

INNOVATION, PERFORMANCE AND COMMITMENT SINCE 1953

A central image shows a wooden clipboard with a silver clip at the top, holding a white sheet of paper. A black whistle is attached to the left side of the clipboard. The paper contains a handwritten-style quote in blue ink. Surrounding the clipboard are various sports items: a white soccer ball with black panels to the left, a red and white American football in the foreground, a white baseball with red stitching in the foreground, and a large orange basketball to the right. The background is a textured, light-colored wall with blue and green watercolor-like splatters.

*"Set your goals high,
and don't stop
till you get there."*

- Bo Jackson

Jaypro's Team Pink Program

Jaypro Sports is proud to introduce the Team Pink Program which will help support the Terri Brodeur Breast Cancer Foundation. A portion of the proceeds from sales will benefit the TBBCF. This Foundation is a, 501 (c) (3) non-profit organization and is dedicated to fighting this devastating disease. This Foundation is different from other breast cancer foundations in that **100%** of the gross fundraising dollars goes directly to breast cancer research. Please visit www.tbbcf.org for more information or to donate to this very worthy cause!

* Specify sleeve depth when ordering.

Depths other than the standard 10" are special order items (non-returnable). Custom sizes (depths) may require longer lead time.

SLEEVE INSERT MEASUREMENT

To ensure proper fit of sleeve inserts, please provide the following dimensions of your sleeves when ordering.

- A) Depth of sleeve itself
- B) Depth from bottom of sleeve to playing surface
- C) Inside diameter of sleeve

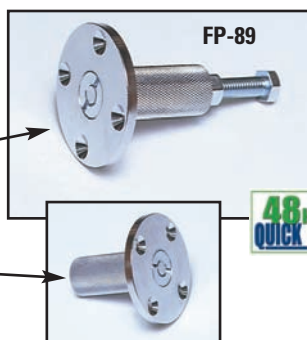

Floor Anchors

Floor Anchor

Billet steel body gives 9000 lb. pullout strength intended for all floor applications except floating wood floors. 3-1/4" chrome cover. Center is 1/2"-13 thread with spring loaded closure plug.

May also be used without the extension bolt on wood, tile or synthetic surfaces applied directly over concrete slab, or on a floating wood floor for light duty performance.

FP-89 3 lbs. **\$105 each**

Floor Anchor

Brass cover plate and anchor work independently to allow for installation into floating wood floors.

FP-100 4 lbs. **\$158 each**

Floor Anchor

Same construction as FP-89 except cylinder width is only 1-1/2".

FP-90 3 lbs. **\$89 each**

All floor anchors come with our exclusive removable cylinder in case stripping occurs.

Padding

Official Standard Pad

6'H post pad constructed of 2" thick polyurethane foam wrapped in 14 oz. vinyl in your choice of color. Attaches with hook and loop closure flaps. Meets specifications for competitive play. Specify color from chart below when ordering. Shown with optional custom lettering.

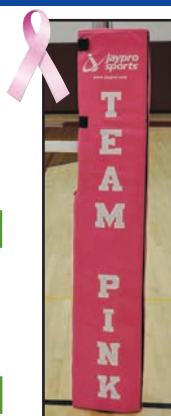

PVB-60P 18 lbs. **\$429 pair**

AVCL-2 2 lbs.

\$59 each

Soccer Goal Safety is our Business!

SECURE 4 SAFETY

Check It - Secure It - Test It - Respect It

Jaypro Sports is committed to safety on the field. Because of this we have created the Secure 4 Safety Program, which promotes soccer goal safety.

ASTM TESTING

In our ongoing effort to provide athletes with the safest environment possible, Jaypro has worked with the ASTM (American Standards for Tests and Measurement) to create new standards for portable soccer goals in the U.S. The goals in this catalog so marked have been tested in accordance with the standards set forth by the ASTM committee for portable soccer goal safety. (ASTM Designation: F2056 and F2673). The United States Consumer Product Safety Commission has determined that portable official soccer goals should be anchored or counter-weighted at all times.

All Jaypro goals that meet NFHS, NCAA and FIFA specification are marked in this section, refer to www.jaypro.com for more information on ASTM guidelines and standards.

ANCHOR OPTIONS

Throughout the Soccer section, Jaypro has listed the counterweight required for each soccer goal, like the icon shown below. Even with the ASTM requirement met in our testing, all soccer goals that are not permanently anchored must have a certain counterweight required on the rear frame of the goal. Our new labeling system will also inform you on the weight that is required on each goal. Please refer to www.jaypro.com for a complete list of counterweight requirements for your particular goal. On-goal weights and in-ground anchors are available on pages 31-32 of this section.

**IN-GROUND ANCHORS
OR 140 LBS. OF
COUNTERWEIGHT
REQUIRED PER GOAL**

Model #: **SGP-600**
800-243-0533
www.jaypro.com

THIS GOAL MEETS ALL SAFETY REQUIREMENTS OF: ASTM F2056 & ASTM F2673
WHEN COUNTER BALANCE WEIGHT IS USED AS THE ONLY MEANS OF PREVENTING TIPOVER, A MINIMUM OF 140 LBS. MUST BE PLACED ON THE REAR CROSSBAR. WEIGHT SHOULD BE DIVIDED EQUALLY AND PLACED NEAR EACH REAR CORNER.

SEE MANUFACTURER'S INSTRUCTIONS FOR MORE DETAILS ON ANCHORING.

SL0046

OUR GUARANTEE

Jaypro Sports "Honest Guarantee"

Don't be fooled by misleading "lifetime guarantees" in the industry. They often aren't accurately defined when reading the fine print, leaving customers confused and frustrated. Jaypro is proud to offer "The Honest Guarantee." Our official soccer goals are designed and manufactured with the highest standards in quality and safety that we can confidently guarantee them against defects and workmanship. All Official and NOVA goals are guaranteed for 12 years. All nets and vinyl products are guaranteed for 1 year. Any product without a specific guarantee listed is guaranteed for 3 years.

It's that simple!

Simply the BEST Soccer Goals in the Industry... go ahead and compare!

105" L x 15" dia.

Replacement Equipment Carry Bag

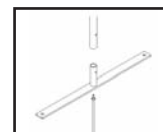

The bag makes the goal or rebounder easy to transport and is convenient for storage. Heavy duty Cordura black bag and reinforced zipper. Includes carry straps and handles on each end. Large bag will hold our SEYL-824 goal. Medium bag will hold the above training goals and rebounders. Small bag will hold the MPG-46 goal and miscellaneous items.

ECB-LG	Large Bag	6 lbs.	\$79 each
ECB-MD	Medium Bag	5 lbs.	\$69 each
ECB-SM	Small Bag	4 lbs.	\$59 each

48 HOUR QUICK SHIP

Stable Anchored Base!

Anchoring to the ground is much easier! The powder coated white ground base assembly lies flat on the ground. The ground stake is inserted through the middle of the base to anchor it to the ground. Then the upright is placed over a sleeve on the base assembly, resulting in a stable goal with no visible anchor to cause a tripping hazard!

Soccer Rebounder

Same construction as above training goals but also includes additional bottom crossbar with extra anchored base, white 1-1/2" sq. mesh net with 1/8" cord and bungee net attachments. Includes a carry bag.

STGRB718	Medium Rebounder	48 lbs.	\$669 each
RB718N	Medium Rebound Net	5 lbs.	\$89 each
STGRB824	Large Rebounder	67 lbs.	\$795 each
RB824N	Large Rebound Net	6 lbs.	\$109 each

Bungees

Replace old and worn bungees. 6" long. Comes in bags of 30. Two (2) bags are required for the STGRB718 Medium Rebounder and three (3) bags are required for the STGRB824 Large Rebounder.

STGRB718B	6" Bungees	2 lbs.	\$29 bag

World Cup Anchor

ALL SURFACE FRIENDLY

Stackable design for easy storage

Keep your soccer goals safe from tipping and up to code with weight requirements

Ideal where in-ground anchoring devices are not appropriate. Tank style anchor has a 4-3/8"W x 3-1/4"H opening designed to fit over any round or flat rear crossbar. Hard plastic shell will not crack when filled in the field with 50 lbs of concrete, 39 lbs of sand or 24 lbs of water. Large carry handle and stackable design allow for convenient storage. Overall size 8-1/2"H x 12"W. Comes in bright yellow for visibility and safety. Please check the ASTM counterweight requirements for your specific goal when ordering to ensure proper anchoring.

- SGA-50** Set of 4 12 lbs. **\$289 set**
- SGA-51** Single 3 lbs. **\$79 each**

NEW

Multi-Use Soccer Cart
Heavy duty utility cart especially designed for hauling soccer field equipment. Easily transport your awkward and often heavy equipment; such as goal anchors, corner flags, balls and any other equipment needed for games and practices. Measures 26"W x 51"L, with fold down sides for easy loading. *Pull by hand or tow by ATV or utility tractor.* Travel on (4) 13"x 5"W pneumatic turf tires, which are rated to hold up to 350 lbs. each. Holds up to 16 NOVA World Cup anchors.

Easily carry over 800 lbs. of equipment!

SGA-CART **\$649 each**

Counterweight Requirements for Soccer Goals

All soccer goals that are not permanently anchored must have a certain amount of counterweight, even when the goals have met all ASTM requirements. The chart below is the counterweight requirements for Jaypro's soccer goals.

	Item #	Counterweight required per goal	NOVA World Cup Anchors or Sand Bags required per goal
8' x 24' Official	SGP-600FS	140 lbs.	3 per goal
	SGP-600	140 lbs.	3 per goal

FieldPro Football Ball Stop System

Backstops are installed behind football goal posts to keep field goals and extra point kicks inside the field. 40'W net can easily and quickly be raised and lowered during games or practice with a rope and marine style swivel pulley system with integrated ball bearings. Includes heavy duty 6-5/8" diameter aluminum poles, ground sleeves, corrosion resistant hardware and 3-1/2" square mesh #36 knotless nylon black net with 1/4" rope border. Available in 30' or 40' heights. Poles can be powder coated black, call Customer Service for details. More Field Netting is available on pages 97-99.

FNFB-30 30'H x 40'W 530 lbs. **\$4,195 each**

FNFB-40 40'H x 40'W 762 lbs. **\$6,595 each**

Indoor - Ceiling Suspended and Retractable Football Goal Posts

Ceiling hung football goal posts for indoor practice facilities. Allows kickers to practice indoors, or for use during indoor scrimmages. Material sizes are the same as found on high end outdoor goal posts. Crossbar is 6-5/8" O.D. Aluminum tubing by 18'-6" wide. Uprights are made from 4" O.D. Aluminum tubing, and measure 30 feet tall. Comes with a leveling feature to ensure the crossbar is level. Powder coated yellow.

Ceiling Suspended Goal Post

Suspended directly beneath the building structure, attaches directly to rigid frame girders, building trusses, I-beams or roof purlins. Comes complete with all attachment and suspension hardware.

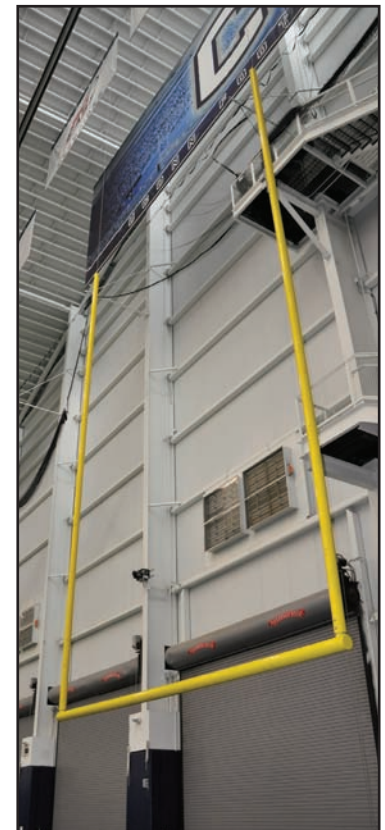

CSGP-1 390 lbs. **\$2,895 each**

Retractable Ceiling Suspended Goal Post

Similar to the CSGP-1 but includes a 1 HP hoisting system to raise the goal post out of the way when not in use. Comes complete with 1 HP electric winch, pulley and cable system, and all attachment and hoisting hardware. Winch mounts directly to end wall structure.

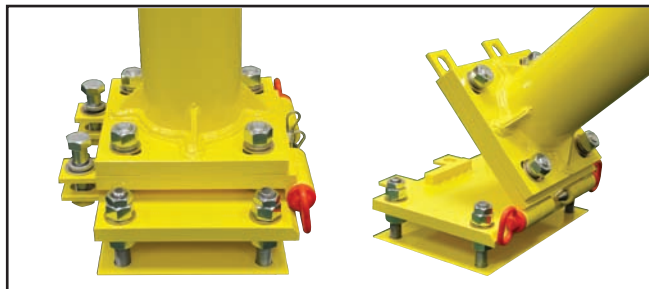

CSGP-2 510 lbs. **\$4,649 each**

**23'-4" width goal post
(High School dimensions)
also available.**

Retractable ceiling suspended football goal posts for indoor practice facilities. Raise the goal post out of the way when not in use!

Max-1 Accessories

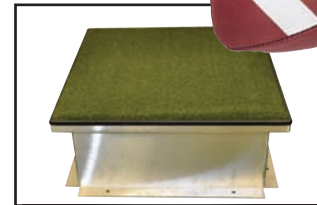

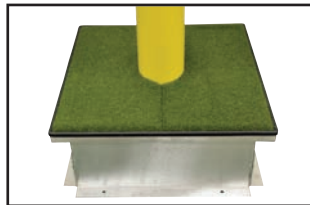

Football Hinge Kit

Ideal for multi-purpose facilities, the hinge kit allows any surface mounted Max-1 goal to be lowered and dismantled from ground level by a maintenance crew. Opposing pull pins offer easy separation of the hinge plates. The welded shackle bracket on the Max-1 gooseneck offers an attachment point for a cable or hoist. Requires the FBGPAF-2 access frame kit (available separately, see to right).

FBHG-1

\$695 each

Access Frame and Covers

For use with semi-permanent goal posts requiring removal. Can be used on grass or turf fields. Turf cover hides anchoring hardware while allowing access when required. Constructed of aluminum, pressure treated plywood and artificial turf. Includes two frames and four turf covered plates; two split panels for use with goal post and two full panels for when goal post is removed. Available in two sizes (larger size used with goal post hinge kit).

FBGPAF-1 18-1/4" L x 18-1/4" W x 8" H

HABPM-100

HACK ATTACK™

HABPM-100JR

JUNIOR HACK ATTACK™

Hack Attack Baseball/Softball Pitching Machine

The Hack Attack is designed for all levels of play; College, High School, Youth League and even the Major Leagues. Features a unique 3 wheel design that changes the breaking pitch plane by the turn of a dial. Underhand feeding motion, acceleration and release emulates a live pitcher. Dial-in pitch selection without head adjustments maximizes practice time. Choose from fastballs, risers, drops, right and left handed screwballs. Pivots instantly for pop-ups, fly balls and grounders. Speeds 35-100 mph and has a distance of 43 feet. Power supply 110 VAC - 2000W generator with inverter technology (not included). Works with all ball types including leather. Comes fully assembled.

Baseball

NEW

HABPM-100

Hack Attack Baseball Pitching Machine

The Hack Attack is designed for all levels of play; College, High School, Youth League and even the Major Leagues. Features a unique 3 wheel design that changes the breaking pitch plane by the turn of a dial. Underhand feeding motion, acceleration and release emulates a live pitcher. Dial-in pitch selection without head adjustments maximizes practice time. Choose from fastballs, risers, drops, right and left handed screwballs. Pivots instantly for pop-ups, fly balls and grounders. Speeds 35-100 mph and has a distance of 43 feet. Power supply 110 VAC - 2000W generator with inverter technology (not included). Works with all ball types including leather. Comes fully assembled.

Soccer

NEW

Strike Attack Soccer Machine

Battery powered machine provides reliable service on any soccer field or playing surface. A realistic curve and bend of the ball can be consistently delivered and easily controlled. Balls can be delivered at speeds up to 75 mph and distances of 70 yards or more. The type of spin, height and direction desired can be locked into place to ensure precise repetition focused on your specific training objectives.

SASM-1 250 lbs.

\$4,199 each

Football

NEW

Snap Attack Football Machine

The Snap Attack is a snap, pass and kick machine that will maximize your time on the most difficult to practice phases of the game. Features include universal ball feed cradle, elevation control and lever clamp combined with a locating pin to make changes from spirals to kick-offs easy and quick. Speeds of 70+ mph and distances of 100 yards for passes and punts, 70+ yards for kick-offs and 5-15 yards for snap-tight spirals. Ball release points at 5' for passes and ground level for snaps.

SAFM-1 90 lbs.

\$4,199 each

Volleyball

NEW

Attack II Volleyball Machine

The Attack II delivers thousands of reps in daily practice of serve receiving, digging and spiking. Accuracy and repeatability are assured in every drill, eliminating time-wasting errant hits. With a ball release point of 5'6" to 8'-6", it offers a full range of spins, throwing both sharp topspins and breaking floaters to simulate match situations. Spiking over Women's net at speeds up to 70 MPH. Fits through a standard doorway and into any standard size SUV or pick-up.

VBSA-2 190 lbs.

\$3,149 each

Attack II Ball Bag

Heavy duty canvas. Easily attaches and detaches to the Attack II model. Two recommended per unit. Each bag holds 15 balls.

Hoop Rejuvenator™ Kits

Attach to your Existing Goosenecks

Is your playground basketball system leaning, rusted, or non-regulation height? Does your budget prohibit tearing out your old system and installing a new one?

Jaypro has the solution... Don't remove it – Improve it!

Upgrade your basketball system with Jaypro's new Patent Pending Hoop Rejuvenator™. Replace your rusted steel backboard and rejuvenate it back to regulation height without the added cost and aggravation of excavating your old gooseneck and replacing it.

- Choose either H-Frame design (shown) or Direct Mount
- Allows for adjusting the goal height after resurfacing. (Up to 6" on H-Frames and 5" on Direct Mount units)
- Plumbs boards on leaning goosenecks.
- Designed to fit all standard mounting plates and goosenecks, 4-1/2" O.D. and up. For 3-1/2" O.D. goosenecks use Aluminum Fan board only.
- Offered with Acrylic, Steel or Aluminum Fan backboards.
- All kits include our Ultimate Breakaway Playground Goal (UBG-500F).
- Includes Stainless Hardware and can of spray-on Zinc Galvanize to paint over rusted areas on the gooseneck.

42" Unbreakable Rectangular Glass Backboard

Unique design allows the impact load on goal to be transferred directly to an engineered lower reinforced steel frame member, without putting any stress on the glass. High strength, clear anodized aluminum channel outer frame, which is lightweight and attractive. 42" x 72" by 1/2" thick rectangular tempered glass. Direct mount or four corner mounting applications: 4" x 5" hole pattern, or 35-1/2" x 62/66" mounting dimensions. Pre-drilled for "Safe-Pro" bolt on edge padding. Meets all NCAA and NGHS specifications.

GBRUB-42

190 lbs.

\$899 each

Same as GBRUB-42 except backboard is 42" x 54".

GBRUB-54

150 lbs.

\$695 each

48" Rectangular Glass Backboard

Similar features except backboard is 48" x 72". Hole pattern is 5" x 5", or 42" x 63/66" mounting dimensions.

GBAFR-48

200 lbs.

\$995 each

GBRUB-42 Shown with optional goal and edge padding. See pages 81-83 for details.

42" Rectangular Glass Conversion Backboard

Converts a fan shaped backboard to a rectangular shaped backboard. Eliminates the need to alter either the playing court or backstop system. 42" x 72" by 1/2" thick rectangular tempered glass. 4" x 5" hole pattern, 20" x 35" mounting dimensions. High strength, clear anodized aluminum frame. Meets all NCAA and NFHS specifications.

GCBB-35

230 lbs.

\$1,095 each

Note: The glass itself is not unbreakable. Breakage in transit, during mounting, malicious act or deliberate attempts to damage are not covered under warranty. Boards used with height adjusters below 10' are not covered under warranty.

GCBB-35 Shown with optional goal and edge padding. See pages 81-83 for details.

LED Backboard Light Kit

Connects with most shot clocks allowing backboard to light up when shot clock or game time reaches zero and when final segment counts down to zero. One each consists of 5 bright LED strips, fits 42" x 72" backboards. Requires 9VDC-17VDC (formal specified voltage is 10.5VDC). Most kits include, but not limited to: light strips, Y-cable, alignment guides, 10'L lower supply DC cable and installation manual. Hook up and wiring varies by shot clock manufacturer and should be done by a qualified installer. Please specify the Manufacturer and model of existing unit. Does not ship from Jaypro's CT warehouse. Call for freight quote.

BB-LED42

25 lbs.

Call for Pricing

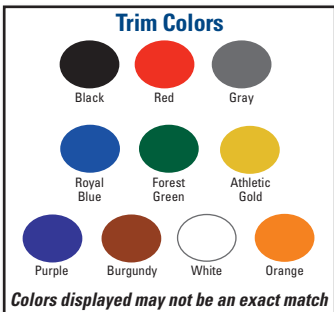

When selecting a replacement for an existing backboard, it is important to identify some key factors that can create problems with the installation. There are two major differences in how a board may be attached to the backstop unit, either direct mount or corner mount. Direct mount is identified by a centrally located fitting or fixture attached to the board directly behind the rim; while corner mount features independent attachments at each corner of the board. The correct identification of the type of mounting structure is critical in selecting the correct replacement board. Digital photos of your equipment would be beneficial, and could help us help you in evaluating a replacement. We will be happy to work with you to insure that your replacement board installs without incident. If replacing a fan shaped board, order a glass conversion board (GCBB-35).

TrueBounce® Backboards

Patented Perforated Polycarbonate Backboard

We can retro-fit to most indoor/outdoor support structures! Perforated holes release the ball's energy creating a "true bounce" off the backboard. 1/2" polycarbonate board is shatterproof, 250x stronger and 30% lighter than conventional glass backboards. Sound and wind resistant construction, graffiti, UVF and scratch resistant coating. Comes in three sizes, see below. Custom trim available in 10 stock colors. Manufactured in the USA. Does not ship from Jaypro's CT warehouse. Call for freight quote.

Side Fold (top view)

IMPORTANT NOTES FOR WALL MOUNTED BACKSTOPS:

1. Wall mounted basketball systems should only be installed on walls capable of supporting the weight of the backstop plus the additional weight of a player hanging off the rim. If you are unsure if your wall is capable of handling such loads consult an architect, structural engineer or contractor.
2. Wall mounted basketball systems require a minimum ceiling height and unobstructed wall height, depending on distance from the wall. Please refer to the backstop dimensional drawings and charts on www.Jaypro.com or call.
3. Jaypro Sports bears no responsibility for the structural integrity of the walls these backstops are mounted to.
4. Installation should only be done by a qualified installer using suitable wall anchors. Please contact Jaypro Sports for assistance in locating a qualified installer.
5. Jaypro Sports recommends two types of wall anchors depending on whether the anchoring is done into solid concrete or hollow block. When anchoring to Un-Filled CMU walls, often both anchors are required. Order wall anchors separately.
6. Jaypro Sports recommends that all basketball backstops be inspected on an annual basis to ensure all wall anchors are sound, fasteners are secured and cables are not worn. Please contact Jaypro Sports for assistance in locating a qualified installer.

The ED-902 includes unique anti-torque safety attachment that prevents "kick-back" during operation providing an extra measure of safety.

Manual Winch Operator

Heavy duty portable winch operator is designed for use with the TW-700M manual winch to raise and lower all types of backstops. Comes with attractive carry/storage case.

ED-902	19 lbs.	\$775 each
---------------	---------	-------------------

Posilok™ Backstop Safety Strap

Designed to automatically lock a backstop in position should a malfunction occur during raising or lowering the unit. Features a belt capable of withstanding 7300 pound loads, visible maximum safe extension patch and Telltale Indicator that notifies when the safety strap has been called into action. Other features include a self-checking, fail safe locking mechanism, automatic reset, stronger clamping system and versatile mounting. **1 Year Warranty**

PL-1000	17 lbs.	\$559 each
----------------	---------	-------------------

**Patented Design...
exclusively from Jaypro!**

HEIGHT ADJUSTERS:

Aluminum Height Adjuster - Adjust the height of your backboard and rim from 10' to 8'. Lightweight and easy to operate. Constructed of extruded aluminum interlocking channels, which provides tighter clearances resulting in less shake than other height adjusters on the market - even at the lower playing heights. Choose either manual operation or electric control. The electric height adjuster is driven by a 1/6 HP motor, requiring 120 volt power. Electric height adjusters may be hard wired, or temporarily powered off a standard 120 volt electrical wall outlet.

HEIGHT ADJUSTER STYLES:

Manual Height Adjuster (AHA) - Easily raises and lowers the backboard with a manual hand crank **HA-1H** (provided). The manual height adjuster may also be controlled using a portable Cordless Drill operator **CD-80H** purchased separately (see below).

Electric Height Adjuster with Key Switch Control (EHAKS)- Requires running a dedicated 120 volt, 15 amp circuit to the wall mounted key switch and motor. Three position, momentary operated key switch provided.

Electric Height Adjuster with Power Wand Control (EHAPW)- Control your electric height adjuster without the added expense of hard wiring. Does not require an electrician or permanent electrical wiring. Height adjuster comes with a built-in power wand receptacle. To operate, simply plug Power Wand into receptacle and any 120 volt, 15/20 amp wall outlet. (**HAPW-100** Power Wand purchased separately).

OPERATORS:

Power Wand Controller - Easy to use, portable hand held controller, plugs into standard 120 volt, 15/20 amp electrical wall outlet. Operates by moving the momentary toggle switch to desired position.

Manual Hand Crank - Replacement hand crank for manual height adjuster (6' long).

HAPW-100 10 lbs. **\$349 each**

HA-1H 5 lbs. **\$69 each**

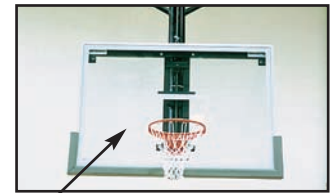

Cordless Manual Height Adjuster Operator

Heavy duty 18 volt Cordless Drill for operating the AHA-XX manual backstop height adjuster. Comes with charger, two batteries and an attractive carry/storage case.

CD-80H 18 lbs. **\$695 each**

Ceiling Suspended Single Drop Series with Electric Motor

The narrow profile of the AHA height adjuster maintains a visually "clean" target area.

Height Adjuster Kits for Existing Backstops

Take the guess work out of how to add a height adjuster to your existing backstop. Kits fit most common backstop frames. **Kits include: height adjuster** (choose manual or electric), **42" rectangular glass backboard** (GBRUB-42), **breakaway rim** (GBA-642), and **all mounting hardware** to attach to your center strut (6" OD to 6-5/8" OD) or double drop (H-frame) backstops. To order, choose your style of backstop and desired height adjuster (see description above). Double drop kits have mounting holes that are drilled in the field so they can fit most any frame width. See page 81 for edge padding info. Please call for assistance if you have any other configuration that is not listed below.

\$2,095 each

FieldPro Netting™

Safety, Goal Backstop or Perimeter Netting Systems for all Turf fields

In today's congested sports complexes with multi-use fields in close proximity to each other, keeping balls within the confines of the field is important. Stop wasting time during practices and games chasing missed shots or errant passes. Ensure the safety of athletes, coaches and spectators alike on adjacent fields and tracks. Jaypro's FieldPro Netting Systems offer ultimate design flexibility to suit your backstop and perimeter netting needs.

Offered in six different heights and pole styles.

- The **10 ft. Straight Pole System**, with multi-sport net, is ideal for use as a Lacrosse or Field Hockey backstop net. The net is clipped at the top and bottom of each pole for easy removal.
- The **15 ft., 20 ft. and 30 ft. Straight Pole Systems** come with an easy to use hoisting system, which allows quick and easy lowering or removal of the net after the game, the season, or before a big storm. Reinstalling the net is a snap - all from ground level, no need for a ladder.
- The **20 ft. Offset Pole System** provides 3 ft. of offset, which is ideal for use around the perimeter of soccer and baseball/softball fields. Plus, an added measure of safety from ricocheting balls.
- The **12 ft. Portable System** is ideal where in-ground netting systems are not appropriate. Used to divide any field or space to keep separation of sports or activities, indoors or outdoors. Poles are easily transported on a tip and roll base. Includes corrosion resistant hardware, cable clamps and sliding rings for easy net assembly.
- All in-ground systems come with **Ground Sleeves and Caps**, to allow for complete system removal.
- **Basic Features and Recommendations:** Maximum pole spacing is 20 ft. We recommend netting system to be set back at least 25 ft. from the playing field. Features include hoisting system (excluding 10 ft. and 12 ft. poles) and stainless hardware. Ground sleeves with caps come standard with all In-Ground systems. Tip and roll bases with 5 gallon jugs (filled in the field) and 10" diameter tires come standard with the Portable system.

In-Ground Systems

10 ft. Straight Pole with Optional Powder Coating

20 ft. Straight Pole

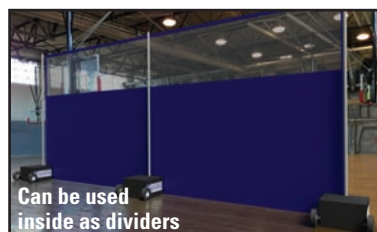

20 ft. Offset Pole

Portable System

No Flat Tires!!

Can be used inside as dividers

Tip & roll base for easy transport

Four jugs weigh down each base

ALL SURFACE FRIENDLY

Shown with optional base covers

Configure your Netting System

Step 1 Pick Your Pole

System Height and Pole Style:

10 ft. Straight	Heavy-wall 2-3/8" O.D., Aluminum Tube	FN-10
15 ft. Straight	Heavy-wall 4.0" O.D. Aluminum Tube	FN-15
20 ft. Straight	Heavy-wall 4.0" O.D. Aluminum Tube	FNS-20
20 ft. Offset	Heavy-wall 4.0" O.D. Aluminum Tube	FNO-20
30 ft. Straight	Heavy-wall 6-5/8" O.D. Aluminum Tube	FNS-30
12 ft. Portable	Heavy-wall 2-3/8" O.D., Aluminum Tube	PFN-12

Step 2 Pick Your Net

Nets:

- A** Multi-Sport, 1-3/4", #36 knotted nylon sq. mesh, UV treated, with 1/4" rope border
- B** Soccer/Football, 3-1/2", #36 knotted nylon sq. mesh, UV treated, with 1/4" rope border
- C** 1-3/4" knot-less HTPP sq. mesh, UV treated, with 1/4" rope border
- D** 4" knot-less HTPP sq. mesh, UV treated, with 1/4" rope border

Step 3 Determine Length & Build your System

EXAMPLE:

15 ft. Straight Pole: **FN-15**
with a Multi-Sport nylon net: **A**
Would like it to be 180 feet long...

This would be my item number: **FN-15-A x 180'**

Aluminum Tip & Roll Standard Bleacher

BLCH-4TRG

Tip and Roll Bleacher

All aluminum seat planks and understructure provide a lightweight, stable bleacher that is easily tipped for easy mobility. Seat planks are 10" wide non-skid aluminum. Transition foot prevents floor marking. Includes (4) 4" non-marring swivel casters. **Preferred bleachers are the same as our standard aluminum bleachers but with the addition of double foot planks on all rows.** Four row bleachers do not exceed 30" in height, therefore guard rails may not be needed! (Check your local codes).

Tip and Roll Bleacher

All aluminum seat planks and understructure provide a lightweight, stable bleacher that is easily tipped for easy mobility. Seat planks are 10" wide non-skid aluminum. Transition foot prevents floor marking. Includes (4) 4" non-marring swivel casters. **Preferred bleachers are the same as our standard aluminum bleachers but with the addition of double foot planks on all rows.** Four row bleachers do not exceed 30" in height, therefore guard rails may not be needed! (Check your local codes). Show your team or school pride with powder coated bleachers. See chart for available colors on both the planks and understructure.

NEW VOLLEYBALL SOCCER FOOTBALL LACROSSE BASEBALL FIELD MARKING SCOREBOARD BASKETBALL GYMNASIUM FIELD SEATING BALL STORAGE PHYS. ED. TENNIS

Do you know what's living on your sports balls?

Yuck! Sport balls are notorious for picking up and spreading germs and bacteria that can cause infections such as, MRSA, Whooping Cough, Pink Eye, STAPH, H1N1, Influenza and many other harmful diseases. It's a health risk! Is this what you want circulating through your sports program?

These images are actual culture samples from schools around the United States.

*The **germninja**® is designed to kill germs on sports balls and protect students/athletes of all ages from bacteria and viruses that cause disease.*

CHEMICAL FREE!

We use the same technology that Operating Rooms use to sterilize its equipment, but we apply it to a sports ball. Jaypro sanitizes sports balls with ultraviolet light, killing off harmful micro-organisms without ruining the surface of the ball.

Safe for all sports balls, leaves no residue behind!

"Germninja is a revolutionary product that will help protect your athletes from viruses. It's a proven and effective way to help prevent germs spreading within your Team."

Hugh McCutchen, Head Coach
University of Minnesota

germninja®

*The **germninja**® Ultraviolet Sports Ball Sanitizer is your teams defense against bacteria and germs that cause contagious infections.*

Kills bacteria and germs that can cause Strep, Staph, H1N1, E.coli, Salmonella, MRSA, Influenza, Whooping Cough, and other contagious infections. Chemical free nontoxic technology that is made in the USA. 50% of plastic used in this device is made from recycled materials. Safe for all sports balls, leaves no residue behind. Unique design allows balls to roll past the sanitizing lights to ensure every nook and cranny is disinfected. An optional cover is available for the unit, call for details and pricing. Call Customer Service for information on sponsoring a **germninja**® for your school system!

IMPORTANT SAFETY NOTICE

Game standards are heavy pieces of gymnasium equipment and require proper set-up, handling and maintenance by trained supervisory personnel only.

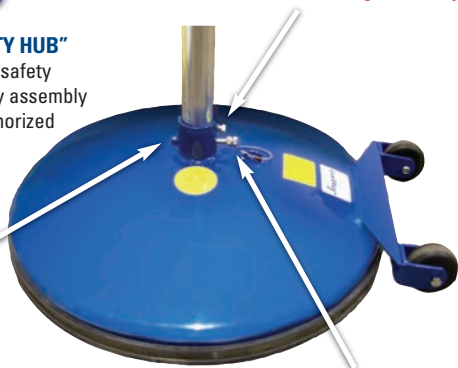

EXCLUSIVE "SAFETY HUB"

Jaypro's exclusive "safety hub" allows for easy assembly and prevents unauthorized tampering.

Extra drive pin secures the upright to the hub for an extra margin of safety

Nut is welded to hub so it can not be lost

Shown in Royal Blue

Safety bolt is tethered to hub so it cannot be lost.

CUSTOMER INFORMATION AND TERMS & CONDITIONS

Contact Us:

Ph: 800-243-0533
860-447-3001

Email: info@jaypro.com

On-line: www.jaypro.com

Fax: 800-988-3363
860-444-1779

Mail: 976 Hartford Tpke
Waterford, CT 06385

How do I place an order?

Schools and municipalities are required to fax, email or mail a purchase order to receive Net 30 terms. Prepaid orders can be placed with a credit card over the phone, on our website or can be mailed in with a check. Confirmations will be sent via email only upon request.

How will my order ship?

All small parcels ship via UPS or FedEx. Items marked with the truck icon  will ship via common carrier. A contact name and phone number are required for carrier convenience. Deliveries to a non-commercial address carry an additional fee. Commercial addresses have a receiving dock/area and have someone present to offload and sign for deliveries during normal business hours. Drivers delivering truck shipments are only required to move freight to the edge of their truck. Truck accessorial options (inside delivery, 24 hour notification, lift gates, etc.) carry additional charges. All deliveries are FOB Waterford, CT or manufacturer. Refused shipments will incur charges for both directions of travel and are subject to a 20% restocking fee. Original freight will not be reimbursed. Express delivery may be available for small parcels. Please contact Customer Service for details.

When will I receive my order?

Jaypro is committed to shipping orders for all stock items within 48 hours. Once your order leaves our facility, transit times will vary from 1-6 business days depending on your location. Out of stock or custom items, and items shipped from separate locations may have extended lead-times.

Quotes

Quote requests may be faxed, mailed, or emailed at any time. Jaypro will return a written quote including a quote number and expiration date. When ordering, a copy of the quote or the quote number must be referenced for the pricing to be honored. All verbal quotes (pricing and freight) are estimates only. Jaypro is not responsible for honoring verbal estimates as pricing and freight costs are subject to change without notice.

Prices

Prices are subject to change without notice. Prices are in US dollars. Jaypro is not responsible for international exchange rates.

Discrepancies & Returns

All discrepancies must be reported within 30 days of the ship date. Jaypro is not responsible for any claims after 30 days. We reserve the right to replace, repair or refund as appropriate.

Returns

Jaypro will accept the authorized return of all standard products for any reason within 30 days of the ship date. SPECIAL ORDER/ CUSTOM COLOR ITEMS ARE NOT RETURNABLE. Customers must obtain a return authorization number from Jaypro after supplying the invoice number, item number, and reason for return. Please contact Jaypro prior to making any returns as unauthorized returns may not be accepted. Customer is responsible for a 20% restocking fee and return freight charges. Original freight charges will not be reimbursed. All returned merchandise must be in its original packaging and must include the return authorization number on the label.

Freight Damages & Discrepancies

Damages or shortages must be reported within 30 days of the ship date. It is the responsibility of the customer to sign the delivery receipt as damaged or short. Jaypro is allowed by the carrier 30 days from the delivery date to file a claim on shipments with noted damage or shortages and 10 days on concealed damage. If Jaypro is notified within this time

frame, we will replace as needed and file the claim with the carrier. If we are notified after this time frame, it is the responsibility of the customer to secure settlement with the carrier and to purchase replacements.

Payment Terms

We accept checks, American Express, Discover, MasterCard, and Visa. Approved schools and municipalities are required to submit a purchase order and will be billed Net 30 from the invoice date. In our efforts to go paperless, invoices will only be emailed, therefore an email address must be provided on the purchase order. We encourage customers to make ACH payments whenever possible. Please contact our accounting department for required set-up information. All past due accounts are subject to a 1.5% per month (18% per year) interest charge and collection costs. Any approved account choosing to pay by credit card after the invoice date may be subject to a 3% credit card processing fee. Returned checks will result in processing fees added to customer accounts and may result in suspension of credit privileges. The check writer is also responsible for all other check recovery costs (\$35 fee), including attorneys' fees, court costs, and taxes.

Tax

Connecticut residents are subject to 6.35% sales tax and New Jersey residents are subject to 7% sales tax unless a copy of the tax exempt form or resale certificate is provided. Tax exemption is only applicable if the purchase and payment are made by the exempt organization. Personal purchases for the organization are not tax exempt.

Warranty & Product Information

Limited Warranty: Jaypro warrants most of our products against defects in workmanship and material for three years from the date of shipment, unless otherwise noted in the catalog. Nets are warranted for one year. Warranties on other manufacturer's products shown in our catalog may vary and are subject to change without notice. Normal deterioration of products due to weather, wear and tear or other causes that do not affect the functional use are not covered by the warranty. In no case do we warrant any product's safe and useful life to be greater than twelve years. Alteration or modification of the product voids any warranty. Jaypro reserves the right to repair, replace, or refund as appropriate. Please contact Jaypro for instructions and return authorization. This limited warranty is exclusive and in lieu of all other warranties, expresses or implied, including warranties of merchantability and fitness for a particular purpose. Jaypro shall not be liable for any incidental or consequential damages of any nature whatsoever. This warranty gives you specific legal rights, and may have other rights, which vary from state to state.

Product Redesign

Jaypro reserves the right to redesign or change material of products shown in this catalog in order to improve safety, durability, or value.

Warning

All sporting activities carry the risk of injury to the participants. Improperly maintained equipment and inadequately supervised programs are significant contributing factors. All equipment must be thoroughly inspected and maintained to reduce risk to the users.

Thank You

We appreciate your business. Whether you are a returning customer, or if it is your first experience with us, we will do whatever we can within reason to ensure your complete satisfaction. Please contact our Customer Service Department should you have any questions about our products, policies, or services.

We reserve the right to correct typographical errors.
