: 11#; Sm. Pkg.

## FBWDS Wind Direction Streamers

**Official 4" wide x 42" long, weather resistant streamers...** Includes hardware to attach to 2<sup>3</sup>/<sub>8</sub>" diameter uprights without drilling • Durable orange outdoor flag material, double stitched • Can be used on other size uprights by drilling and bolting • Sold in sets of four. Approx. shipping weight: 2#; Sm. Pkg.

## FBCPPW Sport Pride™ Football Goalpost Padding Wrap

**Spruce up your field and strut your stuff...** Easy-to-install heavy vinyl graphic wraps are custom made to fit your existing goalpost pads or can be ordered at the same time as Bison FBCPP goalpost padding • Full color graphic printing options including Bison QwikPrint designs or almost any image and lettering • To order, specify padding height (Bison padding is 72"), measure around the circumference of the pad when on pole and provide design, colors and lettering • Consult the Bison Art Department for design options • Includes one hour of design time, additional design time is billed as BNART by the hour • Velcro attachment • **Includes convenient transport and storage bag** • Sold in pairs. Approx. shipping weight: 20#/pair; Sm. Pkg.

See inside front cover for details.

## LC300 Easy Goal™ Official Aluminum Lacrosse Goals

**Never sacrifice quality and durability for convenience...** Easy Goal has it all

- Meets all NCAA and National High School Federation rules for competitive play
- Special aluminum extrusions with Bison's exclusive Qwik Track net attachment system and push button knock down design make this goal easy to transport, set up or tear down in less than five minutes
- All components are rust-proof aluminum or stainless steel for a lifetime of weatherproof use
- Easy Goal comes complete with 6mm mesh net, Qwik Track net attachment clips, hold down stakes for natural turf, ballast bags for artificial turf fields and zippered transport bags
- Official 6' (h) x 6' (w) x 7' (d) opening
- Orange powder coated finish
- Sold in pairs
- Nets not returnable once opened
- Three-year limited warranty.

Approx. shipping weight: 75#/pair; Sm. Pkg.

Easy Pull Pin Disassembly

QwikTrack™ Easy and Dependable Net Attachment

Zippered Transport Bag

## LC200 Official Steel Competition Lacrosse Goals

**These goals meet all NCAA and National High School Federation rules for competition play...** Popular flat iron style base allows use indoors or outdoors on any surface • 1½" (1.9" O.D.) schedule 40 pipe framework has thick ground bars allowing sturdy ground staking or use of ballast bags to stabilize • Orange powder coated finish • Includes four ground anchors • 6' (h) x 6' (w) x 7' (d) opening • Sold in pairs • Nets included • Nets not returnable once opened • One-year limited warranty.

Approx. shipping weight: 145#/pair; Sm. Pkg.

## LC050N Official Lacrosse Nets

**Designed to fit Bison lacrosse goals but will fit most official lacrosse goals...** 6mm white knotless webbing • Sold in pairs • Sports nets are not returnable once opened unless determined to be defective.

Approx. shipping weight: 25#/pair; Sm. Pkg.

## HK500 Competition Ice Hockey Goal

**No need for cold feet when you choose Bison...** The game is rough, our goals are tough

- 2<sup>3</sup>/<sub>8</sub>" OD schedule 40 pipe form the official 72" (w) x 48" (h) x 34" (d) goal mouth for unsurpassed durability
- 100% welded construction
- 2" OD rear support structure
- Red powder coated finish
- Sold in pairs complete with HK050N nets, net attachment laces and **HK500P** padding set
- Nets not returnable once opened
- Five-year limited goal warranty.

Approx. shipping weight: 300#/pair; Truck

## HK500P Complete Padding Set

**For HK500 Ice Hockey Goals...** Included in HK500 above but can be ordered separately for replacement • Designed specifically to fit Bison hockey goals • Includes lower puck cushions, top shelf pad and necessary attachment components • One set for one goal, 2 required per rink.

Approx. shipping weight: 30#/each, Sm. Pkg.

## HK050N Ice Hockey Net

**6mm nylon construction...** Designed for a perfect fit on Bison's HK500 goals • Includes attachment laces • Sports nets are not returnable once opened unless determined to be defective. Approx. shipping weight: 30#/pair; Sm. Pkg.

## HK50U Qwik Release Urethane Locator Rods

Sold in sets of 4. Approx. shipping weight: 2#/set of 4; Sm. Pkg.

## FH200 Outdoor Field Hockey Goals

**Durable design for high level competition...**100% rustproof aluminum with premium black weatherproof 1/4" UHMW kick boards • White powder coated finish • Easy and dependable QwikTrack net attachment • Official size meets all USFHA and National High School Federation rules • Complete package includes two goals, two nets and net attachment kit • Nets not returnable once opened • Two-year limited warranty. Approx. shipping weight: 300#/pair; Truck

## FH200N Field Hockey Nets

**Meets all association rules for official goals...**12' (w) x 7' (h) x 4' (t) x 4' (b) square mesh with heavy braided corners and edges • Replacement net for FH200 and most other manufacturers' similar official field hockey goals • Includes two nets • **Sports nets are not returnable once opened unless determined to be defective** • One-year limited warranty. Approx. shipping weight: 15#/pair; Sm. Pkg.

## FH200WK Wheel Kit for Field Hockey Goals (not shown)

**Transport with ease...**Take your goals to and from the field • 10" diameter wheels mount permanently to the back of field hockey goal frames to increase convenience and reduce risk of player injury or goal damage • Some drilling of goal required for installation • Includes wheels and hardware for two goals. Approx. shipping weight: 40#/set; Sm. Pkg.

QwikTrack™ Easy and Dependable Net Attachment

## SCFUTSAL Official Futsal Goal

**A great goal for a great game...**2 meter (approximately 6'7") high and 3 meter (approximately 9'10") wide goal meets official rules • 100% aluminum construction with a durable white powder coated finish • 8cm square (approximately 3" x 3") aluminum extrusion uprights and crossbars have large corner radii for player safety and Bison's exclusive QwikTrack net mounting system • Standard rear horizontal stabilizer bar adds durability and stability • Complete package includes two goals with rear stabilizer bars, two nets, QwikTrack net clips, indoor rubber floor protectors and two ballast bags • Nets not returnable once opened • Two-year limited warranty. Approx. shipping weight: 175#/pair; Truck

8 cm Square Tubing

Net Attachment Clips

## SC03PP Futsal Safety Padding

**Protect futsal players from contact with the corner posts...**Vinyl-covered, 1/2" thick padding covers full 79" height of posts • Velcro attachment • Sold in kits to protect one goal • Order two kits per court.

Approx. shipping weight: 10#/kit; Sm. Pkg.

STFUTSAL Shown with Optional SC03PP Safety Padding

## Portable Bleachers

See page 36 for indoor bleachers.

BLO1503A

BLO1503A Shown with Optional BL15SEAT-SC Seat Planks

### Weatherbeater™ Outdoor Bleachers

**These outdoor bleachers are built for a lifetime of dependable, trouble-free sports seating...** Weatherbeater bleachers come with recycled plastic ground runners to keep hot dip galvanized steel framework raised from grass or dirt • Recycled runners will not rot like wood runners used by other manufacturers • Available in 7½', 15' or 21' lengths in either 3 or 4 tier heights • 2 tier bleachers are only available in 15' lengths • Heavy-duty 2" x 10" anodized aluminum seat and foot planks • Fully welded, hot dip galvanized steel structure • Planks have end caps for a finished look without sharp edges • High grade zinc plated hardware • **See bottom of page 77 for information on powder coated seat planks** • Five-year limited warranty on steel structure, two-year limited warranty on planks.

BLO1504AXL

### Weatherbeater™ Premium Outdoor Bleachers

**An extra measure of comfort and safety...** Same basic features as outlined above • The addition of an extra foot rest plank and heel kick panel not only improve safety but also provide comfort, child control and reduced dropped or lost loose objects like jackets, purses and backpacks • **Add color planks (see page 77) to customize your field** • Five-year limited warranty on steel structure, two-year limited warranty on planks.

#### Approximate Bleacher Dimensions

### Build Your Own Bleachers (or Benches)

**In this case, BYOB is not what you think...** It means more seating for less money • Bison provides the structure and the hardware • You provide the 2" x 10" x 16' lumber • The result is seating for your program with saving up to 30% • Bleacher structure has hot dipped galvanized finish and bench structures have silver/gray powder coated finish for outdoor durability • See Bison bleacher and bench description for other details • Available only in the bench and bleacher models listed below.

Model #	Description	Customer Supplied 2" x 10" x 16' Planks	Seating Capacity	Shipping Weight
BYOB161	16' Portable Player Bench with Back	2	10	Approx. 55# Truck
BYOB163	16' 3 Tier Outdoor Bleacher	5	30	Approx. 200# Truck
BYOB164	16' 4 Tier Outdoor Bleacher	7	40	Approx. 250# Truck

### WARNING!

The four tier Bison bleachers shown on this page meet some but not all codes established for bleachers by various agencies. Bison assumes no responsibility for customer selection of bleachers that do not meet local or statewide codes for guard rails, kickboards or other standards.

## BNP1500XL **Big B™** Portable Football Team Benches

BNP1500XL

**When your players are big...**Select **Big B** benches • Heavy-duty 2" square tubular steel structure supports even the heaviest loads • Double wide planks provide a 20" deep seat • Rear shelf is 10" wide and can be used for water bottles, trainer supplies or is sturdy enough to act as elevated player seating • Seat, seat back and rear shelf planks are extruded aluminum and available in your choice of clear anodized aluminum, royal, scarlet, black, white, navy or forest green powder coating • Steel structure is available in your choice of silver/gray, black or white powder coating • 2" molded rubber risers separate structure from wet turf to improve durability • All **Big B** benches are 15' long and covered by a **lifetime limited warranty**. Approx. shipping weight: 260#; Truck

BNP0401BC

## BNP0401BC School Color 4' Player Bench

**A popular choice, colorful and comfortable...**These 4' portable benches will seat 2 or 3 in style • Choose seat and backrest planks in any combination of clear anodized aluminum, royal, scarlet, black, white, navy or forest green with your choice of silver/gray, black or white powder coated legs at no additional charge • 2" x 10" x .08" aluminum seats and backs • All player bench structures are constructed of 2" square steel tubing and include rubber feet to allow indoor use without damaging floors and to keep legs from deteriorating in wet grass • Five-year limited warranty. Approx. shipping weight: 60#each; Sm. Pkg.

## Player Benches

**Benches are available as either in-ground fixed models or wide-base, freestanding portables...**Select benches with or without a backrest • Bison player benches have welded steel structural supports with a silver/gray powder coated finish and aluminum seats and backrests (where applicable) • 21' length for fourteen player capacity, 15' for ten players or 7½' for five players • Four 2" square supports on 21', three supports on 15' and two supports on 7½' • All steel parts have a silver/gray powder coated finish • 2" x 10" x .08" minimum cross section anodized aluminum seats and backs • Planks have end caps for a finished look without sharp edges • Fixed models require a 30" concrete footing to install in-ground for lasting, safe, weatherproof seating • Portable models are constructed to provide a nearly tip-proof bench to transfer from football field to soccer, baseball or softball fields as seasons change • Portable benches can be used with or without rubber feet provided, can be anchored to ground or can be bolted down to courtside surfaces • Five-year limited warranty on steel structure, two-year limited warranty on all seats and backs.

BNP1501BA

### Powder Coated Aluminum Planks

Show your school colors on Bison's 7½', 15' and 21' benches or bleachers...

Simply substitute your choice of royal, scarlet, navy, forest green, black or white planks for standard anodized aluminum seats that are included with Bison aluminum player benches, Weatherbeater bleachers and Easy Store bleachers • Choose any combination of colors for any quantity of seat planks • Each powder coated plank will incur an upcharge based on length • Order BL07SEAT1-XX for 7½' planks, BL15SEAT1-XX for 15' planks and BL21SEAT1-XX for 21' planks • Orders of 25 or more planks can be powder coated in a wider variety of colors (allow six weeks).

## Fixed Height Ultimate™ Series

**Try an Ultimate System on your most demanding outdoor court and you'll never need to buy another basketball system...** From the massive 6" square, 3/16" wall pole that buries a full 40" into the ground for incredible stability, to the tip of the Ultimate goal that carries an **unconditional lifetime warranty**, these systems are meant to take the abuse common on today's playgrounds • All fixed height Ultimate systems feature a full 60" setback for maximum player safety and offer optional backboard and pole padding • Order **BA870AXL** to upgrade from standard 60" to 72" extension on any system below at an additional cost • 42" x 60" boards are available in white powder coated steel or aluminum • 42" x 72" perforated or solid steel backboards give your court two more long-term Ultimate options • For the serious player, select an official size 42" x 72" backboard of clear tempered glass or clear unbreakable polycarbonate • Poles are available in black powder coating or hot dip galvanized for high humidity and coastal salt spray applications • Choose system with Ultimate goal covered by the unconditional lifetime warranty or popular outdoor breakaway goal • See chart below for the wide range of fixed height Ultimate systems to fit your facility's needs.

**LIFETIME Warranty**

See PR15 and PR17 Ultimate Jr.™ for similar features on a downsized system perfect for smaller budgets.

## Adjustable Height Ultimate™ Series

When outdoor playgrounds, camps or resorts demand durability, adjustability and playability – only Bison has a system with gymnasium quality features... The Ultimate Adjustable features a massive, 6" square, 3/16" wall post with a full 40" bury not found on comparable systems from other manufacturers • Deeper bury provides resistance to frost heave in cold climates and improves pole rigidity during aggressive slam dunk action • **Choose official size 42" x 72" clear backboard of tempered glass, bullet proof clear polycarbonate or 42" x 60" steel backboard** • Height adjusts between 7½' and 10' • Backboard is positioned 50" from the pole at official 10' goal height • Safe play area extends to 60" at 9', 64" at 8', for greater safety at lowered goal height when it is most needed during slam dunk action • The "off-glass" goal mounting eliminates 98% of stress from player contact with the rim • Goal height is easily adjusted from the playing surface using a hand crank with features similar to Bison's gymnasium goal height adjusters • Adjustment mechanism features an enclosed stainless steel lead screw crank • All steel components have a black powder coated or a zinc plated finish • Bison BA33U double-rim flex goal • Entire system, including goal, has a **lifetime limited functional warranty** regardless of backboard option selected.

## Twin Mega-Duty Packages

If a single mega-duty 5<sup>9</sup>/<sub>16</sub>" pole is mega duty, imagine the performance you'll get from Twin Mega-Duty playground basketball systems... With the addition of a Bison official size 42" x 72" competition glass backboard and breakaway goal, you'll have a system that will match or even exceed the playability of any indoor competition system in the industry • Optional features include FBCPP post safety padding and BA72U-BK backboard padding • Great system for camps, parks or school grounds where gymnasium-like features are desired for their outdoor facilities • Choose from 72" safe play area or extended 96" safe play area.

### PR99 Package

**on BA780T Twin Gooseneck Pole** BA42XL Backboard - Competition grade ½" tempered glass with bright white, fire impregnated shooter's square and border • Official 42" x 72" size • 72" safe play area • Heavy-duty outdoor flex goal has no contact with the backboard • Heavy aluminum extrusion and steel framework • **Lifetime limited warranty.** Approx. shipping weight: 785#; Truck

### PR99XL Package

**on BA780TXL Twin Gooseneck Pole** Same system as PR99 except Twin Gooseneck pole system has 96" of safe play area instead of 72" for even greater safety during aggressive, high speed play. Approx. shipping weight: 865#; Truck

## Extended Mega-Duty Packages

### on BA780XL Pole with 96" Safe Play Area

5<sup>9</sup>/<sub>16</sub>" O.D. pole rigidity now with 8' safe play area...  96" safe play area. **Lifetime Limited Warranty**

**BA780XL Gooseneck 8' Extended** Approx. shipping weight: 320#; Truck

**Note: To order a BA472 backboard for use on any 59/16" diameter pole substitute BA777-HL to insure proper backboard brace length.**

### Goals Shown Fit Backboards and Poles on These Two Pages

### BA77XBR Backboard Braces Only

These braces will increase the rigidity of other manufacturers' lower-quality gooseneck pole systems... Set of 1 5/8" diameter x 36" long, galvanized braces • Formed and punched ends for easy mounting • Includes pole mounting bands for 3 1/2" and 4 1/2" poles and hardware to mount to pole and backboard.

Approx. shipping weight: 13#; Sm. Pkg.

### BA77OSSH Stainless Steel Hardware

Complete kit of stainless steel hardware... Order this kit to substitute stainless steel fasteners on any Bison gooseneck pole system.

Approx. shipping weight: 3#; Sm. Pkg.

### Double-Sided Adjustable Pole Systems

Get more play for the money... Single pole, double fun • Playgrounds, parking lots, tennis courts or any hard surfaced play area can turn into a versatile basketball court with maximum play potential • With a single pole installation, you can provide safe play for two pickup games at once • Available in 3 1/2" diameter x 36" extension (BA776DB), 4 1/2" diameter x 48" extension (BA778DB) and 59/16" diameter x 72" extension (BA781DB) • Order backboards, goals and post padding separately • All major components are galvanized for maximum weather resistance • Order **FBCPP** for 360° pole contact safety. See shipping weights and warranties above.

**Double-Sided Adjustable Shown with Optional FBCPP-BK Pole Padding**

## BA495 Fan-Shaped Dura Steel™ Backboard

**Steel and lots of it highlight this 39" x 54" official size steel backboard...**

Superior front mount design • 12 ga. skin • 5" x 5" hole pattern • White powder coated finish • Heavy-duty mounting support structure • Standard 20" x 35" fan-type backboard mounting holes • Heaviest backboard of its type • Official orange border and shooter's square • Ten-year limited warranty.

Approx. shipping weight: 100#; Truck

**Note: Order BA495E for economy version of this backboard with a 90-day limited warranty.** Similar to BA495 but with lighter rear structure and without orange shooter's square.

## BA47 Ultimate™ Rectangular Steel Backboard

**Our most popular rectangular playground backboard...42" x 60" playing surface** • Standard 20" x 35" mounting brackets allow easy attachment to any current fan-shaped ceiling or wall mounting structure • All edges safety rolled to eliminate sharp edges, increase strength and rigidity • Excellent rebound • Regulation orange shooter's square • Durable white powder coated finish • Heavy-duty 12 ga. skin • 7 ga. steel support structure • 5" x 5" goal mounting hole pattern • Designed for Bison Ultimate pole structures, but will also fit most manufacturers' outdoor pole systems • Ten-year limited warranty • Lifetime limited warranty when included on a Bison Ultimate system.

Approx. shipping weight: 145#; Truck

## BA472PC Perforated 72" Official Size Steel Backboard

**Popular style preferred for use by many inner city playgrounds...**

No painted-on shooter's square or border to wear off • Official 42" x 72" size • All edges on the 12 ga. skin are triple bent to eliminate sharp edges and improve rigidity and durability • Heavy tubular frame is mounted to the rear for excellent playability not found on some steel backboards • White powder coated finish • 5" x 4" goal mounting pattern • Check drawing before purchasing to mount on existing pole structures • 10-year limited warranty. Approx. shipping weight: 160#; Truck

## BA472 Ultimate™ Official Size Rectangular Steel Backboard

**Our most popular steel backboard is now available in official 42" x 72" size...**

All edges safety rolled to eliminate sharp edges, increase strength and rigidity • Excellent rebound • Regulation orange shooter's square • Durable white powder coated finish • Heavy-duty 12 ga. skin • 7 ga. steel support structure • 5" x 4" goal mounting hole pattern • Designed for Bison Ultimate pole structures, but will also fit Bison's 5 9/16" gooseneck and most manufacturers' outdoor pole systems • Ten-year limited warranty • Lifetime limited warranty when included on a Bison Ultimate system. Approx. shipping weight: 160#; Truck

## BA454 Perpetual™ Steel Backboard

**Perforated shooter's square provides a permanent target that won't deteriorate...**

39" x 54" rectangular backboard • 12 ga. carbon steel skin • White powder coated finish • 5" x 5" goal mounting pattern • Ten-year limited warranty. Approx. shipping weight: 110#; Truck

## BA485 Ruff Play™ Rear Mount Steel Backboard

**Replace your bent and rusty rear mount backboards...**

Popular rear mount goal design • Same 20" x 35" mounting structure as all rear mount backboards • 12 ga. skin • Universal goal mounting hole pattern • Recommended for replacement use only • New installations should use BA495 front mount board for maximum fan-steel durability • Extra heavy support structure • White powder coated finish • Official 35" x 54" size • Not compatible with any Bison outdoor pole systems • Five-year limited warranty • Ten-year limited warranty if used with BA31U. Approx. shipping weight: 90#; Truck

**Note: Order BA485E for economy version of this backboard with a 90-day limited warranty.**

### WARNING!

All backboard warranties are invalid when not mounted properly on pole systems or structure with direct rim mount supports.

## BA475SS Lifeguard™ White Aluminum Backboard With Shooter's Square

Official shooter's square and orange border on cast aluminum...Same durable, rust-free backboard as BA475 • White powder coated finish • 5" x 5" goal mounting hole pattern • 35 1/2" x 54" • Heavy support ribs • Requires direct mount pole system • **Lifetime limited warranty.** Approx. shipping weight: 55#; Truck

See Page 19 for BA465 Fiberglass Fan Backboard

## BA475W Lifeguard™ White Aluminum Backboard

Cast aluminum with white powder coated finish...Same backboard as BA475SS above except solid white, no orange graphics • **Lifetime limited warranty.**

Approx. shipping weight: 55#; Truck

## BA475 Lifeguard™ Cast Aluminum Backboard

Unpainted cast aluminum backboard for a lifetime of use without deterioration...35 1/2" x 54" • No rust, even in the wettest climates • Heavy ribbing for maximum rigidity • 5" x 5" goal mounting hole pattern • Requires direct mount pole system • "As Cast" finish will vary • **Lifetime limited warranty.**

Approx. shipping weight: 55#; Truck

## BA454AW Perpetual™ White Aluminum Backboard

Perforated shooter's square provides a visible target without the deterioration of screened shooter's squares...39" x 54" rectangular backboard with 1/8" thick aluminum skin • White powder coated finish • 5" x 5" goal mounting pattern • **Unconditional lifetime warranty.** Approx. shipping weight: 55#; Truck

## BA407U Unbreakable Polycarbonate Backboard

This backboard repels vandalism...Clear, 1/2" thick polycarbonate material is virtually bulletproof • Top quality appearance for outdoor systems • Extruded aluminum framework is identical to that used on our premium competition glass backboards • Powder coated steel structure absorbs stress of player contact with the goal • 42" x 54" with white shooter's square and border • **Lifetime limited warranty.** Approx. shipping weight: 130#; Truck

See Page 19 for BA407G Glass 42" x 54" Backboard

## BA42UC Unbreakable 72" Official Size Polycarbonate Backboard

Clear, full sized yet bulletproof...72" x 42" clear polycarbonate is a full 1/2" thick and supported by a heavy-duty aluminum frame and steel rear support structure • Looks exactly like a competition glass backboard with white shooter's square and border • Steel components have a durable powder coated finish • 5" x 4" goal mounting pattern • Check drawing before purchasing to mount on existing pole structures • **Lifetime limited warranty.** Approx. shipping weight: 230#; Truck

## BA495P Rust-Free Polyethylene Fan-Shaped Backboard

Never worry about rusty backboards again...39" x 54" x 1" thick polyethylene back-board • Impervious to coastal salt spray • Bright white front and back molded around orange core • Shooter's square has been machined into face to provide a permanent target not available on other poly backboards • 5" x 5" goal mounting hole pattern • Requires direct mount pole system • **Lifetime limited warranty.**

## v BA39U **Ultimate™** Front Mount Playground Goal

The first and still the **ONLY** unconditional lifetime replacement warranty on a basketball goal!

**Unconditional Lifetime Replacement Warranty**

**The Ultimate goal for tough playgrounds...**  
 Double, 5/8", solid rim design • 3/16" x 1" no-fail netlock adds to strength of goal and eliminates netlock breakage • 3/16" thick "box" design backplate and rim supports • Traditional orange BA39U has a durable, baked powder coated finish • **Order BA39U-GV for a hot dip galvanized Coastal Ultimate goal** • Includes high tensile strength mounting hardware and premium nylon net • **Unconditional lifetime replacement warranty.**

Approx. shipping weight: 27# each; Sm. Pkg.

BA39U-GV

BA39U fits backboards with any of these hole patterns.

Hole pattern for BA33U, BA32, BA37N, BA37, BA27A and BA27.

See page 103 for hole pattern specifications.

### BA33U Double-Rim, Heavy-Duty Flex Goal

**The industry's first double-rim flex goal...**Low maintenance design can be used indoors or outdoors • 5/8" solid steel rings supported by 3/16" x 1 1/2" rim support • 15° of deflection, auto return • **Universal backplate** • No-fail netlock system for chain, nylon or web nets • The best of breakaway and double-rim goal designs • Includes mounting hardware and nylon net • One-year limited warranty. Approx. shipping weight: 29# each; Sm. Pkg.

### BA32 Heavy-Duty Side Court and Recreational Flex Goal

**The only affordable flex goal built to take the abuse of playground, gym or home use...**Simple, low-maintenance design can be used indoors or outdoors • 5/8" steel rim supported by 3/16" x 1 1/2" support • 15° deflection, auto return • Durable, orange, baked powder coated finish • Not approved for interscholastic high school or collegiate play • **Universal backplate** • Includes mounting hardware and nylon net • One-year limited warranty. Approx. shipping weight: 22# each; Sm. Pkg.

### BA37N Front Mount Double-Rim Goal with No-Tie Netlocks

**Super strong, super goal...**Double 5/8" steel ring for extra durability • Twelve no-tie netlocks to accept nylon net • 3/16" thick **universal backplate** • Packaged two goals per carton • Includes mounting hardware and nylon net • One-year limited warranty. Approx. shipping weight: 36#/pair; Sm. Pkg.

### BA37 Front Mount Double-Rim Goal

**Double rim for durability, two rim support braces for added strength...**3/16" steel **universal backplate** fits all front mount boards • Bottom ring is 1/2" diameter and formed to accept either BA53 chain net (included) or BA50 premium steel net (optional) • Packaged two goals per carton • Includes mounting hardware • One-year limited warranty. Approx. shipping weight: 36#/pair; Sm. Pkg.

### BA28 Magnum™ Heavy-Duty Playground Goal

**Maximum strength for Magnum force...**Goal has extra thick 3/4" diameter ring, 5/16" thick universal backplate and 5/8" rim support • Continuous netlocks • Fits all front mount backboards • Ideal for courts where conditions call for maximum strength but a double rim is not desired • Packaged two goals per carton • Does not meet NCAA or high school standards for competition • Includes mounting hardware and nylon net • Two-year limited warranty. Approx. shipping weight: 42#/pair; Sm. Pkg.

### BA27A Front Mount Super Goal

**Excellent upgrade from standard front mount goals at lower cost than double rim or breakaway goals...**Full 5/8" computer designed reinforcing bar gives "super support" when player suspends from goal • Additional 5/8" brace at the vulnerable joint between rim and backplate • Continuous netlocks • 1/4" thick steel **universal backplate** • Durable, baked powder coated finish • Packaged two goals per carton • Includes mounting hardware and nylon net • Two-year limited warranty. Approx. shipping weight: 34#/pair; Sm. Pkg.

### BA27 Standard Front Mount Competition Goal

**Universal backplate of 3/16" steel for mounting to virtually all boards, institutional and home...**1/2" reinforcing bar, computer engineered for maximum support • Continuous netlocks • High-penetration continuous welded joints • Durable, powder coated finish • Packaged two goals per carton • Includes mounting hardware and nylon net • One-year limited warranty. Approx. shipping weight: 25#/pair; Sm. Pkg.

Hole patterns for BA28.

## BA31U **Ultimate™** Rear Mount Playground Goal

The only rear mount goal with an unconditional lifetime replacement warranty!

Double  $\frac{5}{8}$ " High Tensile Steel Rim

Includes Rear Mount Backboard Protector Angle

Durable, Powder Coated Finish

Heavy Steel Rim Support

Continuous, No-Fail Netlock System

Optional BA50 Premium Chain Net

**Unconditional Lifetime Replacement Warranty**

Same high-strength, double  $\frac{5}{8}$ " solid rim design as BA39U front mount goal...No-fail netlocks

- Will accept chain, nylon or web nets
- Universal rear mount hole pattern
- Includes unique backboard protector angle to protect vulnerable rear mount backboards
- To use this option, drill holes through the backboard and pass bolts provided completely through the goal and backboard to double the backboard strength (see inset)
- Protector angle will not interfere with play
- Packaged individually
- Includes mounting hardware and nylon net
- Shown with optional BA50 premium chain net
- **Unconditional lifetime replacement warranty.** Approx. shipping weight: 34# each; Sm. Pkg.

Rear Mount goals are recommended for replacement only. Rear mount goals are not compatible with any Bison pole systems.

## BA32RXT **FlexCourt™** Rear Mount Flex Goal

Ideal for outdoor playgrounds or indoor courts with rear mount fan-shaped steel backboards...Same heavy-duty design as Bison BA32 front mount flex goal

- Double steel die spring action
- Built to absorb stress from aggressive action around the rim
- Helps protect vulnerable steel backboards from damage
- **Universal backplate** mounts to all rear mount backboards
- Official  $\frac{5}{8}$ " diameter ring
- Heavy  $\frac{3}{16}$ " thick rim support
- Includes mounting hardware and nylon net
- One-year limited warranty. Approx. shipping weight: 20# each; Sm. Pkg.

## BA31N Rear Mount Double-Rim Goal with No-Tie Netlocks

Double  $\frac{5}{8}$ " rim for extra durability in unsupervised applications...Universal backplate mounts to all rear mount backboards

- Baked powder coated finish
- Packaged two goals per carton
- Includes mounting hardware and nylon net
- One-year limited warranty.

Approx. shipping weight: 46#/pair; Sm. Pkg.

## BA21A Rear Mount Super Goal

Stronger than other manufacturers' standard rear mount goals... $\frac{1}{4}$ " continuous welded support ring for over half of the rim circumference

- Continuous netlocks
- Additional bracing at the backplate joint gives greater strength when player suspends from goal
- $\frac{3}{16}$ " **Universal backplate** mounts to all rear mount backboards
- Durable powder coated finish
- Packaged two goals per carton
- Includes mounting hardware and nylon net
- Two-year limited warranty.

Approx. shipping weight: 38#/pair; Sm. Pkg.

## BA21 Standard Rear Mount Competition Goal

Replace bent and broken goals on any brand of rear mount backboard...Heavy-duty  $\frac{3}{16}$ " welded backplate assembly

- $\frac{3}{16}$ " support ring for over  $\frac{1}{2}$  of the rim circumference
- Continuous netlocks
- **Universal backplate** mounts to all rear mount backboards
- Durable powder coated finish
- Packaged two goals per carton
- Includes mounting hardware and nylon net
- One-year limited warranty. Approx. shipping weight: 38#/pair; Sm. Pkg.

**Rear mount goals are recommended for replacement only. Rear mount goals are not compatible with any Bison pole systems.**

## BA50 Premium Steel Playground Safety Net

This chain net will virtually eliminate the risk of loose and dangling chain links found on other chain nets...All links are welded into closed loops to eliminate separation caused when chains are stretched during play • Extra heavy-duty "S" hooks are used for attachment to any style or make of goal • Zinc plated and three times heavier than normal chain nets • Two-year limited warranty. Approx. shipping weight: 3#; Sm. Pkg.

## BA53 Standard Chain Net

Heavier than most other manufacturer's chain playground nets...Outperforms common nylon nets • The heavy-duty "S" hooks attach to any style of goal • This is the standard net provided with Bison BA37 goal • Zinc plating provides protection from the weather.

Approx. shipping weight: 2#; Sm. Pkg.

## BA51H Anti-Whip Net

Order BA51H-PK for a pink net.

Competition grade, affordable price...Heavy braided nylon to reduce net whip common with lighter weight nets • Bright white • Use for competition or as upgrade to normal residential or playground string nets. Approx. shipping weight: 1#; Sm. Pkg.

## BA501H Standard Competition Net

(not shown)

Heavier than nets generally supplied with goals...Braided nylon • Bright white • Excellent value. Approx. shipping weight: 2#; Sm. Pkg.

## BA52H Economy Basketball Net

(not shown)

Weather-resistant nylon net will fit on any style goal...Our most affordable net.

Approx. shipping weight: 1#; Sm. Pkg.

## BA56W Weld-On Repair Netlocks

A must for every park and recreation maintenance department...Low cost standard netlocks can be welded on in the shop • 12 per package. Approx. shipping weight: 1#; Sm. Pkg.

## BA10 Replacement Shooter's Square

Ready-to-apply, official size, vinyl shooter's square will renew the look of your painted steel, wood or fiberglass backboards...Applies easily without messy adhesive or paint • Makes backboards good as new • Same heavy-duty, self-adhesive vinyl used for exterior automotive detailing • Installs in five minutes • Instructions and applicator included.

Approx. shipping weight: 1#; Sm. Pkg.

## CM100 Court Marking Kit

Single use stencil kit makes marking the free throw lane and three-point line easy...Improves the value of driveway practice for players who play competitively • Kit includes 2 cans of CM111 high quality, specially formulated court marker paint • Order CM100S for Court Marking Stencil without paint.

Approx. shipping weight: 8#; Sm. Pkg. No Air Shipments

CM100

## CM200 Three-Point Reusable Steel Court Stencil

No more flimsy paper or plastic stencils that tear or blow in the wind...Easy-to-use stencil kit marks court after court with sharp straight lines • Minor cleaning of paint build up will allow stencils to last virtually forever • Kit includes 20 ga. steel stencils to paint 1½" wide base line, lane, free-throw line, top of key and official high school three-point line • Requires 2 to 3 cans of Bison CM111 Court Marking Spray Paint or similar product for each complete court • Stencil kit is ideal for park departments, school district maintenance departments, playground installation crews or anyone wanting a quality outdoor basketball court. Approx. shipping weight: 55#; Sm. Pkg.

## CM111 Court Marker Paint

Specially formulated, white spray paint is designed to last...Easy-spray nozzle • 18 oz. can • Requires 2 to 3 cans per complete court • Order CM111CS for 12 can case quantity. Approx. shipping weight: 1#; Sm. Pkg. No Air Shipments

## Urban Prairie™ Outdoor Furnishings

You've long valued the quality, safety and customer service that have made Bison a leader in the sports equipment industry. Bison now offers a premium lineup of landscape site furnishings to satisfy park and recreation, municipal and commercial development needs. All Bison site furnishings feature 100% welded designs that carry a limited lifetime structural warranty. All benches and litter receptacles are available in either black or forest green two layer powder coated finish with 10-year warranty. Bike storage pods are also available with a hot dip galvanized finish.

Our lineup includes both customized and in-stock standard benches, trash, recycling and planter receptacles, tables and chairs and bike security pods. When you choose Bison landscape site furnishings, you can be assured that you'll be getting the very best products available in the market today.

SFB201

### SFB201 Customized 72" Urban Prairie™ Straight Backed Bench

**Your facility is special...** Make sure your site furnished benches are special too

- These 72" benches can be laser cut with lettering or logos to give your landscape that something extra
- 100% welded steel construction with solid 1" square legs and arm rest assembly ends
- One-piece laser cut seat and back are a full 10 ga. (.134") thick with comfortable ergonomic curves
- Bolt to pavement or leave freestanding. Approx. shipping weight: 300#/each; Truck

Logo Option

SFC200

### SFC200 Customized Urban Prairie™ Individual Seating

**Every seat is a special seat...** When you add lettering or logos to our durable and comfortable outdoor chairs

- 100% welded for lasting durability
- 10 ga. (.134") seat and back, 3/4" square tubular legs and arm rests
- Lifetime limited structural warranty, 10-year limited finish warranty. Approx. shipping weight: 50#/each; Truck

### SFB202 Customized 72" Urban Prairie™ Backless Bench

**Want seating access from either side of a bench?...** This is the bench for you

- The 18" wide seat surface allows addition of lettering or logos to highlight your city, commercial development, zoo or other outdoor landscape space
- Legs and arm rests are constructed of 1" solid steel bar and are 100% welded to the 10 ga. (.134") laser cut and formed seat allowing us to offer a lifetime limited structural warranty
- 10-year finish warranty. Approx. shipping weight: 225#/each; Truck

SFB202

SFB101

## SFC100 Urban Prairie™ Individual Seating

**Outdoor time is meant to be enjoyed...**

Enjoy it more with the comfort of Urban Prairie seating • Entire chair is welded prior to powder coating for maximum durability including a lifetime limited structural warranty • Generous and comfortable 19" seat width, ergonomic arm rests and contoured seat and back rest make Urban Prairie seating a great choice •  $\frac{3}{4}$ " square tubular legs and  $\frac{1}{8}$ " thick x  $1\frac{1}{2}$ " wide steel slat chair back and seats.

Approx. shipping weight: 50#/each; Truck

SFC100

## SFB101 72" Urban Prairie™ Straight Backed Bench

**Traditional park and streetscape design and superior durability...** Our most popular public seating option • 100% welded steel construction so there is no hardware to loosen over time • Contoured vertical  $\frac{1}{4}$ " thick,  $1\frac{1}{2}$ " wide slats are as comfortable as they are durable • Leg assemblies are 1" square solid steel with built-in arm and foot rests that allow portable or bolt down use • Superior construction allows us to offer an unheard of lifetime limited structural warranty. Approx. shipping weight: 250#/each; Truck

SFT100 Shown with SFC100 Chairs (sold separately)

## SFT100 Urban Prairie™ Group Table

**Meeting friends, sharing food, drink and conversation or just enjoying the great outdoors are all enhanced with the right site furnishings...** Sturdy, comfortable and landscape compatible features make these tables a great choice • 42" round top and freestanding pedestal base seats 4 or 5 comfortably • Unique tubular table top edge treatment adds safety and comfort • Easy base adjustment design eliminates table wobble common when tables are placed on uneven outdoor or indoor poured concrete or brick surfaces • Table is one-piece, 100% welded assembly • Order chairs separately. Approx. shipping weight: 475#/each; Truck

## SFB102 72" Urban Prairie™ Backless Bench

**Simple, unobtrusive and highly functional with a touch of class...** Urban Prairie backless benches are the perfect solution for many city landscape projects • The 1" solid steel bar ends include integrated arm rests • Comfortable 18" wide seat area can be used equally from either side allowing maximum flexibility and site space efficiency •  $\frac{1}{4}$ " x  $1\frac{1}{2}$ " slats are edge rolled and welded to  $1\frac{5}{16}$ " diameter steel tubing for a finished look and elimination of sharp edges that snag clothes or scratch legs on cheaper benches that often look similar • Permanently mounts to hard surface or leave portable if desired • Limited lifetime structural warranty. Approx. shipping weight: 200#/each; Truck

SFB102

SFB106 shown with Optional Center Arm Rest

## SFB106 72" Arched Back Memorial Bench

**Honor a friend, family member or a donor with a park bench that exemplifies your appreciation...** Classic cast steel ends and sweeping lines will enhance any landscape in parks, zoos, museums, college campuses or anywhere people gather and relax • Fully welded construction means no assembly or wobbly and loose hardware • Every edge, every corner, every weld is smooth and clean to eliminate problems common with cheaper benches • Compare our 1/4" thick x 1 1/2" wide vertical slat design with lesser quality benches that often use only 3/16" or even 1/8" thick seat slats • Seat surface is ergonomically contoured for comfort not often found on outdoor steel benches • Includes plaque • Optional no cost center armrest, must be requested at time of order • Mount permanently to pavement or leave portable for maximum site flexibility.

Approx. shipping weight: 325#/each; Truck

SFR245

## SFR245 Customized Urban Prairie™ Recycling Collector

**Go green...** With these bright blue recycling receptacles • 36 gallon capacity • Laser cut top with recycling logo to insure recycling only use • Work with our sales department to include lettering or logos to build pride in your city, park, zoo, campus or commercial development • 3/16" laser cut outer drum • 100% welded construction is powder coated with recycling blue, 10-year limited finish warranty • Rigid poly liner included • 24" diameter x 38" high.

Approx. shipping weight: 375#/each; Truck

## SFR145F Urban Prairie™ Recycling Collector

**Universally popular...** Ready to ship • Same features as SFR245 except does not include custom lettering and logo options • Same durability, warranties, size and recycling blue finish.

Approx. shipping weight: 375#/each; Truck

SFR145

SFR060

## SFR060 Urban Prairie™ Pole Mounted Planter

**Make your sidewalks and streets bloom...** With Bison pole mounted planters • Same vertical slat design as SFR050 except 16" tall, perfect for flowering plants • Includes perforated planter liner.

Approx. shipping weight: 30#/each; Sm. Pkg.

## SFR250 Customized Urban Prairie™ Pole Mounted Litter Collector

**Keep your streets litter free...** With a litter receptacle on every light pole • Approximately 10-gallon capacity, these compact litter receptacles have plenty of room to add lettering or logos to compliment your park or cityscape • Pole mounted receptacles are easy to empty with rigid plastic removable liners • Approximately 12" diameter and 24" high • Customer supplies pole mounting band clamps.

Approx. shipping weight: 40#/each; Sm. Pkg.

## SFR050 Urban Prairie™ Pole Mounted Litter Collector

**Fits any landscape or streetscape design...** Popular vertical slat design • Same design features as its customized cousin above.

Approx. shipping weight: 40#/each; Sm. Pkg.

SFR250

SFR050

SFR236D

SFR236F

SFR136F

SFR136D

SFR140F

SFR140D

## SFR236D Customized Urban Prairie™ Domed Litter Collector

**Collect litter with style...** Use lettered containers or add a logo • 36 gallon capacity, 100% welded,  $\frac{3}{16}$ " rolled steel design • Dome top to reduce rain, snow and unwanted trash • Includes rigid polyethylene liner, 24" diameter and 38" high. Approx. shipping weight 300#/each; Truck

## SFR236F Customized Urban Prairie™ Flat Top Litter Collector

**Easy access...** Increases litter collection • Same feature as SFR236D except top has flat design instead of dome. Approx. shipping weight: 300#/each; Truck

## SFR136F Urban Prairie™ Flat Top Litter Collector

**Popular contemporary design meets function...** The perfect balance for many projects •  $\frac{3}{16}$ " laser cut rolled exterior with 100% welded bottom and top support structure • 36 gallon capacity poly liner (included) • Can be permanently bolted to a hard surface or used as a movable freestanding collector • Lifetime limited warranty on structure • 24" diameter and 38" high. Approx. shipping weight: 300#/each; Truck

## SFR136D Urban Prairie™ Domed Litter Collector

**Great look, long life and a raised dome...** A great combination • Same as SFR136F above but with added dome feature • Lifetime limited warranty on structure • Bolt to flat surface or allows flexible freestanding use • Includes heavy 36 gallon poly liner. Approx. shipping weight: 300#/each; Truck

## SFR140F Urban Prairie™ Flared Flat Top Litter Collector

**Keep parks, sidewalks, ball fields and other public gathering places litter free...** And do it in style • Attractive tapered top design catches and holds more litter • Vertical slat design is the perfect complement to our vertical slat benches and will enhance any landscape, streetscape or park • 100% welded  $\frac{5}{16}$ " thick x  $1\frac{1}{2}$ " wide slats with additional heavy steel support structure • Removable flat lid design allows easy top emptying of the 40 gallon,  $\frac{3}{16}$ " thick poly liner drum (included) • Approximately 28" diameter and 40" tall • Can be permanently mounted or used freestanding. Approx. shipping weight: 275#/each; Truck

## SFR140D Urban Prairie™ Flared Domed Litter Collector

**Same great litter collector as SFR140F...** With the added feature of a raised covered top • 40 gallon capacity poly liner • 28" diameter, 46" high • Top loading and unloading. Approx. shipping weight: 275#/each; Truck

SFK307

## SFK307 High-Low™ 7-Bike Storage Pod

**Maximum capacity - minimum space...** Attractive and durable 2<sup>3</sup>/<sub>8</sub>" diameter bent pipe design holds up to 7 bicycles • 100% welded construction with lifetime limited structural warranty • Surface mount allows retrofit on concrete sidewalks, parking lots or medians • Choose hot dip galvanized or textured powder coated finish • Base mounting hardware not included. Approx. shipping weight: 80#/each; Truck

SFK102 (three shown)

## SFK102 Inverted U™ 2-Bike Storage Pod

**Mount individually...** Or mount in groups for maximum flexibility • Fits well in tight spaces or low bike traffic areas but are also used in any quantity and configuration • 2<sup>3</sup>/<sub>8</sub>" diameter heavy steel pipe with welded base plates • Inverted U pods are available either hot dip galvanized or with a textured powder coated finish • Lifetime limited structural warranty. Approx. shipping weight: 35#/each; Sm. Pkg.

SFK202

## SFK202 Post Style 2-Bike Storage Pod

**Small area...No problem** with post style bike pods • Each 4<sup>1</sup>/<sub>2</sub>" diameter steel post has two bike attachment rings • 100% welded construction with top cap and heavy surface mount plate • Order **SFK203** for the same item designed to be permanently embedded in concrete instead of surface mounted • Mounting hardware not included • Mount individually, in rows or groupings • Your choice of a textured powder coat finish or a hot dip galvanized finish.

Approx. shipping weight: 40#/each; Sm. Pkg.

## BA9001 The Patriot™ Flag Pole

**Display your American patriotism or fly your school or state flag on this commercial quality tapered brushed aluminum pole...**

5" diameter at base and rises 25' high allowing attractive flying of the 4' x 6' American flag included in the package • Pole easily mounts to the 36" deep foundation with four 1/2" J bolts that can be used for perfect leveling • System includes external rope lanyard and hardware, in-ground base components and flag.

Approx. shipping weight: 250#; Truck

## BA9000F 4' x 6' Nylon Replacement Flag

**Heavy-duty flag for indoor or outdoor use...** Double stitched with heavy-duty grommets.

Approx. shipping weight: 2#; Sm. Pkg.

36" Deep Foundation

## How to Select a Basketball System for Your Home

**Choosing between a fixed height and an adjustable pole system...** Make this decision based upon the ages of the players and the level of basketball you want to play. The official high school and college competition goal height is 10', but a new basketball system fixed at 10' will be a big disappointment to youngsters learning to get the ball to the goal. Most young players and teens will also want to lower the goal below 10' for slam dunk action. A 10' fixed-height goal is appropriate if you want to play only at the official competitive height.

**The backboard material affects the quality of play...** Glass is used for all competition backboards in high school, college and pro arenas because a glass backboard gives the best ball rebound. A home court with a Bison TruGlass backboard is the best training ground for competitive-level skills. Clear acrylic backboards, which give the look of glass, and backboards of graphite or fiberglass all have aesthetic, durability or price benefits – but none of these compare to the playability of glass.

**Look for durability to ensure years of family fun...** Beware of basketball equipment makers that litter neighborhoods with rusty, tilting poles, backboards that age too soon and sagging goals. Compare features to get a clear picture of what you can expect your system to look like in the years ahead. Bison's warranties will give you confidence that your equipment will stand up to years of use.

**Safety is not an option. Generous setbacks and pole padding are essential...** The distance between the pole and the backboard ranges from 22" to 60" on Bison pole systems. There's no one blowing a whistle under the boards in most driveway games. If you expect aggressive play, you should consider a greater safe play area. Pole and backboard padding also add a measure of safety when there is rough-housing on your court. In the interest of your kids' safety, Bison makes SafeStuff pole padding standard on every residential system.

**Consider where the system will be installed...** Will your system be installed on a driveway in the front of the house? On the side, or out of sight in the back yard? Street appeal and coordination with your home and landscape should influence your purchasing decision in more visible areas. Choose a system that complements not overwhelms your home and landscape.

**Plan for your family's future...** Select a system that will keep up with changing skill levels. If you want your youngsters to play with you now and on a competitive team in the future, you should carefully consider pole and backboard rigidity. Always select equipment warranted to stand up to active play. And look for equipment that won't detract from the value of your landscape.

All Conference BA89QC-AW with 48" backboard

## 4" QwikChange™ Adjustable Basketball System

**Hard work and dedication pay off on the court and in the design and manufacture of quality equipment as well...** Bison's 4" square QwikChange poles have 75% more steel than common round poles • One of these systems is going to look great in your driveway for years to come! • It's going to grow with your kids, too. Height adjusts from 7½' to 10' in 6" increments. • The height adjustment mechanism has over ten times the pivot contact area of commonly compared round pole systems, so go ahead and let them slam dunk! • The mounting design for the pro-style flexible goal transfers playing stress to the pole, protecting the backboard.

Approx. shipping weight: 150#; Truck

- Clear Acrylic Backboard
- 22" Safe Play Area at 10'
- Aluminum Backboard Frame
- QwikChange Height Adjustment
- Fast Break Flex Goal
- Backboard Protecting Direct Goal Mounting
- Four Backboard Braces for Added Support
- Textured Black Powder Coated Pole Finish
- Approx. 30" Deep Bury
- **FREE** Fitted Pole Padding

Easy Height Adjustment

*"No matter where I find myself coaching, playing or watching basketball, I expect quality equipment. For my backyard court, I chose Bison so no matter what the level of play, I know the game is authentic. I especially value the fact that every Bison residential system comes standard with SafeStuff pole safety padding."*

**Bill Self,**  
Head Men's Basketball Coach  
University of Kansas Jayhawks

## Understand What You are Buying

Understanding what you're buying is key to getting the right basketball system for your home. Bison uses the following terms to help point out key features and differences on our systems.

**Safe Play Area...**As the name implies, the greater the safe play area the greater the player safety during aggressive play. Safe play area is the distance from the face of the backboard to the pole. On a competition indoor court the distance from the face of the backboard to the out-of-bounds line is 48". Safe play area is particularly important on systems that are regularly lowered for slam dunk action.

**SafeStuff™**...Only Bison includes a pole pad with every residential system. We call this feature SafeStuff because we don't think player safety should be optional.

**DuraSkin®**...In the late 1980's Bison developed a dense molded bolt-on backboard padding system that was durable for indoor or outdoor use. Often imitated, but never equalled, DuraSkin is available as an option on any rectangular backboard. Backboard padding is required at all levels of official college and high school play to protect players from backboard contact.

**Direct Goal Mounting...**Backboard durability is virtually a non-issue on a Bison system due to the goal mounting system that effectively mounts the goal through the backboard and directly into the steel pole structure. There is almost no stress put on the backboard even during slam dunk action.

**Flex Goal...**Bison flex goals are designed with many of the same durability features of our competition breakaway goals but require less pressure to release. This improves player safety and rim life. Flex goals will hold up in any climate.

**Direct Bury...**This method of installing a pole system inserts the pole into the ground between 30" and 48" depending upon the size of the system. Concrete is placed around and in the bottom of the pole making the installation permanent. Ground sleeves are available for 4" direct bury poles to make removal possible.

**Pedestal Base Mounting...**Many Bison systems have a mounting plate on the bottom of the pole that allows them to be bolted onto (and unbolted from) a poured foundation with protruding threaded bolts. This lets you easily take your investment with you when you move.

**Powder Coated Finish...**Powder coating provides a finish that is far superior to a finish from a wet spray paint system. In addition to beauty and durability, powder coating is environmentally and employee friendly, without the hazardous waste and toxic fumes common with the wet paint process.

**TruGlass™**...Bison pioneered the use of actual tempered glass on residential basketball systems over 25 years ago. Over the years an ever increasing number of homeowners have recognized the superior rebound of TruGlass. Today Bison sells only TruGlass on most systems.

**Acrylic Backboard...**While tempered glass is the norm in virtually every gymnasium in the country, home backboards have traditionally been constructed of clear acrylic, a plastic material, due to cost and other considerations. Acrylic provides the look but not the rebound of tempered glass.

See pages 78-80 for 6" Pole Systems with official 72" wide glass backboards.

## 4" & 5" QwikLift™ Adjustable Basketball Systems

No major manufacturer has a longer history of building crank adjustable residential basketball systems with tempered glass backboards than Bison...And no one else takes player safety so seriously that FREE Safe Stuff pole padding is included on every residential system • QwikLift is our newest offering and includes such popular premium features as a removable pedestal base, tempered clear TruGlass backboard, full 36" safe play area at 10' goal height and extended 42" at 8', easy-to-operate rear goal height adjustment crank, competition grade breakaway goal, free pole safety padding and limited lifetime warranties on backboard, goal and entire pole system • **Choose an Atlantis 4" pole with 54" backboard or an Olympus 5" pole with 60" backboard.** Either way, you'll be a hero to your kids when you put one of Bison's premium QwikLift basketball systems in your driveway.

Approx. shipping weight: 310# (4"), 350# (5"); Truck

- Clear TruGlass Tempered Glass Backboard
- Gymnasium Quality Heavy-Duty Competition Flex Goal
- Backboard Protecting Direct Goal Mounting
- Textured Black Powder Coated Pole Finish
- QwikLift Rear Crank Height Adjustment
- Choose 4" or 5" Pole
- 36" Safe Play Area at 10'
- Aluminum Backboard Frame
- Goal Height Indicator
- Infinitely Adjustable from 7½' to 10'
- **FREE** Fitted Pole Padding

## 4" & 5" ZipCrank™ Adjustable Basketball Systems

You'll see and feel the difference between Bison ZipCrank systems and other manufacturers' systems...Bison uses our experience as a manufacturer of competition grade equipment to offer TruGlass tempered glass backboards that give players a more realistic rebound • Every backboard has an aluminum frame just like those in the gym • The extra heavy poles and front crank style height adjustment are designed to change the height of the breakaway goal from 7½' to 10' with the turn of the removable crank handle • As an added bonus, Bison ZipCrank systems can be mounted closer to fences, walls or other obstacles than rear height adjustment systems • All systems include free fitted pole padding.

Approx. shipping weight: 250# (4"), 325# (5"); Truck

- Clear TruGlass Tempered Glass Backboard
- Choose 4" or 5" Direct Bury Pole
- Gymnasium Quality Heavy-Duty Competition Flex Goal
- Backboard Protecting Direct Goal Mounting
- Textured Black Powder Coated Pole Finish
- 30" Safe Play Area
- Aluminum Backboard Frame

## Full Color Graphic Printing Options

While it is theoretically possible to print any color with our 4-color Sport Pride graphic printing process, refer to the chart on the right as a basic guide to color selection. Our graphic designers will work with you for a final color and design selection. Sport Pride graphic printing is available on gym and outdoor wall padding, scoring tables and some additional padding and banner products. Inquire about custom color availability.

## Solid Color Vinyl Padding Options

Single solid color, vinyl padding can be selected from the colors at right. Product examples include: volleyball post and base padding, football post padding, T-Rex and other portable basketball padding, solid color wall or outdoor padding, team stools, solid color scoring table padding; lettered wall, outdoor or scoring table padding background color.

Note: Pink is only available on wall padding and volleyball post padding.

Note: Dark Royal is only available on wall padding and volleyball post padding.

## Printing Colors on Padding with 1- or 2-Color Lettering or Logos

Add any one or two colors shown at right to print on solid color vinyl padding. See ABC50, ABC51, ABC52 and ABC53 for printing options.

## Ready to Apply (RTA) Adhesive Vinyl Lettering Colors

Select from vinyl colors on right to add custom lettering to ball carts, equipment carts and other powder coated steel sports equipment surfaces. See ABC92 for details.

## Color Options for Aluminum Bench and Bleacher Seats

4', 7½', 15' and 21' length aluminum seats and backs can be finished in any of the colors shown at right.

## Wall Mount Structure **SAFETY WARNING!**

Due to the aggressive nature of basketball today it is likely, regardless of the level of supervision and facility rules, play will include hanging on the goal either intentionally or in the course of play. The structural failure of any component will put players or fans in danger of grave injury or even death should the structure fail. For this reason, Bison has designed all mounting brackets, hardware and structure to be of the highest quality. Your facility can feel confident installing Bison wall structures in conjunction with Bison goals, backboards and padding, assuming the safety guidelines outlined below are followed.

1. Install structure only to walls capable of supporting the load placed on the wall by the weight of the structure and the potential for additional weight of players hanging and bouncing. Generally, the further the backboard is extended from the wall the more load that is applied. Poured concrete or concrete block walls are superior. It is inadvisable to mount structure to walls with wooden or steel studs unless additional work approved by an engineer is done to provide additional support.
2. Due to the differences in wall construction, Bison does not provide the anchors to mount the wall boards to the wall. Consult a professional architect, engineer or contractor to determine safe methods for installation to your facility's walls unless you are confident in your internal facility abilities. Bison will not assume liability for the installation of any wall mount structure shown in this catalog.
3. If the wall mount structure is being installed above bleachers it is strongly recommended (but not required) by NCAA and National High School Federation rules to install a safety device similar to the Bison BA955 Saf-Lok Structure Catch. The BA955 SafLok acts as a safety belt to "catch" the structure before it falls in case of failure of the wall mounting anchors or other structural components. The device mounts to the ceiling structural components.
4. It is always wise to pad the bottom of the backboard for all levels of play. NCAA and National High School Federation rules require backboard padding similar to Bison's BA68U DuraSkin for all games governed by their rules.
5. If your wall is less than 10' from the face of the backboard, it is highly recommended that the wall is padded to avoid player contact injuries. See Bison Wall Padding options on pages 31-35.
6. Many manufacturers now produce glass backboards that are nearly impossible to break during play. The small additional cost will provide peace of mind. See Bison BA42XL, BA44XL or BA48XL on pages 18-19.
7. Always follow all installation instructions carefully. Do not omit hardware or take shortcuts.
8. Once structure is installed it is advisable to inspect annually for loose bolts as the vibration of basketball play may eventually loosen wall mount anchors and the hardware.
9. Studies have shown that 42" x 72" glass backboards reduce the risk of player injury from backboard contact. Bison manufactures 48" x 72" backboards only for replacement applications.

**This catalog is not intended to be used as a guide for installation and use of any product.**

### **CAUTION!**

**Wall mount structure requires a minimum ceiling and wall height as well as an acceptable wall mounting surface. Generally, brick or block walls are superior. It is inadvisable to mount structure to walls with wooden or steel studs unless additional work approved by an engineer is done to provide additional support. Bison does not provide wall anchors with any structure. The purchaser assumes all liability for proper selection of anchors, supporting of walls, and installation. Bison will not assume liability for the installation of any wall mounting structure shown in this catalog. Consult a professional architect, engineer or contractor to determine safe methods for installation to your facility's wall construction.**

## Bison Limited Warranties

All Bison products are warranted against manufacturing defects at the time of delivery. In addition, most products are covered by warranty periods stated in the description of the product. Where listed as "limited", warranties cover damage or failure that occurs during the course of "normal or intended use" of the warranted product. Normal or intended use is described as activity that is necessary for the participation in the sport for which the equipment is designed.

Bison Limited Warranties do not cover any damage or failure that is the direct or indirect result of any use that is not deemed in the sole discretion of Bison to be "normal and intended use".

When warranties are stated as "unconditional" or "unconditional replacement", the above stated limitations do not normally apply except in cases where damage was obviously the result of a malicious act of vandalism.

Where no specific length or type of warranty is listed in the catalog, the product is warranted to be free from manufacturer's defects and for the intended purpose at the time of shipment.

Whether or not stated as such, all Bison warranties allow Bison to repair or replace warranted products at Bison's sole option.

Normal deterioration of products due to weather, wear and tear, or other causes that do not affect functional use are not covered by Bison warranties, regardless of type of stated warranty.

All warranties are valid only when product is used in the intended application as outlined in Bison's printed literature, when installed according to Bison's instructions and when matched with compatible components as described in Bison's literature. Under no circumstances will product shown in the Bison Premium Residential Basketball Equipment Catalog be warranted for commercial or institutional use.

Due to the abusive nature of pay-to-play facilities, unless specifically agreed to in writing, Bison products carry no warranty except for obvious manufacturing defects when used in a facility where players pay an individual or group fee to use Bison equipment.

Bison will pay ground freight only to repair or replace defective merchandise. Unless otherwise stated, Bison will not assume any liability for labor costs incurred for removal or replacement of product replaced or repaired under warranty.

## Bison Return Policy

No merchandise may be returned without prior authorization by calling 800-247-7668. Merchandise returned without a return authorization number will be held for no more than 10 days at which time all return credit is forfeited. Upon receipt of request for return, an authorization number will be issued by Bison and must appear on all return shipping labels. All returns must be shipped prepaid (UPS, FedEx or truck only) to 1100 SW 6th Street, Lincoln NE 68522. Collect returns will not be accepted.

Credit for defective merchandise will be issued only when our inspection department determines the merchandise to be covered by our warranty. All salable merchandise returned is subject to a 20% restocking charge and all freight costs with a minimum restocking charge of \$30. Due to their custom design, scoring tables and wall padding are not returnable.
