## QUICK SHIP

Orders typically process within 2-5 business days when products are in stock. Inventory levels are based on historical sales experience. Changes in current/future sales demands may create limited on-hand quantities while inventories are rebalanced. If a customer is able to provide an item forecast, we can help ensure, although not guarantee, item availability to meet your expectations. Without a forecast, unusual changes in ordering may cause brief delays.

All items ship parcel (UPS/FEDEX) unless notated with a truck symbol. These items must ship LTL.

#### We Love "GUS"!!

*Our 1 year old daughter LOVES this tunnel. She's scared of most of the tunnels that are fully enclosed so this one is unique because she can see in and out of it and use it also as a play area inside or a "fort." The colors are attractive and although a bit large, fits perfectly in our backyard. Lots of kids can play at once in, on and around it. I highly recommend! - SuperMom*

#### Great Chairs & Price

*We've had these chairs for several months now, we are so happy with them. They are sturdy, easy to clean, and perfect for our students to use/move around. I highly recommend these chairs for classroom or home setting - Happy*

#### Would Buy Again

*This was super easy to assembly, I'm a woman with no technical skills, and is more sturdy and reliable than I expected for the price. I would definitely recommend this for durability and quality. - Elfin*

#### Great Organizer

*After looking at different options to organize our toys, I decided on this product. We just received it today, and it was so simple to put together. We are now dividing different categories of toys into the different bins. I was worried the bins might be too small, but they seem to fit a lot.. The 4 large bins are nice for bigger blocks. The bins seem sturdy. My only negative is that I wish lids were included.. All in all, I'm pleased with my purchase. - Miri*

## WHAT OUR CUSTOMERS ARE SAYING!

“Just wanted to let you know I bought the big soft play blocks as well as the multicolored mat with soft blocks. My two youngest boys 3 yrs and 18 months have autism. For Christmas we focused on sensory play and that led me to your products. I work in product development and I know that it is rare to be told by a customer what you are doing right so I wanted to make a point to email you. My boys love your items so much. They pile the blocks and jump off the ottoman onto the mat throughout the day. They are so happy. My 18 month old is non verbal and because of your blocks and me repeating “ready, set, go” before he crashes into them, he said his first word “go” yesterday. For us autism parents what may be minor to most is huge to us and your blocks helped bridge a connection I longed for daily. Thank you for making wonderful products. We are working our way up to buy more as we work on a sensory room for our boys since they love to climb I see a soft climber in our near future. Thank you so very much for making wonderful products that bring me even closer to my children and help them progress.
